Found an injured or orphaned animal?
Get information on our website at: WRCNU.ORG under the Resources for wildlife tab.

Education Ambassadors

Our primary rehabilitation goal is to release our patients back into the wild. Unfortunately, there are times when we are not able to meet that goal.

With special permission from the state and federal government, we are allowed to take a non-releasable animal and use it for educating the public in areas of conservation and natural history.

Driving Directions to WRCNU:

From I-15, take exit 344 (12th Street exit). Go east on 12th Street for approximately 5 miles. At the mouth of Ogden Canyon, turn right onto Valley Drive and then take another immediate right onto Park Blvd. Head west on Park Blvd, past Timbermine Restaurant, past Dinosaur Park Museum and we are the next building on the right.
