

Palmer House Stable

an authentic rustic wedding venue

2026

Using our optional plates and silverware, bride made the napkins with bow. Centerpiece is our wood base and vase. The bride brought floating candles, luminous balls, and brown bottles along with flowers.

Our brass votive holder.

Our plate, silverware and glass tumbler.

Note: these are optional where you can pick & choose what items you want. If it's a buffet, you do not need the salad fork because the salad is on the main plate with everything else. The glass tumbler wasn't necessary because they did not provide ice water pitchers and had water bottles for guests.

Reserved table next to the sweetheart table. White tablecloth sets off the black chairs and stone walls.

Buffet main level

Main level seating

The bride took the lanterns that we provided and made a very simple vase (Ours) and flowers simple, easy and very clean looking!
