

PROFESSIONAL DEVELOPMENT

Fascinating data analysis by Richard Gretton to improve planning and performance for primary and secondary schools:

- Review of the latest performance position locally and nationally in relation to school attendance and exclusions.
- Primary School education outcomes general trends locally and nationally in 2025, and a focus on KS2 Question Level Analysis for transition.
- Time to discuss learning and plans together with other school data leads
- All of the analysis referenced is supported by the products available within the LIAISE and Perspective Lite systems to understand how they impact on your School or Trust.
