Work-Trade Questionnaire

Work-trades are intended for people who would not otherwise have the funds to attend our training programs. The work-trade is an application process to determine your skill set and what projects might fit you best. Credits will be awarded towards training programs at the rate of \$15 per hour for work performed. For those with more skill set we will work together to adjust the hourly rate to a fair price based on our needs and your experience. After your application is received MOLC will determine what projects are of the highest priority for the school and that also suits your skills and abilities. The work-trade must take place before any training program begins, and not after.

What training program are you interested in using your work-trade credit for?

How much time would you like to commit to performing work-trade?

Do you have any physical limitations that could hinder your ability to perform physical tasks?

Please describe your skilled trade and experience that you'd like for work-trade:
