# ABOUT

Studio Jones is a beautiful, urban space based in the heart of Hackney that encapsulates the **edge** and **style** of East London.

There are two rooms: *The Factory* and *The Attic*

THE FACTORY

THE ATTIC

Sitting on the top floor of a converted warehouse, the spaces are rich with texture and act as a blank canvas, allowing you to realise your own unique vision.

Be it a photoshoot, music video, commercial, or film, we can help bring your project to life.

The Factory has a newly installed infinity cove / cyclorama.

Poly boards, Chesterfield sofas, and trestle tables are also available upon request.

There is both stair and lift access, making it easy to bring anything else you need.
