## CAREER HISTORY

---

### **VOICE BROKER**

**[Icap PLC](#), (now TP Icap), London.  
2017**

**3<sup>rd</sup> June 1989 – 31<sup>st</sup> May**

**Fundamental Brokers Inc, London.  
1989**

**27<sup>th</sup> May 1986 – 3<sup>rd</sup> April**

My role at these firms was to act as intermediary between major international banks and assist dealers in price discovery and liquidity in one of the largest and fastest fixed-income markets in the world, US treasuries. For a period of over thirty years, I helped manage the transition from an open outcry system to a more technology focussed dynamic, which employed fewer front-office staff, but covered more customers more efficiently, with fewer errors and within an ever changing regulatory environment.

I was initially hired for my working knowledge of spoken Japanese, but subsequently broadened my coverage to US, Canadian, European and British banks.

### **ENGLISH TEACHER**

**March 1983 - Sept 1984**

**International Education Services, Tokyo**

I taught English to Businessmen, Engineers and Scientists at all levels, mainly preparing them for overseas assignments. I was based in Tokyo and Osaka.

I also gained experience in Japan as a magazine editor, TV model, and voice-over artist.
