

# A SINGLE BUTTON ALERTS ALL NECESSARY ADMINISTRATION

CLEARLYIP'S PANIC BUTTON™ ALLOWS A USER TO NOTIFY ALL NEEDED PARTIES, INDICATING A PROBLEM AND IDENTIFYING THE LOCATION, WITHOUT DETECTION.

## What Is the Panic Button?

A single button that can instantly dial any number and plays a pre-recorded message to the recipients. The phone then goes into a broadcast-only mode, allowing the people on the receiving end to note the location of the call, and hear what is transpiring in the room. The Panic Button™ is available in two different options, the standard method is a designated button on the phone itself. The other option is a button that connects to the phone and placed in a easily accessible location under the desk.

## How Does it Work?

ClearlyIP has implemented the option for a Panic Button™ on all ClearlyIP Phones. By pressing the Panic Button, pre-programmed numbers are all dialed instantly. A pre-recorded message is played for those receiving the call. After the message is played, the microphone on the phone is set to broadcast only, allowing the recipients to hear anything happening around the phone. **Most importantly, this is all done without any indication that the phone is on or connected to a call.**

## There Are Any Number of Things That Can Constitute An Emergency

Unauthorized People

Fires

Tornadoes

Earthquakes

Hazardous Substances

## Peace of Mind and Help is Only a Button Press Away

This function can be used by anyone in the room that has been instructed in its use. If a faculty member is injured, or just cannot leave the room for safety reasons, this button can bring help where it is needed. Sometimes the difference in lives all comes down to time and information. Where is the threat, and how fast can help get there?

**In 2019 there were 417 mass shootings in the U.S.\*, of those, 25 took place in schools.\*\***

With everything that educators must deal with throughout the day, giving them a single button to notify, and call for help means they can get their kids to safety that much faster. Simple, quick and effective. This innovation from ClearlyIP is just one more reason that we're the clear choice.
