

# DIOLAZEXL - LASER HAIR REMOVAL

## Important Pre- and Post-Treatment Guidelines

Diolaze provides a safe and gentle solution for eliminating unwanted hair with our advanced laser treatment that targets the root of hair follicles. Our technology covers a large treatment area, making sessions quick and efficient.

Please follow these guidelines leading up to your visit:

- **Avoid Skin Irritation or Tanning:** Refrain from intentional tanning or exposing the treatment area to the sun. When outdoors during daylight hours, sunscreen is highly recommended.
- **Discontinue Irritating Products:** Stop using any irritating topical agents (such as retinols, exfoliants, etc.) for 2-3 days before your appointment.
- **No Fresh Tanning or Sunless Tanner:** Avoid any tanning or application of self-tanners before your treatment.
- **Shave the Treatment Area:** Shave the area being treated prior to your visit. Avoid waxing or tweezing, as this can interfere with the treatment.
- **Arrive with Clean Skin:** Ensure the treatment area is clean, free of lotion, makeup, perfume, powder, or bath/shower oil.

## IMPORTANT MEDICATION DISCLOSURE FOR YOUR SAFETY

To ensure the safety and effectiveness of your treatment, please be very thorough when listing both your prescription and over-the-counter (OTC) medications. Some medications, whether taken regularly or occasionally, can increase the risk of adverse reactions or interfere with the treatment process.

Please take extra care in disclosing all of the following:

- **Prescription Medications** (e.g., antibiotics, hormonal medications, blood thinners, acne treatments, etc.)
- **Over-the-Counter Medications** (e.g., pain relievers, antihistamines, topical creams or ointments, etc.)
- **Supplements** (e.g., vitamins, herbal remedies, etc.)
- **Any Recent Use of Retinoids, Accutane, or Similar Medications**
- **Any Treatments or Products that May Increase Skin Sensitivity** (e.g., exfoliants, chemical peels, etc.)

## POST-TREATMENT CARE

- **Sun Protection:** Use sunblock for 3 weeks following your treatment, with frequent re-application, especially when outdoors.
- **Moisturizer:** Apply moisturizer after each treatment.
- **Make-Up:** Make-up may be applied immediately after facial treatments.
- **Post-Treatment Sensitivity:** During the first 2 days, avoid hot baths, massage, or activities that could irritate the treated area. Keep the area clean to prevent infection, and avoid mechanical or thermal trauma to the skin.

**Cancellation and No-Show Policy:**

Your appointment time is reserved just for you. A late cancellation or missed appointment prevents us from filling the slot with another client.

Please be aware that you will receive reminders prior to your appointment. We understand that unexpected events occur, but we have a cancellation policy to ensure that we can accommodate all of our clients effectively.

We kindly ask that you notify us if you are unable to keep your appointment. Cancellations must be made at least 24 hours in advance. If you cancel less than 24 hours before your appointment or fail to show up, the following fees will apply:

- **InMode Device Services** (laser hair removal, IPL, Microneedling, Women's Health): \$200
- **Aesthetic Services:** \$100
- **NAD+ Infusions:** \$100
- **All Other Services** (including consultations): \$50 or the cost of the service if less than \$50.
- Thank you for your understanding and cooperation as we work to provide the best possible service to all of our clients.
