

Jesus showed us how to live in this material world. One of his most common teachings was about economics. The Greek word for it was 'oikonomia', which means 'management of a household'. Jesus often talked about money and material resources, and the importance of being good stewards of them. He encouraged us to be productive with the gifts and resources that we have been given. He had words of warning for the greedy, the wicked and the lazy at times. He also said:

Whoever can be trusted with very little can be trusted with very much, and whoever is dishonest with very little will also be dishonest with very much. So if you have not been trustworthy in handling worldly wealth, who will trust you with true riches....you cannot serve God and mammon (money)." - Luke 16:10-13

"A little thing is a little thing, but faithfulness in the little things is a great thing." - Hudson Taylor, missionary to China

"The love of money is a root of all kinds of evil." - St. Paul

"Jesus Christ gave himself for our sins to rescue us from this present evil age...." Apostle Paul - Galatians 1:4 NIV

"Do not let the world squeeze you into it's mold....." - Romans 12:2 Phillips translation

God believes in private property, individual responsibility, generosity and free enterprise. Monopoly capitalism is not free enterprise. John D. Rockefeller once said: "Competition is a sin". Many large corporations rule over governments today in a form called crony capitalism. They seek special favors from big government etc. And then there is socialism.....the favorite of those who reject God's ways.

"Socialism is the antithesis of Christianity. It is urged by people who have lost faith in God and the power of their religion to motivate men, and who have resorted to government and coercive power of the state as a substitute."
- Archbishop Fulton Sheen N.Y. Journal American 5-7-1961

Many of the Caesars in the first century were very much anti-Christ type figures, especially Nero and Domitian. The early church suffered great persecution. During the old Soviet Communist regimes, the people had no freedom to express themselves. Alexander Solzhenitsyn spent 12 years in a Russian gulag prison for joking about Stalin's moustache. Throughout history there have been 'beast systems' which required obedience in thought and actions (symbolized by the forehead and hand). Before Jesus returns, a final economic system will arise. Throughout the last book of the Bible, Jesus encourages God's saints to be faithful and to **endure** to the end of this age. It will require **overcomers** like Daniel and his righteous friends who stood boldly for God and resisted Babylon's dictates. Jesus will show up again to help his people through fiery furnace situations! The early church was willing to lay down their lives for Jesus. The end time church will be willing to do the same. God's people will be praying like they have never prayed before! They will be purified and refined through persecution. - Daniel 6:10. Today the most vibrant Christianity is not in the affluent and soft western culture, but in China and Iran, where persecution is rampant.

"He also forced everyone, small and great, rich and poor, free and slave, to receive a mark on his right hand or on his forehead, so that no one could buy or sell unless he had the mark, which is the name of the beast or the number of his name." - Rev.13:16-17

The last economy in place before Jesus returns to earth will seek to force all to take the mark. The **hand** represents what we **do** and the **forehead** represents our **thoughts**. The last despotic ruler will require complete submission in all areas of life. He will be fully possessed by Satan, the one who once wanted to overthrow God from his mighty heavenly throne. This will be his last gasp for authority and worship. His ways lead to tyranny not true freedom. He inspires leaders who see people as masses to be marked and numbered like animals. They are only to be used for the benefit of themselves and the great collective. We think of Lenin, Stalin, Mao-Tse Tung, Hitler, Saddam Hussein etc.

Already there have been RFID (radio frequency ID) chips implanted in animals and in people. Most mobile phones already have them. I can see using them for animals but not for people. We are not certain what the mark of the beast will be, but it will be an acknowledgment of dependence and obedience to someone else besides Jesus Christ. I am not an animal who needs to be tracked by some other human being. God has already **marked me with the Holy Spirit**; that is enough. - Ephesians 1:13. He is watching over me and knows everything about me, even the thoughts and intents of my heart.

