

The following guidelines are created to reduce the risk of transmission of the SARS-CoV-2 (severe acute respiratory syndrome coronavirus 2) better known as COVID-19. These guidelines were created to meet or exceed those created by the CDC to reduce the risk of the transmission of the COVID-19 virus.

1. All attendees and staff will be required to wear a face covering when not eating, drinking or seated with the group they came with. Drivers and race teams will be required to wear face covering when not in their designated pit area. No one will be allowed to enter the facility without a mask except for those under the age of 5 years old. There is a large grass area located behind the grandstands where attendees may take a break from their mask as long as they remain with the group they arrived with, maintain a minimum of 10 feet from others, and do not form large groups.
2. Grandstands will be sectioned off to ensure everyone can practice proper social distancing with only 100 people allowed per section. Every other row of each section will be closed to encourage attendees to follow safe and responsible social distancing.
3. While waiting in line at the ticket window, concession stands, novelty booth, photo booth, restrooms, tires, fuel or any other area; attendees are required to maintain a minimum of 6 feet of distance.
4. Temperatures will be taken for everyone entering the facility using a non-contact thermal infrared thermometer. Anyone with a temperature higher than 100.4 will be considered to have a fever and not allowed to enter.
5. Any attendee who has experienced symptoms or has been sick with any communicable disease including COVID-19 within the last 14 days or is currently experiencing symptoms will not be allowed to enter.
 - a. Shortness of breath or difficulty breathing
 - b. Fatigue
 - c. Muscle or body aches
 - d. Headache
 - e. New loss of taste or smell
 - f. Sore throat
 - g. Congestion or runny nose
 - h. Nausea or vomiting
 - i. Diarrhea
6. The pit area will be closed off from the grandstands. Due to this only the driver and crew members will be allowed in the winner's circle for photos and face covers will be required. Race teams in the upper pit may bring chairs and sit on the grass in turns 3 and 4; but must maintain at least 6 feet between teams.
7. Race teams are highly encouraged to stay in their pit area as much as possible.
8. The children's playground located behind the grandstands will be closed until further notice.
9. Smoking or vaping will not be permitted outside of designated areas. Those guests who wish to smoke or vape may visit the party deck (limited capacity and must maintain proper social distancing) in turn 1 or step behind the grandstands. Proper social distancing is required in all areas of the facility. Race teams may smoke or vape in their designated pit area.
10. Hand sanitizer and soap are available in designated areas around the facility.

By entering and/or participating in any activities at this facility you acknowledge that you are aware of the risks to yourself and with anyone you interact with of exposure, either directly or indirectly, to communicable disease(s) which includes but not limited to SARS-CoV-2 (severe acute respiratory syndrome coronavirus 2).
