

# Push-to-Talk over Cellular (PoC)

## PoC Introduction

Push-to-talk over cellular or PoC for short is here to change the 2-way radio industry. Long gone will be the days of needing multiple repeaters for wide spaces that still experience coverage issues in those critical areas. Now you can talk anywhere. Distance and reliability issues will no longer be a concern! PoC radios use the existing LTE network on cellphone towers to connect your radios with each other.

## Hytera PNC360S
