NOTES: Most "base" ratings are assumed to be spinnaker ratings for a boat carrying a full complement of sails.

If no non-spinnaker rating is published, LCSA will add :15 seconds to that boat's base rating to arrive at their non-spinnaker rating.

Handicaps highlighted in yellow are the declared (spin./non-spin.) rating for that series.

Handicaps marked *(U)* means, "Unofficial rating given to non-conforming vessels". Red handicaps indicate probationary status under review.

Handicaps are based on US Sailing, PHRF-NE, or another club's base rating.
