

FOOD/BEVERAGE PROCESSING

*High Temperatures
Heavy Impact*

Whether it's meat, poultry, seafood or dairy processing, breweries, distilleries, production bakeries, or beverage and bottling facilities, ProREZ can design and specify the right seamless floor coating solution for your space.

The ProREZ™ Advantage... Innovation beneath your feet.

Food and beverage processing floors present a unique set of challenges when it comes to facility flooring — like continuously wet areas, temperature extremes, frequent high-pressure washing as well as aggressive chemical exposures that require specialized flooring engineered to withstand some serious punishment. To endure in these harsh and dynamic environments, the ProREZ seamless coating and resurfacing systems provide a tough, resilient surface that outperforms other flooring options by easily tolerating thermal shock, constant moisture and bacterial attack. Safe, sanitary and slip resistant even when wet, our seamless flooring solutions do their job, so you can simply stay focused on doing yours.

INSPECTION-READY FLOORS

ProREZ is very aware of the many critical factors affecting the food & beverage processing floor. In addition to heavy wear and tear, thermal shock and cycling, harsh chemicals like acids, alkalis and solvents, caustic by-products from processing like waste and other contaminants, these types of floors must also support strict safety and sanitation regulations administered by agencies such as USDA, FDA, OSHA, and others. Seamlessly designed with integral cove base, these heavy-duty floors must always be ready to pass rigorous health and safety inspections.

RECOMMENDED FLOORING SOLUTIONS

WAREHOUSES, DRY STORAGE AREAS, RESTROOMS, CHANGING ROOMS, LAB AREAS

Light/Medium Duty Clear Systems (20-40 mils): [ProSeal CS](#) | [ProCryl CS](#)

Light/Medium Duty Solid Color Systems (20-40 mils): [ProShield SC](#) | [ProCryl SC](#)

Medium Duty Solid Color Non-Skid Systems (1/16"-1/8"): [ProShield SF-100B/200B](#)

Medium Duty Decorative Quartz Systems (1/16"-1/8"): [ProQuartz](#) | [ProCryl CQ](#)

Medium Duty Decorative Flake Systems (1/16"-1/8"): [ProFlake](#) | [ProCryl CF](#)

Hygienic and Safe

Food and beverage facilities accumulate dirt, bacteria and other contaminants yet are required to be hazard-free, hygienic, antimicrobial environments. ProREZ seamless, non-porous, waterproof, protective flooring finishes balance slip-resistance with ease-of-cleaning and sanitization, ensuring safety under foot for personnel and visitors, while meeting or exceeding all local, state, federal inspection and safety requirements.

Low Odor, Fast Setting Materials

Busy food and beverage processing facilities cannot afford expensive downtime, tainted with hazardous odors. Maintaining indoor air quality with low-odor, zero VOC materials, and offering quicker installations and turn-around times for repairs, refurbishments, or new installations without extended disruptions to operation schedules are real ProREZ benefits.

Long-Term Value in Protection and Performance

The value of the floor coating is comparing its overall cost and maintenance to its long-term performance and durability. ProREZ engineers carefully assess each space considering its unique environmental, functional, aesthetic, and budgetary requirements.

Customizable Finishes

ProREZ designs and specifies aesthetically pleasing, industrial strength flooring systems available in a wide selection of standard and custom colors, blends, patterns, and textures to complement any facility. Custom designs including special borders, insignias and other useful floor markings can be integrated to enhance overall image, safety, and productivity.

RECOMMENDED FLOORING SOLUTIONS

PROCESSING AREAS

Medium Duty Solid Color Systems (1/8"-3/16"): **ProKrete SLB** | **ProCryl SLB**

Medium Duty Decorative Quartz Systems (1/8"-3/16"): **ProKrete SLQ** | **ProCryl SLQ**

AREAS OF HEAVY IMPACT & HIGH TEMPERATURES

Heavy Duty Solid Color Systems (3/16"-1/4"+): **ProKrete RTB** | **ProKrete HD**

Innovation beneath your feet.

ProREZ™ Performance Resins and Coatings creates individual seamless floor coatings solutions for the diverse requirements within the commercial, industrial and institutional marketplaces including...
