5. Old Business
  - A. Archway Farms - Mark Florenz. Purchased property on Hurricane Road to use for farm animals and cannot until in compliance. Seeking a way to proceed while addressing noncompliance issues. Per Town Council, When a property is purchased the new owner assumes issues and Selectmen cannot allow just because they were pre existing.
    1. Puppy Mill on property - Has been addressed. Tenants no longer breed puppies for sale.
    2. Auto Repair - More vehicles around outside than aloud by ordinances. Have been removed.
    3. Junk yard at another building needs to be addressed - Florenz requested something in writing from the Town before pursuing with the tenant.
    4. Duplex - not allowed in Commercial Industrial zone. Snowdon recommended Florenz seek variance from the Zoning Board for the duplex. Health Office, Building Inspector, and Land Use Administrator to inspect duplex for any safety issues as building was not originally permitted.
    5. Zoning granted Special Exception for agriculture and storage units. The Planning Board has to sign off on the site plan which can happen once in compliance.
    6. Terry - These types of issues keep coming up with old violations and new property owners. Provided no safety issues could these be grandfathered? Snowdon - If it can be done the topic can be discussed at the Land Use Boards Meeting in February.
  - B. Thompson Road - Town had a court hearing with the owner of 95 Thompson Road December 16th. Septic proven to have failed and dangerous E coli levels have been tested on site which are seeping through culvert into neighboring pond. Owner was told by the judge at the last hearing that only he could live in the residence and could not use the septic. He has been found to have violated both and the Judge to determine whether or not to evict from the property until septic replaced. Snowdon thanked Scott Tabot for work done as Health Officer.
