

EDUCATION

*Classrooms, Labs, Hallways
Kitchens, Cafeterias*

Whether it's the classrooms, corridors, locker rooms, bathrooms, kitchens, cafeterias, maintenance shops or mechanical rooms, ProREZ can design and specify the right seamless floor coating solution for the space.

The ProREZ™ Advantage... Innovation beneath your feet.

Beneath your feet, 21st century seamless floor coating systems have evolved and advanced significantly over the last couple of decades offering schools — whether primary, secondary, or university level — some excellent choices in highly functional and aesthetically pleasing finishes. ProREZ offers a solid line of budget-friendly, durable, and long-lasting floor coating solutions that can update your facility's appearance, cleanliness and overall safety.

DIVERSE & DEPENDABLE SPACES

In order to make the school environment more appealing to its students, faculty, and visitors, it is important that the seamless floor coating is highly durable, provides a reliably safe surface, and is aesthetically pleasing and complementary to the overall design, décor, and atmosphere of the diverse spaces found in these types of settings. No one system does it all. ProREZ engineers, customizes, and specifies seamless floor coating, resurfacing, and integral cove base systems for a wide array of education spaces that are long-lasting and simple to maintain requiring no stripping, waxing, or buffing — reducing life-cycle costs.

RECOMMENDED FLOORING SOLUTIONS

CLASSROOMS, LAB AREAS, HALLWAYS, BATHROOMS

Medium Duty Solid Color Non-Skid Systems (1/16"-1/8"): **ProShield SF-100B/200B**

Medium Duty Decorative Quartz Systems (1/16"-1/8"): **ProQuartz** | **ProCryl CQ**

Medium Duty Decorative Flake Systems (1/16"-1/8"): **ProFlake** | **ProCryl CF**

Medium Duty Decorative Metallic Systems (1/16"): **ProLumina**

Hygienic and Safe

Education facilities where dirt and bacteria can accumulate need to be pristine, microbe-free environments. ProREZ seamless, non-porous, waterproof, protective flooring finishes balance slip-resistance with ease-of-cleaning and sanitization, ensuring safety under foot for students, faculty and visitors, while meeting or exceeding local, state, and federal requirements.

Low Odor, Fast Setting Materials

Busy educational spaces cannot afford expensive downtime or hazardous odors. Maintaining indoor air quality with low-odor, zero VOC materials, and offering quicker installations and turn-around times for repairs, refurbishments, or new installations without extended disruptions to operation schedules are real ProREZ benefits.

Long-Term Value in Protection and Performance

The value of the floor coating is ultimately derived from the relationship of its overall cost and maintenance to its long-term performance and durability. ProREZ engineers carefully assess each space considering its unique environmental, functional, aesthetic, and budgetary requirements.

Customizable Finishes

ProREZ designs and specifies aesthetically pleasing, industrial strength flooring systems that are available in a wide selection of standard and custom colors, blends, patterns, and textures to distinctively complement any new or existing facility. Custom design accents including special borders, insignias and other useful floor markings can be integrated to enhance the overall image, safety, and productivity of your facility's space.

RECOMMENDED FLOORING SOLUTIONS

STORAGE ROOMS
