The Music of Stevie Nicks

White Wing Dove - The Show

What started out as a fun band that loved performing classic rock hits from the 70s, 80s and 90s, White Wing Dove - The Music of Stevie Nicks slowly became a reality, as audiences absolutely loved Kim DeCosta's vocals and in character performance of the Steve Nicks songs and great music from the band.

During the summer and fall of 2022, specific Stevie Nicks songs continued to be added behind the scenes, as Kim and the band performed short glimpses of what the show would be like. The response by audiences was a resounding "give us more, we can't wait to see the full show!"

In January 2023, the show auditioned and added two vocalists to handle background vocals for many of the songs that Stevie Nicks wrote and or still performs, and that audiences absolutely want to hear!

White Wing Dove - The Music of Stevie Nicks is the culmination of passionate, creative people, high level skill sets and crafty song arrangements from some of the most amazing musicians and vocalists ever to be heard in a show.