Cultural Marxism (political correctness) is seeking to control the thoughts of society today, as it crowds out the use of the Bible as final authority for truth and morals. The final world leader will treat men as animals who are herded together like mindless sheep. God wants us to be people not sheeple. People are getting very accustomed to marks on their body. They are being 'conditioned' to what could be an actual mark that will signify their submission to an anti-God leader. **Brainwashing occurs when people stop thinking for themselves and just follow the herd.**

I grew up on a dairy farm. All of our cows had tags and numbers so that we could keep track of their milk history etc. We had one cow with a name because she gave an extraordinary amount of milk. She was special, so we named her Pete, after her original owner, Pete Schurman. God considers all of us as special, because he made us for Himself, that we might know and enjoy Him. All he asks is that we trust Him and follow Him for He has our best interests at heart. He wants us to enjoy being free in Him, not to do whatever 'we' want, but to do what is right according to his desires. **His commands were given to insure our maximum protection, pleasure, purpose and prosperity (fruitfulness).**

There is another who wants to be god, who wants the opposite for us. It is **Satan**, who is also called **'Abaddon', the destroyer** - Revelation 9:11. **The devil's fruit is:** darkness, disruption, distortion, distress, deception, discord, despair, drunkenness, disease, depression, discontentment, doubt, dirt, desolation, degradation, destruction, debt, dependence, depopulation and death. Speaking of **debt**, that is where he wants all of us, including all nations. (Marxists use the Cloward and Piven strategy, which is to overwhelm a country with debt through excessive spending for welfare etc. They can then move in with their tyrannical government.)

"There is scarce a king in a hundred who would not, if he could, follow the example of Pharaoh - get first of all the people's money, then all their lands, and then make them and their children servants forever." - Benjamin Franklin

When I was in my mid-20's, I read a book called **'None Dare Call it Conspiracy'** by Gary Allen. It forever changed my view of history. Most of what happens in history is not 'accidental' but rather planned and conspiratorial. The book covers the conspiracy network of the super-wealthy elite to enslave the world. Carroll Quigley wrote about it in his 1300 page book *Tragedy and Hope*. (Quigley was a professor at Princeton, Harvard and Georgetown decades ago.) He researched the network for twenty years and had access to its papers and secret records for two years in the early 1960's. He liked their aims, but lamented the fact that they remained secretive about their plans, which was:

"Nothing less than to create a world system of financial control in private hands, able to dominate the political system of each country and the economy of the world as a whole."

He also wrote that they want total control over all individual actions. The people's freedom and choice will be kept to narrow alternatives as they will be numbered from birth and followed in all activities throughout their life. This network of elite want control over all natural resources, business, banking and transportation. They will accomplish control by **fomenting wars, depressions and hatred** (divide and conquer). They stir up conflict in various countries in order to distract people so that they can fulfill their purposes. John Perkins writes about this in his Book: **Confessions of An Economic Hit Man.**

Early on America was a republic, not a democracy. It prospered and grew from self-government under God and from free enterprise. During the 1800's, there was a battle waged against the elite European bankers who wanted to profit from the new American colony with its vast resources. **Andrew Jackson** stood up against them. He survived assassination attempts. On his **tombstone** it reads: **"He killed the banks."** Lincoln refused to borrow money from them to finance the civil war. Instead he had the government itself print up greenbacks to be used as currency and thus save the country millions of dollars in interest payments. He was assassinated. The late 1800's saw the rise of the 'monopoly capitalists' who also became known as the 'robber barons'. Today we might call them 'crony capitalists.' Big business and Big

government are in bed with each other for their own self interests. Small businesses who live by free enterprise without special favors from government often get crowded out. Small business owners are what 'free enterprise' is to be like.

By the early 1900's, the Insiders, the elite bankers etc. made their big move. In 1910 they met secretly off the Georgia coast on Jekyll Island to conspire for the formation of the Federal Reserve system. It was passed by Congress and Woodrow Wilson in 1913 along with the Income tax. (America had prospered before by using tariffs to finance the country). The country would now forever be enslaved to these ruthless banksters through this private banking cartel. Our income tax money goes to pay the interest on the debt. The Federal Reserve is a private organization and most people do not know that. These 'super capitalists' would finance the Bolshevik Revolution which paved the way for communism in Russia. Even in the 1970's I thought it strange that our country was supposedly fighting communism and yet our government and these super-capitalists provided them money to prop up their failed communists states.

G. Edward Griffin has a book and film on the subject: **"The 'Creature from Jekyll Island"**. Woodrow Wilson would later lament re: his support of the Federal Reserve'. "I have ruined my country." Today America has a debt that can never be repaid. Since the inception of the Federal Reserve, the dollar has lost 96% of it's value. The Fed banking cartel creates booms and busts. They release vast amounts of money and then reel it in, which causes a crash. They swoop in and then gather assets for pennies on the dollar. (The international banks do this to developing countries and then take over the countries resources. 'During the recent housing bubble, the big banks made risky loans and investments (derivatives and credit default swaps.) The 2008 bailout was supposed to help out the homeowners but instead the money went to Big Banks in America and Europe (over 16 trillion dollars, according a partial audit of the Fed done by Congress). The very ones who caused the housing bubble are the ones who got bailed out! I don't have time to give you the history of money. Bill Still has 3 1/2 hour documentary film on it called: **'The Money Masters' 1996**. The chief families in this cabal are the Rothschilds, Rockefellers and Morgans. By 1998, it was estimated that the Rothschilds were worth 100 trillion dollars. However, since they hide their money in shell corporations and other ways, it is hard to know for sure how much money they do have.

