*"Charity is not just about giving something to the poor, it's about providing them with the nourishment to thrive and live a fulfilling life."*

Mr. Gaurav J Patole | Founder, The Bread of Life (BOL) Foundation

# CHAIRMAN'S MESSAGE

I am honored to address you as the chairman of the BOL Foundation, and I want to take this opportunity to express my gratitude for your unwavering support in our mission to create positive social change and improve the lives of people in need.

Our programs have empowered countless individuals to break free from the cycle of poverty and lead fulfilling lives. However, none of this would have been possible without your support.

As a startup nonprofit organization, we recognize that we cannot achieve our goals alone. It is through the tireless dedication and generosity of our supporters, stakeholders, donors, and volunteers that we are able to make a real difference in the world. Your contributions, whether they be financial or through your time and expertise, have enabled us to carry out vital programs and initiatives that have had a significant impact on the lives of those we serve. I want to assure you that we are committed to being good stewards of the resources you have entrusted to us. We strive for transparency and accountability in all of our operations, and we continuously evaluate and improve our programs to ensure that they are making the greatest possible impact.

Thank you once again for your dedication and commitment to the BOL Foundation and our mission. We could not do this work without you.

“  
**As we move forward, I ask for your continued support and partnership. Together, we can continue to work towards a world where every person has access to the resources and opportunities they need to live a fulfilling life.**

As you know, BOL Foundation is a startup NGO that is committed to creating a positive impact on society.

We believe that every individual deserves equal opportunities and access to resources to improve their lives. Our mission is to empower underprivileged communities by providing education, healthcare, and livelihood opportunities.

Startup NGOs like ours are critical for the good of society for several reasons.

Firstly, we bring fresh ideas and approaches to addressing social issues. As a young organization, we are not bound by traditional ways of doing things and are always exploring innovative solutions to social problems. This allows us to be more agile and adaptable in our approach.

Secondly, startup NGOs are often more efficient and effective in utilizing resources. We are highly focused on achieving our goals with the limited resources available to us. We are also more accountable to our donors and supporters as we understand the importance of being transparent and responsible with the funds entrusted to us.

Thirdly, startup NGOs can create a ripple effect of change. Our work inspires and motivates others to get involved and contribute to the cause. By mobilizing a community of supporters, we can create a sustained impact and work towards long-term solutions.

“

**At BOL Foundation, we have witnessed firsthand the transformative power of our work. Your contribution can make a significant difference in the lives of those in need. Together, we can create a brighter future for our society.**

Sincerely,

A handwritten signature in black ink that reads "J. Patole". The signature is written in a cursive style with a horizontal line underneath.

**Mr. Joseph J Patole,**  
Chairman

## OUR MISSION

Bread of Life (BOL) Foundation is a registered and government-approved non-political, interfaith and caste-free trust, and non-profit organization (NGO).

We have successfully obtained trust registration [Reg No: E-1360] under the Bombay Public Trusts Act, 1950 of Govt of India along with 12A and 80G Tax Exemption, as per the provisions of the Income Tax Act, 1961. As our work matures, we will begin registration for foreign contributions aka FCRA.

