When shipping your rifles for repairs

NOTES:

1. Send only the barrel/trigger group & **do not** ship with the sights attached.
2. You can screw the stock screw onto the barrel/trigger group or store it in a safe place.
3. It is highly recommended that you wrap the rifle(s) in packing paper prior to placing in a cardboard box to ship. If Styrofoam protection is available, please use to protect the barrel/trigger group. Make sure that both ends of the box are well taped, as well as the center of the box.
4. The shipping cost to send to/from for repair can be included in the overall cost of repair. I use FedEx, UPS and USPS. USPS is often cheaper, but takes longer on both ends. A tracking number will be provided both ways.
5. If paying by check or money order make it out to USFT, LLC. **Please call or email me first for total costs.**
6. If paying by debit/credit card you can use: [PayPal.Me/azusftorg](https://www.paypal.com/azusftorg). **Please call or email me first for total costs.**
7. If you have any question or concerns, please call or email me.
