ZIPPED-EDGE TWIN ROOFLIGHT SYSTEM

# & KUROLOK TWIN RL™

## ZIPPED-EDGE TWIN ROOFLIGHT SYSTEM

For large rooflights, atria and orangeries, KuroLok Twin RL offers a unique solution.

### OVERVIEW

- Meet-in-the-middle tensioned rooflight system
- Zipped-edge fabric retention
- 5 year warranty
- Sizes up to 3.6m wide, 6m drop, 18m<sup>2</sup>
- Includes headboxes and slim side channels

### SYSTEM DETAILS

KuroLok Twin RL system harnesses a pair of KuroLok RL blinds running in the same side channels, drawing from opposite ends to meet in the centre of large openings.

The Twin system has two headboxes at each end of the blind. The blind fabric is locked into the side channels using zip technology and tensioned via powerful constant-tension spring (CTS) units. Sturdy steel legs connect the headbox and side channels to create a rigid frame.

Universal profiles allow the frame to be fixed through the top, face or sides as required and all fixings are completely concealed.

### USES & APPLICATIONS

KuroLok Twin RL blinds can span up to 6m with a cost-effective system that has the same neat appearance and ease of installation as the standard KuroLok RL.

Motorised operation makes controlling your KuroLok Twin RL blinds easy from anywhere. The ability to operate the two halves separately offers maximum versatility for controlling light penetration.

&KUROLOK TWIN RL™  
 ROLLER SHADE FEATURES

MAX SIZE  
 18m<sup>2</sup>

- FABRIC ZIP SIDE CHANNELS**
- Slim 35mm wide channel
  - Zipped-edge fabric retention
  - Wider 56mm channel also available

- CONSTANT TENSION SPRING UNITS**
- 4kg pull force per unit
  - Tension is constant throughout extensions and retraction
  - Fabric under tension at any angle

- MEET IN THE MIDDLE**
- Blinds draw from each end to the centre
  - Can be controlled together or separately
  - Clear opening when retracted

**CONTROL OPTIONS**

- Motorised only

**MOTORISATION CONTROLS**

- Hardwired Switch
- Radio remote control
- Digital and IP communication
- Integration and control systems

**FABRIC OPTIONS**

- Dimout fabrics for light filtering and privacy
- Sunscreen fabrics for glare control with views out
- Blackout fabrics for room darkening

HEADBOX ORIENTATION

**Standard Orientation**

**Reverse Orientation**
