PROBLEMS

In a world torn apart by the darkness of ignorance,
Angel Worth brings Light through Love.

We live in a world where inequality reigns supreme,
where the use of power among populations is increasing
to the point of spilling over to the disfigurement of
Mother Earth and one's own being.

This is because, with our hypocrisy, we have polluted
matter to the point where we can no longer perceive the
universe, while, looking backwards, we can see that the
most ancient civilisations were much more in touch with
nature than we are today, and by nature we don't just
mean plants, animals, landscapes, but also, for example,
a loved one who has gone to the other world;
thinking that there is nothing, we are influenced to fall
into oblivion, where survival and oppression reign,
preventing us from an earthly and infernal existence.

Let's imagine that tomorrow morning we wake up as
usual, we undress, but the blanket doesn't move, we put
on our slippers, but the slippers remain next to the bed,
we open the tap, but the water doesn't flow, we say hello
to our partner, but he doesn't see us, then we kiss him,
but he doesn't hear us?

We have lived a life with nothing but the world, when
we die there is nothing left but the world, only that we
have lost materiality and the possibility of influencing it
by not seeing anything else... and our friends will not be

able to help us because they see nothing behind the
world and matter.

There are other forces at work, but why go against them
and not help them?

Lucifer has been entrusted with the most difficult task in
the universe: to guard the gates of hell,
to damn sinful souls so that they may repent and accept
the Christ that is in each of them.

Lucifer is the thirteenth apostle.

He is the bearer of light, the tempter so that we may
penetrate the universe of Love,
he has the duty to defend the spiritual kingdom through
the host of demons and illusions.

They are the 4 greatest illusions: Verb Time Space Atom

POLLUTION

We live in a world where business economy avoids ethics just for the sake of ephemeral money, as if children and future generations do not have to live on this planet, which then even the worst criminal will seek revenge if you go and kill his son...

How much Hypocrisy and Ignorance!

It's not just profit, it's really pride, greed, envy, carelessness, hypocrisy, we see ourselves as the dramatic center of our universe, the lack of good deeds...

There is someone who profits from raw materials and pharmaceutical companies and keeps all of humanity under control...

And, at the same time, taking over landfill sites by pretending to recycle, using taxpayers money...

When in fact they throw everything into the sea, into pits, into caves, or reduce plastic to microplastics, which pollute even more.

They promote the production of nuclear power stations, thinking that these can have a positive impact on the environment... unfortunately, how stupid are the listeners, they only need nuclear waste to produce as many nuclear bombs...
And you finance them from your little parties.

**WE NEED TO TAKE ACTION!
STOP BEING CARELESS!**

DEFORESTATION

The human race is so hypocritical that it is razing centuries-old forests for its own personal gain, destroying biodiversity by causing thousands of species to become extinct every day.

Forests are the habitat of most living things, not only plant species but also animals.

MASS EXTINCTION OF SPECIES

A mass extinction of species is a catastrophic event in which a significant number of species become extinct in a relatively short period of time.

This phenomenon has occurred several times throughout Earth's history, with the most recent one being the Holocene extinction event, which is ongoing and primarily caused by human activities.

According to the search results, the Holocene extinction event is characterized by an extinction rate that is 1,000 times higher than the background rate, with over 1 million plant and animal species threatened with extinction. This event is driven by human activity, including population growth, overconsumption of natural resources, and climate change.

The search results also highlight the significance of mass extinctions in shaping the history of life on Earth. For example, the Ordovician extinction event, which occurred around 443 million years ago, led to the demise of 85% of all species on Earth. Similarly, the Permian-Triassic extinction event, which occurred around 252 million years ago, wiped out 96% of all marine species and 70% of all terrestrial species.

The search results also provide information on the causes and consequences of mass extinctions. For example, the Chicxulub asteroid impact, which occurred around 66 million years ago, led to the extinction of the dinosaurs

and many other species. Similarly, the current mass extinction event is primarily caused by human activities, such as habitat destruction, pollution, and climate change.

The search results also highlight the importance of conservation efforts to prevent further extinctions. For example, the International Union for Conservation of Nature (IUCN) has identified over 35,000 species that are threatened with extinction, and conservation efforts are underway to protect these species and their habitats.

In conclusion, mass extinctions are significant events that have shaped the history of life on Earth. The current Holocene extinction event is primarily caused by human activities and has significant consequences for the future of life on Earth. It is essential to take action to prevent further extinctions and to protect the diversity of life on our planet.

SOLUTIONS

As Jesus Christ says, you have to be in the world but not of the world, society is infiltrated by satanic entities who want to lead the human race towards decadence, not being able to defeat them directly, the only possibility is to act in a small way all together through a pure heart.

These forces that control the states and the richest families in the world want to give the final blow to the human race through dehumanization, between gays, abortions, contraceptive pills and implanted technology we are upon us.

We have now reached the point that we are so free from responsibility that we can remove our ovaries, graft them at will, and let robots raise our children in 2024.

The solution is to start providing education, hope, safe places from which to radiate Light and Love, we must begin to create self-sustaining villages for the development of human potential, which can provide support to all those truly in need.
The solution begins in alliance, respect, trust, and action.

