Political Platforms at a Glance:

Political Party	Core Governing Platform & Principles
 Libertarian	Focus on peace and secure border. Against foreign wars, foreign aid, Israel/AIPAC. Objective: minimize government, protect individual freedom, pro-2A and civil liberties, unleash free markets and voluntary trade to ensure financial sovereignty and keep our tax dollars at home. Fiercely supports free speech for both sides and works across the aisle between liberal and conservative for the good of the country (Think: Massie & Ro Khanna). Not Left, Not Right, Just Free. Considered “truthers,” predominantly CONSTITUTIONALISTS.
 Republican	Prioritizes free-market principles, secure border, pro-2A, limited regulation, traditional values, maintains robust national defense <i>and aggression.</i> Funds endless WAR in Middle East, foreign aid, Israel/AIPAC, even bending the Constitution to do it. Objective: keep out third parties and smother free speech from the opposition. Right wing, predominantly conservative —although true conservatives may disagree with that statement. UNIPARTY.
 Democrat	Emphasizes an active role for government in social safety nets, environmental regulations, gun control, public programs, social equality. Lax on border security, panders to identity politics. Supports aid to Israel/AIPAC, funds Ukraine/Russia WAR. Objective: keep out third parties and smother free speech from the opposition. Left wing, predominantly liberal —although true liberals may disagree with that statement. UNIPARTY.

Shattering Mainstream Media which stereotypes Libertarians as ignorant on environmental issues!

 **Environmental Stewardship:** True liberty is deeply tied to conservation, property rights, and shields against corporate pollution. It’s our duty to take care of our planet, THE LAND, and the noble animal kingdom.

 **Senior Protection Task Force:** We’re committed to building a strong outreach to **senior citizens**, the **disabled**, and **military veterans**—**TRUE WARRIORS. I will fight alongside to protect their rights.** Crushing Medicaid fraud, patient bullying, and a massive wave of online scammers are draining our seniors' life savings.
