

Clover School Board Voting Petition

We, the undersigned, respectfully request the York County Legislative Delegation pass legislation to change the method of voting for the Clover School Board Trustees. The current method allows every voter in the Clover area to vote for all the school board trustees, despite them not living in and being represented by that trustee's district. This is a contradiction of the one-man-one-vote concept. The method has been in place for 30 years. Only those voters living in the trustee's geographic district should be able to vote for said trustee.
