

TEN SIGNS OF A CULT

Rick Ross is an expert in cults and developed this list of ten warning signs for unsafe groups, which is published by the Cult Education Institute.

1. Absolute authoritarianism without meaningful accountability
2. No tolerance for questions or critical inquiry
3. No meaningful financial disclosure regarding budget, expenses such as an independently audited financial statement.
4. Unreasonable fear about the outside world, such as impending catastrophe, evil conspiracies and persecutions
5. There is no legitimate reason to leave, former followers are always wrong in leaving, negative or even evil.
6. Former members often relate the same stories of abuse and reflect a similar pattern of grievances
7. There are records, books, news articles, or television programs that document the abuses of the group / leader.
8. Followers feel they can never be 'good enough'.
9. The group / leader is always right
10. The group / leader is the exclusive means of knowing 'truth' or receiving validation, no other process of discovery is really acceptable or credible.

The first to present his case seems right. til another comes forward and questions him. - Proverbs18:17 NIV

Authoritarian, no questions or second opinions allowed, extreme fearful predictions, only approved experts know the truth and no other views are credible. Those who suppress alternate views on the climate, Covid, origin of the universe and other issues have some cult-like characteristics. You can explore them yourself.
