

From The Board of Selectmen: Rising COVID-19 infection rates and our concern about the health of Town employees and citizens have caused the Board of Selectmen to immediately suspend all Town board and committee meetings. This action is aligned with New Hampshire Executive and Emergency Orders. The Board of Selectmen will continue to meet to ensure that critical Town issues continue to be addressed.

The Board of Selectmen request that all residents requiring services from the Town Clerk, Tax Collector, or Town Administrator attempt to use telephone, email, or postal mail for questions or requests. We also ask that to the extent possible residents use online services, postal mail, or the Town Hall drop box to conduct business. As a reminder, all persons entering Town Hall must wear a face covering.

Town Recycling Center operations will continue with no immediate changes. In view of recent CDC guidance we request that all persons using the center wear a face covering.

Thank you for continued support of our efforts to keep our community safe.
