About V & M Ironwork

COMPANY OVERVIEW

Portfolio, Services & Capabilities

V & M Ironwork Corp is a family-owned ornamental ironwork and custom metal fabrication company based in Miami, FL. We fabricate and install metalwork for residential and commercial clients throughout South Florida, with a focus on clean details, strong construction, and professional installation.

CORE SERVICES

- Custom staircases and spiral staircases
- Interior and exterior railings / handrails
- Security gates, fences, and decorative metalwork
- Pergolas, mezzanines, and architectural metalwork
- Shop fabrication, welding, finishing, and installation

WHAT CLIENTS CAN EXPECT

- In-house fabrication and attention to fitment
- Work built around real site conditions
- Residential and commercial project experience
- Clean layouts, strong materials, and durable finishes
- Clear communication from estimate to installation

MATERIALS & PROJECT TYPES

- Steel, iron, aluminum, and specialty metalwork
- Painted, powder-coated, and finished metal systems
- Decorative, modern, structural, and functional work

Services We Offer

CUSTOM METAL FABRICATION

Built for homes, businesses, and custom spaces.

A quick overview of the work V & M Ironwork Corp can provide.

Custom Staircases

- Straight, spiral, curved, and specialty stair systems
- Steel structure with wood, glass, or metal details
- Shop-built sections and on-site installation

Railings & Handrails

- Interior and exterior railing systems
- Step rails, balcony rails, patio rails, and wall rails
- Modern, decorative, or code-minded layouts

Gates & Fences

- Security gates, fences, driveway gates, and access openings
- Decorative ironwork and custom panel designs
- Repair, replacement, and new fabrication

Commercial / Residential

- Apartment buildings, renovations, homes, offices, and properties
- Fabrication for contractors, property managers, owners, and designers
- Project-specific layouts, measurements, and fitment

Residential Railings & Gates

EXTERIOR PATIO & STEP RAILINGS

Clean residential metalwork with a modern X-pattern design.

Custom railing system fabricated to fit the patio, step openings, and existing finishes.

Exterior Structures

PERGOLAS & ARCHITECTURAL METALWORK

Custom structures for high-end exterior spaces.

Metal structures can be designed for patios, pool areas, entrances, exterior frames, and specialty architectural features.

Aluminum pergola / exterior structure

CAPABILITIES

- Pergolas and shade structures
- Exterior frames and supports
- Decorative architectural metalwork
- Custom layouts for residential spaces
- Fabrication and installation

Metalwork Care Guide

MAINTENANCE AFTER INSTALLATION

Simple care helps protect the finish.

General maintenance tips for painted or powder-coated railings, gates, fences, and exterior metalwork.

Clean Regularly

- Rinse dust, dirt, and salt residue with clean water.
- Use mild soap and a soft cloth when needed.
- Avoid harsh chemicals or abrasive pads.

Protect the Finish

- Do not scrape the coating with tools or rough materials.
- Touch up chips or scratches early to help prevent corrosion.
- Keep sprinklers from constantly hitting metal surfaces.

Check Hardware

- Review hinges, latches, anchors, and fasteners periodically.
- Tighten loose hardware when needed.
- Call a professional if movement, rust, or cracking appears.

Exterior Conditions

- South Florida weather can be tough on exterior metalwork.
- Coastal air, humidity, and standing water can shorten finish life.
- Routine cleaning helps the work last longer.