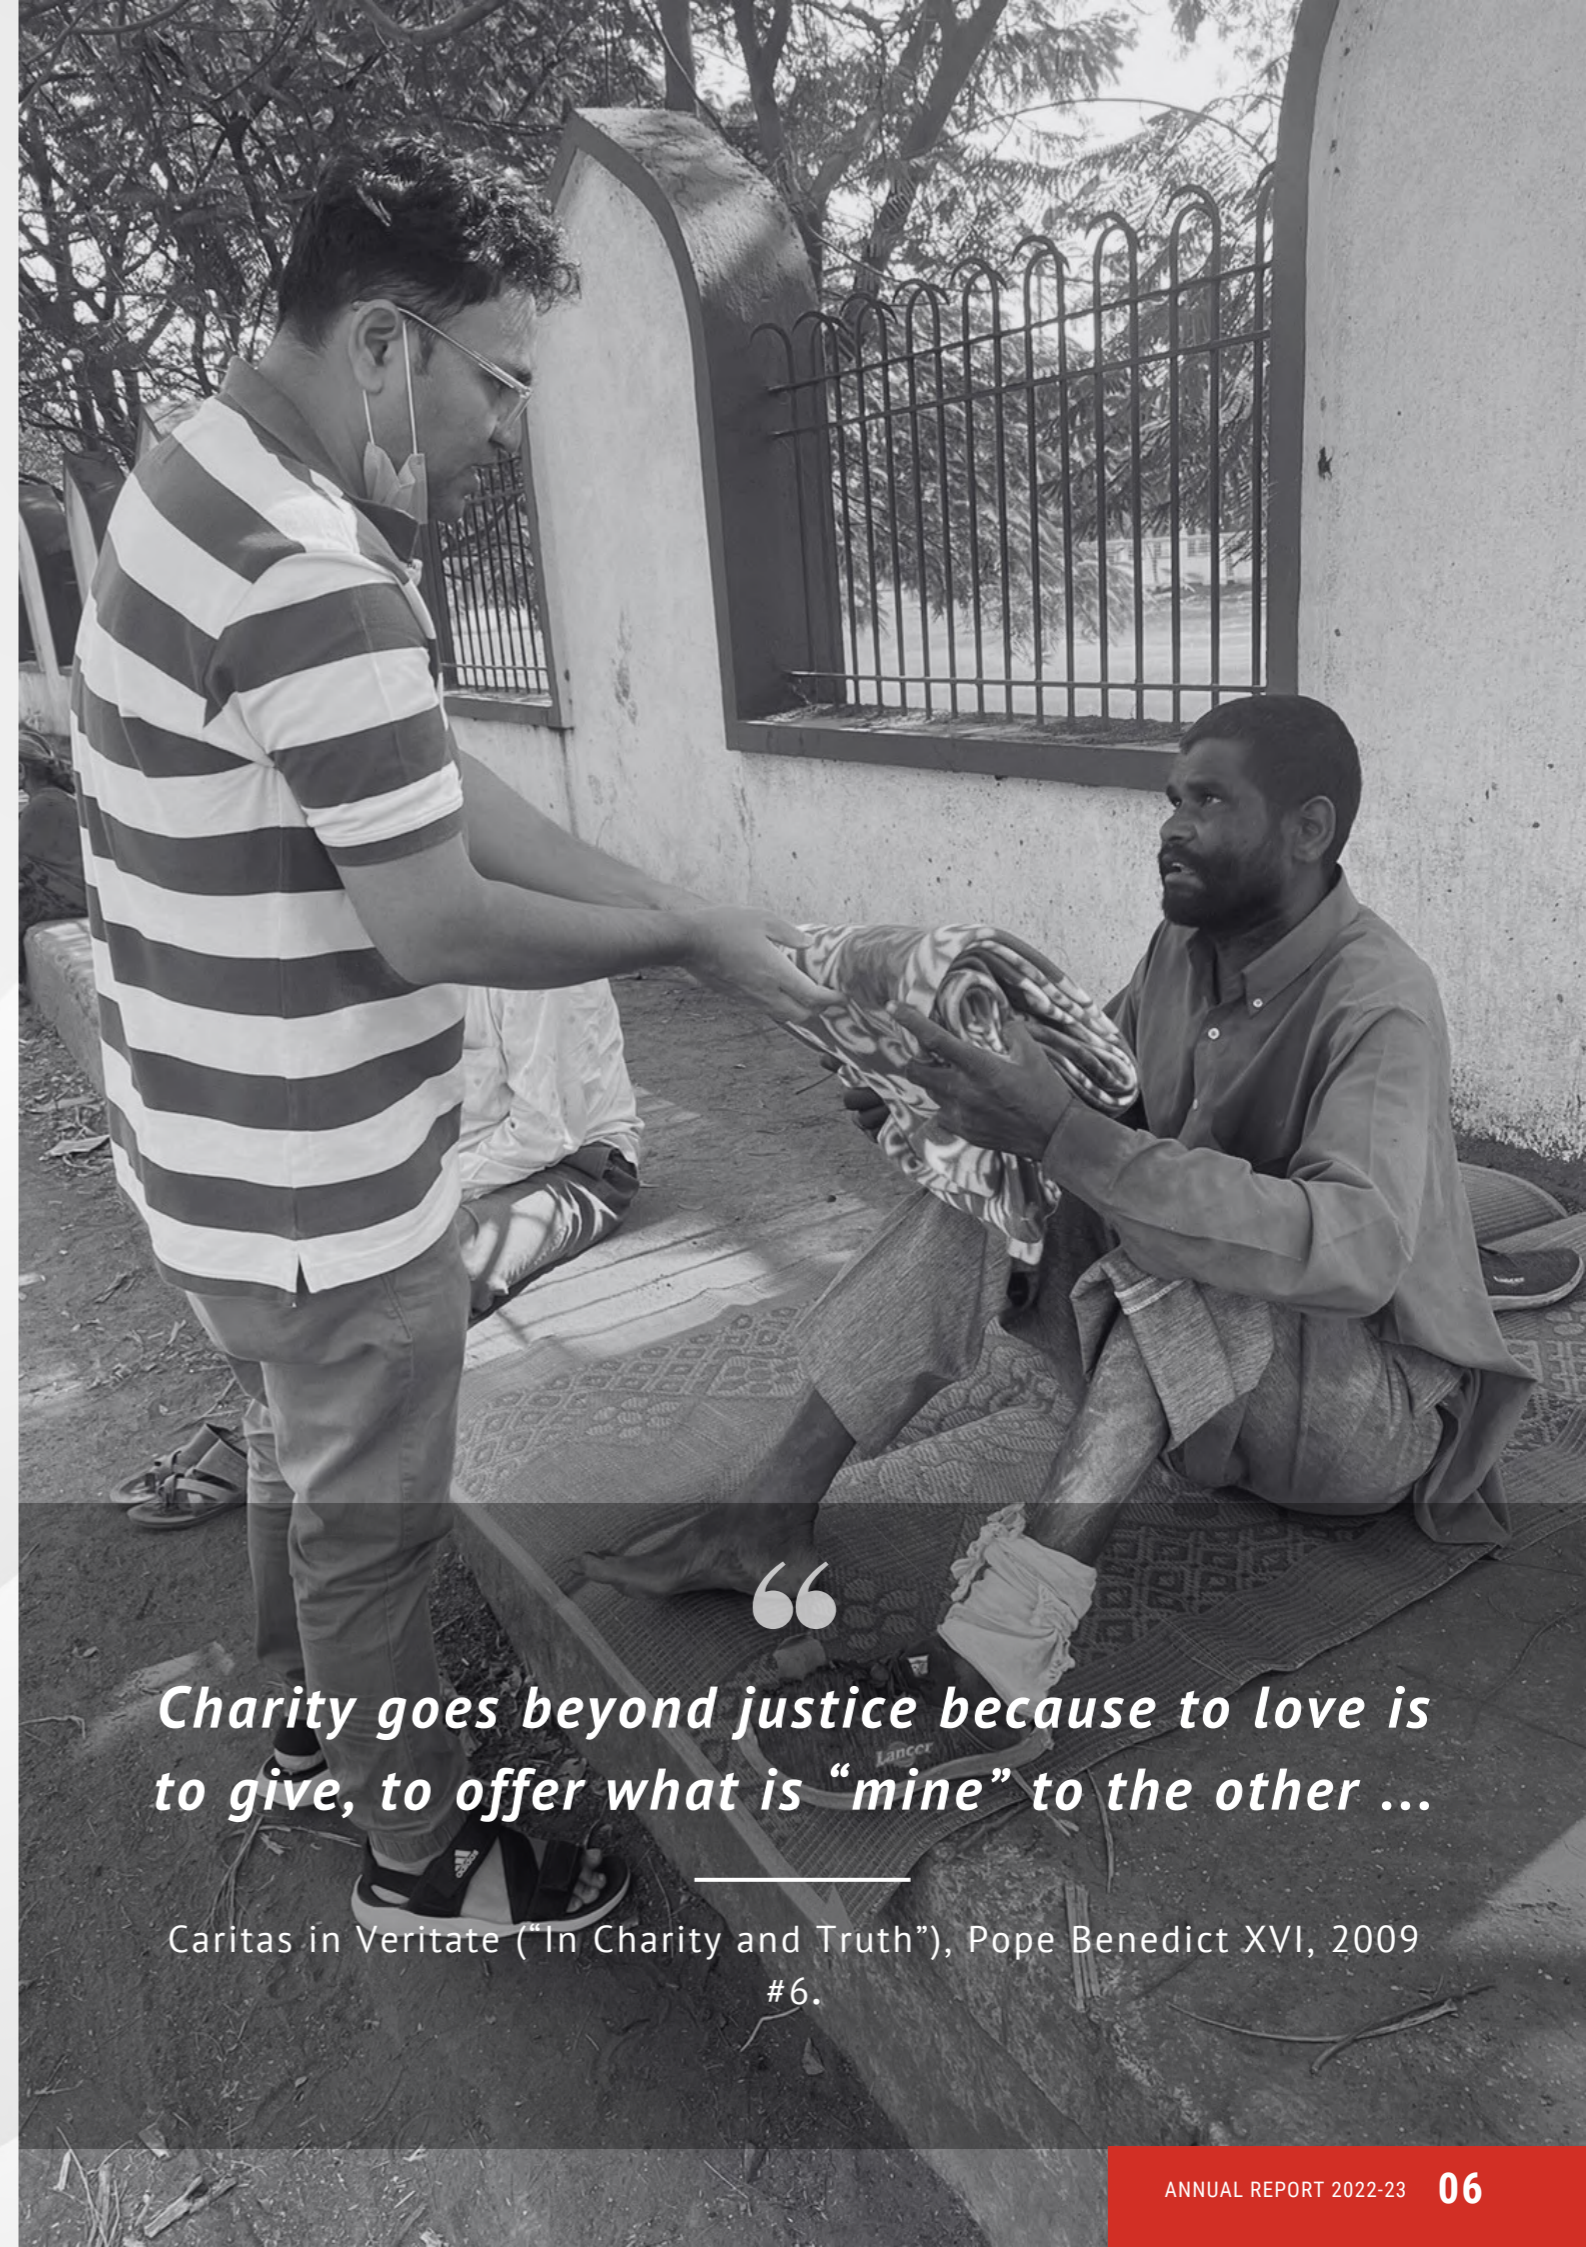

The existence of the foundation is aimed to address the harsh reality of our neighbor's misery anguished with extreme material, cultural, and spiritual poverty.

Under the patronage of the Noble Peace Laureate, St. Mother Teresa of Calcutta, the foundation strongly believes that "Service to mankind is service to God".

“

**To offer the bread of life, by providing works of charity to address various forms of poverty within the society...**

The BOL foundation takes pragmatic steps to fulfill the common good of the society by recognizing that the indigent neighbor who is to be loved is everywhere and everyone in the "society" irrespective of caste, creed, color, culture, race, sex, etc.

“

***Charity goes beyond justice because to love is to give, to offer what is "mine" to the other ...***

Caritas in Veritate ("In Charity and Truth"), Pope Benedict XVI, 2009 #6.

## ABOUT US

### What is our vision statement?

“To allow people, to reach their ultimate fulfillment more fully and more easily.”

