

U. S. OSTWAL INTERNATIONAL SCHOOL

OSTWAL WONDER CITY, BOISAR (E)

TERM - I

Name: _____

Date: /10/2023

Grade: VII

Marks: 60

Subject: Geography

Roll No: _____

Time: 2.5 hrs

GENERAL INSTRUCTIONS:

- All questions are compulsory.
- Do not write the questions. Directly write the answers in answer sheets.
- Write the paper neatly. Reading time: 15 minutes.

PART – I (30 Marks)

Q 1. Fill in the blanks.

(10 Marks)

1. The world's largest shipbuilding industry is located in _____.
2. Rainfall is measured in millimeters using a _____.
3. The decaying organic matter in soil is called _____.
4. The port city of _____ is the hub of the textile industry in Japan.
5. A _____ is a device used to measure atmospheric pressure.
6. _____ is stratus type of cloud that appears very close to the ground.
7. _____ was first discovered by German Chemist Christian Friedrich Schonbein in 1839.
8. The average weather measured over a long time (many years) is called _____.
9. Weathering is the _____ of rocks by the action of weather.
10. _____ gets its raw material from agriculture.

Q 2. Choose the correct answer from the options given below.

(5 Marks)

1. Which of the following is not a major greenhouse gas?
a. Water b. Ozone c. Carbon dioxide d. Methane
2. Which gas do we breathe out?
a. Helium b. Carbon Dioxide c. Oxygen d. Hydrogen
3. Which of the following instruments are used for measuring humidity?
a. Barometer b. Rain Gauge c. Hygrometer d. Anemometer
4. When rocks break down because of chemical reactions, it is called _____
a. climate b. chemical weathering c. acid precipitation d. abrasion
5. Which of the following is the largest producer of iron ?
a. China b. USA c. Iran d. India

Q 3. Name the following.

(5 Marks)

1. Silicon Valley of India.
2. One of the prominent gases found in the Earth's atmosphere.
3. The device used to measure atmospheric pressure.
4. Colourless gas found in the stratosphere.
5. One type of sedimentary rock.

Q 4. State whether the following statements are True or False.

(10 Marks)

1. Wind direction is measured using a wind vane or a wind sock.
2. Carbon Dioxide is a gas which causes global warming.
3. Higher the latitude, lower is the temperature.
4. India is the third largest producer of steel in the world after China and Japan.

5. The atmosphere contains about 10 percent of water vapour.
6. Rainfall is needed for weathering to occur.
7. The troposphere is the layer of atmosphere where weather changes occurs.
8. The instrument used for measuring wind speed is a anemometer.
9. Metamorphic rocks are formed by the effect of heat or pressure on sedimentaryor igneous rocks.
10. About 99 percent of the atmosphere is made up of nitrogen and oxygen.

PART – II (30 Marks)

Q 5. Answer the following questions. (Any Four) (8 Marks)

1. Define weathering.
2. Why does a country need an industry?
3. How does methane affect global warming?
4. How does the latitude of a place affect its climate?
5. Name the types of soils found in India? Explain any one.

Q 6. Answer the following questions in detail. (Any four) (12 Marks)

1. Differentiate between small -scale industries and large – scale industries,
2. Differentiate between weather and climate. State any three points.
3. Mention any three ways in which the weather affects your daily life.
4. Name different type of rocks? Explain the rock found in your state.
5. Distinguish between the troposphere and the stratosphere.

Q 7. Draw a neat and labelled diagram (ANY ONE) of the following weather instruments. (5 Marks)

1. Mercury barometer
2. Wind vane

Q 8. Look at the diagram given below and fill in the blank labels accordingly. (5 Marks)

ALL THE BEST

)

ALL THE BEST

1.
 - a.

5.
