

DEWORMER

Information

EQVALAN GOLD

EQVALAN GOLD is the broadest-spectrum dewormer available in Canada. It combines two active ingredients - ivermectin and praziquantel - to provide comprehensive, broad-spectrum parasite control for your horses. EQVALAN GOLD is registered to control 70 species and stages of equine parasites - including tapeworms! Store below 30°C.

EQVALAN

Eqvalan Oral Paste is an effective treatment for the internal parasites in horses. It helps to eliminate ascarids, large strongyles, small strongyles, large-mouth stomach worms, stomach bots, pinworms, intestinal threadworms, hairworms, neck threadworms, etc. This is a potent wormer for horses, and is safe on pregnant mares and breeding stallions.

QUEST PLUS

Same gel formulation as Quest - disperses well and dissolves in the horse's mouth. For the treatment of infections due to internal parasites, including tapeworms and bots in horses and ponies four months of age and older. Treats up to 600kg/tube. Store Between 15-30°C and do not freeze.

QUEST GEL

For use in horses, ponies, breeding mares, stallions and foals over 4 months of age for the treatment and control of large and small strongyles, roundworms, pinworms, hairworms, stomach worms, bots and encysted small strongyles. Store Between 15-30°C and do not freeze.

STRONGID-P

Strongid P is a potent equine dewormer containing pyrantel pamoate. It is approved for treatment of large and small strongyles, pinworms, ascarids and the common tapeworm in horses and foals over 8 weeks of age. Each syringe contains enough caramel flavored paste to treat 1200 lb body weight. Store Between 15-30°C and avoid direct sunlight. Do not freeze.

PANACUR

- Proven Safe – Safe for foals, pregnant mares and older horses^{1,3}
- Works on a wide variety of parasites – Labeled for the control of large and small strongyles (including migrating larvae), pinworms and ascarids (roundworms)¹
- Effective on encysted small strongyles – A larvicidal dose is the only FDA-approved treatment for all stages of encysted small strongyles¹
- Easy to administer – A unique apple-cinnamon flavor that horses readily accept¹
- Unique Mode of Action – The antiparasitic action of PANACUR (fenbendazole) Paste 10% is due to the inhibition of energy metabolism in the parasite²
