PLATINUM BALANCE

A DAILY PROBIOTIC TO MAINTAIN EQUINE DIGESTIVE HEALTH

This daily probiotic formula provides both prebiotics and probiotics to support digestion and hindgut health. This formula can be helpful in horses that have difficulty maintaining weight, are susceptible to hindgut issues, or frequently have a loose stool.

This daily probiotic formula provides both prebiotics (mannan oligosaccharides) and probiotics (*Saccharomyces c.boulardii* 1079 and *Saccharomyces cerevisiae* 1077) to support digestion and hind-gut health.

The probiotics nourish the "good" bacteria in the gut, and support the digestion of fiber. The probiotics are important for maintaining proper pH levels, absorption of nutrients, feed efficiency and immune health.

This formula can be helpful in horses that have difficulty maintaining weight, are susceptible to hindgut issues, or frequently have a loose stool.

BENEFITS OF PROBIOTICS INCLUDE

- Support healthy levels of beneficial bacteria
- Help maintain proper pH levels
- Support feed efficiency and absorption of nutrients as well as help maintain immune health

BENEFITS OF PREBIOTICS INCLUDE

- Support the growth of healthy bacteria
- Support the digestion of fiber and utilization of feed