In recent years, more of the world has become aware of the Bilderberg group. They have met for three days each year since they first gathered in 1954 at the Bilderberg Hotel in Holland. Each year they have their top secret gatherings at a 5 star hotel in either Europe or N. America to discuss their global plans for the next year. They discuss ideas of when to manipulate the prices of oil, gold, currencies, trade policies and even when to start wars. The name of their game is **CONTROL**. For many years Jim Tucker was able to sneak access into these meetings and would get info from the workers who waited on these elitists. Daniel Estulin from Spain has done the same in recent years and has written a world best seller about the Bilderbergers which has sold over 5 million copies. You can watch him on You Tube to get more info. (rumble.com sometimes has videos censored by You Tube). Most of Americans are totally unaware of all of this due to media blackout.

Through privately controlled central banking systems such as the Federal Reserve and other groups like the IMF and World Bank, the elite 'insiders' have created a debt-based system in countries around the world. They make vast amounts of money in interest as they finance both sides in wars and finance large corporations who then invade third world countries to gain control of their resources. The Rothschilds made their first money financing both sides of wars). The Banksters destroy freedom and the sovereignty of nations and individuals. **They seek to control all the resources of the world.**

"Give me control of a nation's currency, and I care not who makes it's laws."

- Mayer Amschel Rothschild

"He who controls food controls individuals. He who controls energy controls nations. He who controls money controls the world." - Henry Kissinger (has been a key agent of the elite for years Some question this quote but it is certainly the philosophy of the elite.)

After many years of research by myself and by others, I have discovered a great number of conspiracies in various areas of life which we will discuss when relevant to our topics. They include these areas: money system, medical system, energy, environment, terrorism, media, education, evolution, drugs, etc. The bottom line, **we are being lied to in almost every area of life.** We can make a difference in prayer. Although we cannot stop things that are prophesied by God, we can sometimes delay them and certainly pray for more people to become aware of these deceptions so that they will not fall into darkness or be overtaken by fear. Jesus himself will take an ax to the root of these evil trees of false global government, economy and religion when He

appears a second time. Only he can deal with these big bad trees with His powerful Word. Revelation 19:15.

Jesus prophesied that there would be increasing famine (lack of food) before he returns. - Matthew 24:7. It will be like the time of Joseph in Egypt when it got so bad that people were willing to become slaves to the government.

'.....since our money is gone and our livestock belongs to you, there is nothing left for our lord except our bodies and our land.....**buy us** and our land in exchange for food and we with our land will be in **bondage** to Pharaoh." - Genesis 47:18-19

God wants us to depend on Him for provision and wisdom. "Our Father in heaven..... give us this day our daily bread...(our physical and spiritual food that will sustain us for the day). To survive in the days before Jesus returns, we will **learn to depend on Him.** I know of instances where Christians have prayed and food was actually multiplied, much like as described in the ministry of Jesus with the loaves and fish. In wisdom, we should also store up food for ourselves and those around us.

Physical: 'In the house of the wise are stores of choice food and oil, but a foolish man devours all he has.' - Proverbs 21:20

Spiritual: 'Man does not live by bread alone, but by every word that proceeds from the mouth of God.'" - Jesus Christ

The **world's economy** operates through '**buying and selling**'. **God's economy** is different. It operates through '**giving and receiving**.' God wants us to learn the importance of 'community'. The early church had **daily** experiences **together** in prayer, serving, encouraging, witnessing etc. Acts 2:42-48. Let us do the same.

2024 Update - It has been 9 years since this message was written and there is more to report on the global government and global economy. I have learned about the WEF (World Economic Forum) and Klaus Schwab and Agenda 2030. AI (Artificial Intelligence) seems likely to be part of the prophesied 'Beast system along with the transhumanism movement promoted by Yuval Harari (a false prophet admired by the elite). More on this in another message.
