AUTUMN TERM '24

Continuing Professional Development

TELA have delivered 19 primary & secondary continuing professional development networks during this Autumn term, which have been well attended by subject lead teachers within TELA's alliance of schools and externally.

TELA's focus this term -
National subject updates and Ofsted subject reports

Our network leads provide these to create an opportunity to share best practice and discuss ideas for each other's classrooms, their pupils and students.

'Achieve with TELA' Teacher Training

On August 22 we welcomed 15 secondary and 6 primary new TELA teacher trainees along with Leicester & Leicestershire SCITT trainees to embark on their teacher training journey.

On 16 September they began their placements in various schools in Leicestershire where they met with their subject mentors.

They are now experiencing the planning and teaching lessons within their placements and showing confidence within a teaching role.

In November Isaac Physics introduced the INSTITUTE OF PHYSICS (IOP) and other supportive organisations for our Science trainee teachers with their subject mentor Dave Ansley. Throughout the morning the trainees had a fantastic time engaging in experiments and listening to Laura and Sue talking about the learning platform that is designed to support teachers in their lesson planning and how it can make the science lessons more inclusive using top tips.

Applying for a teacher post

Alliance Heads - If you have any teaching posts suitable for ECTs in your school, please email tela@thomastestley.org.uk and we can share with our cohort of trainees.
Thank you

Our secondary trainees spent a day preparing for 'applying for teacher roles' which they will begin to do early next year.

They looked at the application process and then sat mock interviews in front of a number of Heads and SLT from various South Leicestershire schools.
(thank you to those who took part)

Our primary trainees enjoy their day on 14 February.

Are you or do you know somebody that would be interested in training to teach either in primary or secondary education?
