

Benefits Your Child Will Receive?

Kangaroo Academy was created from all the positive aspects of the European “Club” model. One of our biggest inspiration is Ratiopharm Ulm. We share their same philosophy, “Sport is invaluable for children!”. Combine that with our American ways of school and sport, Kangaroo Academy is one of a kind and ahead of the future. We believe our Academy provides all that is best.

1. EDUCATON

- ✓ We believe our partner; Georgia Connections Academy provides a great curriculum.
- ✓ The virtual school offers a better way of learning and teaching for today’s students.
- ✓ The classroom is not filled with students and distractions.
- ✓ On-site Learning Coach and Head Coach heavily involved making sure students complete and do well with their courses to graduate and be eligible for college.
- ✓ Flexibility of on-line school allows for the student to work ahead of pace, catch up or have more time if needed with their classes.

2. CHARACTER

- ✓ Kangaroo Basketball is a privilege and honor. We have a zero tolerance* and have high expectations of the student to use best judgement at all times.
- ✓ We have a code of ethics that is always expected to be upheld that include being respectful and polite. For them to learn good social skills and behaviors.
- ✓ Become disciple and self-aware while having fun and appreciating their time in school.

3. TEAM

- ✓ Players at trained as a team to be a part of a system. This allows the player to develop more like a Pro Player for a Pro Team.
- ✓ Learn more about how to be a teammate. We build teams in which we want our players to help one another on and off the court for many years not just one time.
- ✓ Learn more about what Team means. Our goal is to build pride when wearing Kangaroo across their jersey. A real Team is another family away from home that helps one another develop socially and mentally, stay out of trouble and encourages one another.
- ✓ Having a goal that isn’t about how many games are won but how the players are working to become the best they can be in order to give themselves the best chance to play in college and/or professionally. Not only teaching the fundamentals but how to take care of their bodies and the importance of nutrition, recovery, and their bodies.

Like sports, it looks and sounds easy. In summary, Kangaroo Academy is about having our student athletes exceed above others in school, on the court, and off the court. Building players the community admires and individuals that are role models. These types of people almost always succeed in their lives, in their work and in their families. Building a better generation and better future. It is not easy but we have the formula.
