

OHIO PHYSICIANS FOR REPRODUCTIVE RIGHTS

Who we are

GRASSROOTS PHYSICIAN-LEAD ORGANIZATION

Ohio Physicians for Reproductive Rights (OPRR) are patient-focused advocates for reproductive healthcare in the post-Roe era. Our mission is to ensure patients have access to safe, legal, equitable, and comprehensive reproductive medical care for all Ohioans and to protect the doctor-patient relationship from government interference, so that people can make their own reproductive health care decisions.

We have established a ballot initiative political action committee (PAC), with intent to raise money that will support a ballot measure protecting abortion access in the Ohio Constitution, similar to what is on the ballot this November in MI, CA, VT and KY. Ohio Physicians for Reproductive Rights is committed to raising enough money to make a ballot initiative a reality in Ohio as soon as possible.

Our Team

Ohio Physicians for Reproductive Rights is a team of >1400 physicians and hundreds of non-physician allies. OPRR is working alongside numerous advocates who are researching the optimal timing and language for a ballot measure. We are represented by the R Strategy Group, Scott Goodstein, as well as McTigue & Columbo LLC.

Fundraising Goals

Total cost of a successful ballot initiative is \$20-30 million.

OPRR intends to be an integral part of the funding and driving initiative.

To jumpstart this process, we must raise \$250,000 by Nov. 30th, 2022.

We need your help.