**WE CAN'T STAND AND WATCH,
WE MUST ACT NOW!**

ACTIONS

- ★ We have designed an autonomous ecological village for the development of human potential.

Spread over almost 5 hectares, it is managed by a plurality of skills, such as farmers, beekeepers, fruit growers, flower growers, bakers, artisans, guides of all kinds, from sports to those who discover the territory, breeders, veterinarians, riding teachers, naturopathic and animal and naturalistic therapy doctors, sports personal trainers, life coaches, animators of recreational activities for children and young people, all resources related to nature, and all skills that, if they want, can also hold training courses and seminars, thus becoming, in fact, also an ecological village that disseminates values, an educational and awareness centre towards a new model of life, More virtuous, tied to the territory and respectful of the planet; more natural. The ecological village composed of a community, which will have to live on site, can also be visited, by those who ask to buy the handicrafts of the land, produced directly from the ecological farm, and be attended by those who will follow a seminar, and/or a course, and/or educational path, and/or to practice activities, and/or for therapeutic sessions, and/or rural tourism destination with cottages, caravans and camper parking. The village is conceived with total respect for the environment, built in bioconstruction.

★ We legally fight against unmoral projects to protect Mother Earth and her beings.
Releasing awesome RWA NFTs of battles won.

★ Our aim is to unite as many forces as possible so that Mother Earth can breathe.

We want to get to the point where we exceed one million trees planted, and that's just for starters to fight deforestation, pollution and the risk of extinction of living species.

RWA NFTs will be airdropped to all token hodlers.

★ Gather as many people as possible to clean areas polluted by abandoned waste, such as beaches, sea, woods, service areas, public parks...

In addition to trying to provide the cleaned areas with special bins, we take care of counting and recycling all waste correctly so that we can airdrop RWA NFTs to token hodlers.

★ We help other humanitarian organizations in every possible way. Unity is strength.

★ We are supporting a school, an orphanage and a hospital in Guinea.

- ★ We would like to create many villages like the one previously explained in every part of the world.
- ★ We want to plan an app to make fundraising for humanitarian projects accessible to everyone without commissions.

EDUCATION

In a world torn apart by the darkness of ignorance, Angel Worth brings Light through Love and knowledge. We aim to give conferences, write books, courses, school education, make films or theater scenes, art.

BRAND

We will be releasing fantastic branded items, all of which can be purchased on the site. Paying in AW you will receive a 20% discount voucher.

TOKENOMICS

Angel Worth (AW) is a token to become part of philanthropic projects, having the opportunity to do charity work around the world by receiving airdrop RWA NFTs.

All profits from token sales, liquidity pool commissions and NFT sales will be used to fund humanitarian projects!

- ***Total supply:*** 888 000 000 AngelWorth (AW)
- ***Distibution:*** 30% AW allocated on Uniswap pool
- ***Rewards:*** 10% AW Angel Worth NFT holders
 - ***Airdrop:*** 20% AW token hodlers
 - ***Marketing:*** 5% AW
 - ***CEX:*** 5% AW
 - ***Team:*** 10% AW
 - ***Future implementations:*** 20% AW

ROADMAP

➔ **APRIL 03 2024: TOKEN MINT**

Token contract:

0x512Fe2B277Bd0EB9763a329f1025dc6cBcBf225B

➔ **FIRST HALF 2024: TOKEN DISTRIBUTION**

Token is listed on Uniswap, you too can enter the world of humanitarian projects and contribute to the community.

We contact companies and influencers to form new partnerships and extend the marketing campaign.

➔ **SECOND HALF 2024: BIG NEWS!**

First airdrop token holders: starts as soon as the 1000 token hodlers are exceeded, 1000 wallets will each receive 10 000 AW.

Second multi-million \$ airdrop token holders: starts as soon as the 10 000 token hodlers are exceeded, 10 000 wallets will each receive 7 200 AW

At the launch price on Uniswap 1AW=0.10\$

**Realisation of humanitarian projects silencing the haters.
CEX listings.**

➔ **FIRST HALF 2025: SECOND AIRDROP**

Starting in January 2025, magnificent NFTs will be minted in memory of the good deeds performed and half of supply distributed completely randomly to token holders and the other half sold on market.

Rewards NFT holders: will begin for all owners of the Angel Worth NFT collection, for each NFT you own you receive 1000 AW per month.

Angel Worth NFT collection:

- 69 AngelWorth logo
- AngelWorth RWA NFTs

Start programming app that makes it easier to raise money for ecological, environmental and humanitarian projects all around the world, AW must be burned to allow the publication of fundraisers and will be used as the platform's currency.

➔ **SECOND HALF 2025: MAKE AN IMPACT!**

Revolutionising the crypto and humanitarian worlds through Ethics To Earn!

➔ **ONCE PASSED 100 000 TOKEN HODLERS...**

Third multi-million \$ airdrop token holders: starts as soon as the 100 000 token hodlers are exceeded, 100 000 wallets will each receive 888 AW.

THANKS FOR THE SUPPORT.

**TOGHETER
WE CAN MAKE THIS WORLD
A BETTER PLACE <3**

**BE THE CHANGE YOU WANT TO
SEE IN THE WORLD!**