### What are the objectives of the foundation?

The core objective of the B.O.L. foundation is to ‘**exercise the works of mercy**’ (Punyā kārya or Dayā kārya), which are charitable actions by which the foundation comes to the aid of our neighbor in their bodily and spiritual necessities. The core objective is divided into seven corporal and seven spiritual objectives.

Each of the below **seven corporal works of mercy** remedies a deficiency in our neighbour’s bodily need:

1. Feeding the hungry
2. Giving drink to the thirsty
3. Clothing the naked
4. Sheltering the homeless
5. Visiting the sick
6. Visiting the imprisoned
7. Burying the dead

Each of the below **seven spiritual works of mercy** remedies a deficiency in our neighbour’s spiritual need:

1. Counselling the doubtful
2. Instructing the uneducated
3. Admonishing the sinners
4. Bearing wrongs patiently
5. Forgiving offences willingly
6. Comforting the afflicted
7. Praying for the living and the dead

The BOL foundation will come to the aid of our neighbor in their bodily need, where he or she experiences, a consistent lack of resources, whether internal (food, thirst), external (cloth, shelter), or suffering (diseases, imprisonment, and burial). Not only bodily, but human persons suffer deficiencies in their spiritual dimension too, to which the spiritual works of mercy respond, either by imploring the help of God (prayer), intervening by instructing or advising others (treating deficiencies through teaching, providing counseling), comforting (in suffering and sadness), or by reacting to the disorders of their action (admonishing, forgiving, bearing with them).

The spiritual works of mercy are therefore more valuable than material aid, although there are situations in which the latter is more urgent (Noye, 1980). All of the above works of mercy would be exercised and provided, without charge, to people regardless of their religion, gender, social caste, creed, color, or nationality. These works of mercy will serve as a testimony of the preferential love for the Poor.

