**Did You Know We Are To Praise God  
In The Firmament Of His Power?**

by Min. Shivonne Gaines

**Psalms 150:1, "Praise ye the Lord. Praise God in his sanctuary: praise him in the firmament of his power."**

**Did you know we are to praise God in the firmament of his power?**

**Psalms 150:1 is a scripture that many of us have heard many times before. But, how many of us ever stopped to think about what exactly does praising God in the firmament of his power really mean? There are many definitions for "firmament" that can be found in bible dictionaries and the regular dictionary. Firmament is seen as being from horizon to horizon. It is also seen as the heaven or the sky; a solid dome created by God on the 2<sup>nd</sup> day divided by the dry land. Firmament can be a great arch or expanse over our heads in which are placed in the atmosphere and the clouds and in which stars appear to be placed. Some even view firmament as the wide extent, vault or arch of the sky. With all those definitions I just shared, we can see "firmament" covers a lot.**

**So now that we have established what "firmament" means, let's put that together with praising God and God's power. What this is letting us know is that we need to give God the praise everywhere and for everything! Praise God on earth and praise God in heaven. Praise God for all that you can see and even past what we can see!!! Because of his power praise should fill the universe!! And like Psalm 150:6 says, "let everything that hath breath praise the LORD. Praise ye the LORD!" People from near and far and all over this world can praise God in the firmament of his power!! We can all come together and give God the praise!! It's awesome when we can see God's power at work and we can acknowledge it with praise.**

**The next time he wakes us up, give God praise in the firmament of his power! The next time we go outside and look up and look around, give God praise in the firmament of his power! The next time we go and get to our destinations, give God praise in the firmament of his power! The next time we come home and go to bed, give God praise in the firmament of his power! He is worthy and he deserves all of the praise!!**

**Did you know we are to praise God in the firmament of his power?**
