

Curriculum Options:

Free & Low Cost Online Curricula Options And Other Online Curricula Plus Workbook or Textbook Curricula

If you are new to homeschooling, we usually recommend using the fill-in-the-blank workbooks because they are easy to schedule, easy to grade and do not require internet access. You can always change to another curriculum if you want to try something else. For each of these companies, you will need to setup an individual/family account to order.

List below are different types of curricula that you can choose from or we can help you choose one. We are always here to help if you need us.

EasyPeasy and it is free online but you can order some reasonable books to work in for about \$7-\$9. You do have to setup a family account and choose your student's courses. For PreK-8th, www.allinonehomeschool.com
For 9th-12th, www.allinonehighschool.com

PowerHomeschool www.powerhomeschool.org - by Acellus which is approximately \$25/month. Many public schools use the Acellus curriculum so this is a link for only homeschoolers to sign up and use the same curriculum at home. You will set up a family account to order.

Other online curricula options that you might like to go online and view the demos are:

www.time4learning.com PreK-8th \$24.95/mo 9-12th \$34.95/mo

www.aop.com/monarch \$399.95/yr

www.keystoneschoolonline.com

www.americanhighschool.org

www.laurelsprings.com

www.acsi.org

Of course, there are other types of curricula including fill-in-the-blank workbooks like:

AOP Lifepacs (www.aop.com or 1-800-622-3070)

A.C.E. PACEs (www.store.aceschooloftomorrow.com or 1-800-925-7777)

****Note:** A.C.E. may try to get you to buy Diagnostic Tests or Training Kits but they are not required to use the curriculum or to homeschool. They are optional.**

Some curricula options use textbooks and worksheets. Both of these above have questions, quizzes and tests for the student to complete plus a Teacher's (Parent) Guide with the answers so you can determine their grades.