It can be observed that the listings of fourteen works of mercy – seven corporal and seven spiritual – corresponds to four kinds of poverty (Kasper, 2013):

1. **Physical, or economic poverty:** The most basic, is poverty of such as having no food, or drink to satisfy hunger and thirst, no roof, no clothes, & no shelter, to which could be added unemployment and serious illness or disabilities. This poverty is attested to in the first four corporal works of mercy.

2. **Cultural poverty:** Physical poverty is followed by cultural poverty, with illiteracy at its root, along with the absence and lack of education opportunities, &, ultimately, the lack of a future with the social and cultural exclusions it carries. This poverty is met by the first three spiritual works of mercy,

3. **Social and relational poverty:** This poverty stems from solitude and withdrawal, the death of a spouse, the death of family members and close friends, external and internal difficulties of social communication of all kinds, discrimination, & marginalization, to isolation by imprisonment and exile. This poverty is addressed in the fifth, sixth, and seventh corporal works of mercy & the fifth and sixth spiritual works of mercy.

4. **Spiritual poverty:** Spiritual poverty means disorientation, inner emptiness, distress, & even despair about the meaning of one’s own existence, moral & spiritual confusion, self-abandonment, etc. This poverty is attested in the sixth and seventh (comforting & prayer) spiritual works of mercy.

The BOL Foundation came into existence as a result of a religious vision experienced by the founder Gaurav Joseph Patole in the year 2012. While participating in the 4:30 PM CST Mass at St Ann's Church, Coppell, TX, USA, during the consecration of the host, Gaurav experienced a religious vision where he saw the crucified image of Jesus juxtaposed with the Eucharistic host.

This vision was so vivid, it left Gaurav in a state of awe and weeping. This life-changing encounter with the Eucharistic Lord would then inaugurate and sow the seeds of the future BOL Foundation. Jesus's biblical mandate to carry the 'works of mercy' for the poor would soon become the foundation's own mandate and objective.

As time went along, the foundation started shaping by the ardent spiritual support of Dr. Fr. Nelson Falcao (SDB), Fr. Bento (SDB) of St John's Parish, Bhingar, and the guidance of Mr. Joseph J Patole, Mrs. Shobha J Patole, Mrs. Shruti G Patole, Mr. Amit Joseph Patole & Entire Patole family. In 2012, BOL Foundation started working at the grass-root level for the poorest of the poor. The discernment to form BOL Foundation completes post a miraculous near-death experience by the founder Gaurav. The foundation got officially registered in 2022 and continues to work for the poorest of the poor.

Bread of Life (BOL) Foundation has been dedicated to helping the poorest of the poor through its charity work since 2012. The organization's efforts have been focused on providing food, shelter, education, and healthcare to underprivileged communities along with its other core objectives. Over the years, BOL Foundation has expanded its outreach from Maharashtra and now serves the needy people of Karnataka and Tamil Nadu as well. The Foundation has set up various initiatives, including free medical camps, distribution of food and clothing, and education programs for children.

The organization has also been involved in disaster relief efforts, providing aid to communities affected by natural calamities such as floods and cyclones. BOL Foundation has made a significant impact on the lives of the people it serves, providing them with hope, support, and dignity. The Foundation's work is based on the belief that every human being deserves access to basic needs such as food, shelter, and healthcare. With this principle in mind, BOL Foundation continues to serve the poorest of the poor in India, providing them with the support and resources they need to lead a better life.

(Translated by Google) The work of BOL Foundation is inspiring. Shri Patole brothers are always trying to help the needy. Work for poor street orphans. Food and clothes are provided for them. They bear the hospital expenses for corona affected people. PPT insecticides, sanitizers, groceries for the needy persons are paid by them at their own expense. When my financial situation was bad during Corona, my little son fell ill and I needed financial help for his hospital expenses. I came to know about Boll Foundation from my friends. I called the Patole brothers and they assured me of help then their father Mr. Patole came to visit the hospital and examined the patient and credited the hospital expenses to the hospital account. I found their help very valuable as the situation was such and someone was ready to help. Bol Foundation came to my aid at that time. I am very thankful to them for their help. Best wishes for your social service from me and my family..... 🙏🙏🙏🙏

These people are doing God's work and I pray they have more strength to continue this in future. We just delivered the food to them and they did the job of distributing it to the needy. Thank you so much Joseph Patole and family 🙏
