## ABOUT US

Hi-Shine is a professional-grade polishing compound for dental metals and acrylics.

It delivers a deeper luster, longer-lasting shine, and greater control with minimal product use — ideal for partials, ortho appliances, and dental lab finishing work.

## PRODUCT BENEFITS:

- Produces a deeper luster and longer-lasting shine
- Economical use – A light brushing goes a long way
- Prevents acrylic burning – Easy to control, even at low speed
- Safe for partials and orthodontic metal

## DIFFERENTIATORS:

- Trusted by dental labs and technicians
- Compatible with both metal and acrylic appliances
- Scalable fulfillment for institutional and government buyers

Available as 3-pack

Available as single  
polishing bar
