**NOTES:** Most "base" ratings are assumed to be spinnaker ratings for a boat carrying a full complement of sails.  
If no non-spinnaker rating is published, LCSA will add :15 seconds to that boat's base rating to arrive at their non-spinnaker rating.  
Handicaps highlighted in yellow are the declared (spin./non-spin.) rating for that series.  
Handicaps marked \*(U)\* means, "Unofficial rating given to non-conforming vessels". Red handicaps indicate probationary status under review.  
Handicaps are based on US Sailing, PHRF-NE, or another club's base rating.
