

GRABER®

DISCOVER YOUR BEST SOLUTION

When choosing custom window treatments, consider your personal style and other key factors. Review the benefits of each Graber product to pinpoint the perfect solution for you.

Light Control

Products rated “best” on the chart have the most light control options—from sheer to blackout.

Energy Efficiency

These products (liners not included) help insulate your window or reflect the sun’s heat away from your room, lowering your energy bill year-round.

Wide Window

Easily coordinate every window in your room, no matter the size. And take care of that patio door, too.

Motorized

Convenience, safety, and home automation are at your fingertips—and with a bit of a wow factor!

Heat/Humidity

Engineered to withstand heat and humidity, these blinds and shades are functional and stylish. Your bathroom and laundry room will thank you.

Flame Resistant (FR Rated)

These Graber products are FR rated, meeting the National Fire Protection Agency’s NFPA 701 standard for flammability.

Price

With every product, you’ll get high design and high quality at a reasonable price.
