Temple Memorial Pediatric Center has been addressing the therapeutic needs of area children since 1952 by providing occupational, physical, and speech therapy. In 2016 the Center began offering Applied Behavior Analysis (ABA) therapy to children with autism through a grant from the State of Texas DARS program. As the only non-profit pediatric therapy center in the area, the demand for our services continues to rise. Your support and donations throughout the year ensure the continuation of this valuable community asset. Thank you for helping us carry out our mission—to provide exceptional services so that all people with disabilities, special needs, or functional limitations have equal opportunities to live, learn, work and play in their communities.
