

12 Volt DC Pump - Controller

Applications:

- **Ideal for low volume starter fertilizer applications with drills and planters.**
- **Sprayers using 12 VDC pumps also benefit from these controls.**
- **Run 2 pumps from 1 controller**
- **Use on any brand of pump**

Features:

- **Rheostat manual speed control for 12 volt Pumps.**
 - **Smooth adjustment from low to high.**
- **Reverse polarity protection.**
 - **Built-in circuit breaker – NO FUSE to deal with in the field!**
- **On/off control switch with LED power indicator.**
- **Available with or without integrated stainless steel gauge.**
- **Mounts in the tractor cab for easy access.**
- **Standard run/hold circuit to automatically turn pump on and off when equipment is raised or lowered when used with sensor or whisker wire switch (sold separately).**
- **Easy to use connectors for power and pump.**
- **6" wiring pigtails for power input and output.**

Benefits of Digital Gauge Display Models – 30 amp only:

- **No pressurized fertilizers or chemicals in the tractor cab.**
- **Illuminated, easy to read digital display**
- **New and improved Heavy-Duty OEM style stainless steel pressure sensor with standard 1/4" male NPT connector and 20' wiring harness included (15' extension harness available).**

All Koehler Electronics controls are backed by a **2-year warranty**

Koehler Electronics has been selling pump controls for over 20 years! We have new and innovative designs based on feedback from industry experts and farmers alike. Our standard controls come in 15 and 30 amp models.

Because we truly believe in the farmer, we also carry custom and unique designs. Please contact us if you have a unique situation, we will work with you to help come up with the best solution for you.

12 Volt DC Pump - Controller

15 Amp Controllers

15 amp control, no gauge	KEX15-NG
15 amp control, with stainless steel gauge	KEX15-G

30 Amp Controllers

30 amp control, no gauge	KEX30-NG
30 amp control, with stainless steel gauge	KEX30-G
30 amp control, with digital display	KEX30-DD

10 and 50 AMP controllers available - call or email for more information

Accessories

Wire set includes 10 ft. red/black power input and 20 ft. black/white pump output	KEXAC-10
20 ft. black/white pump output extension cable	KEXAC-11
15 ft. digital pressure sensor extension cable	KEXAC-20
Replacement transducer for model KEX30-DD	KEXAC-21
Replacement cable for transducer	KEXAC-22
