Racing - 11am - 4pm

Awards Ceremony - 7pm

OPA Racing General Rules

RULE BOOK

While you are watching the race, it's nice to be able to tell who's winning the race. Sometimes that can be difficult as several classes of boats race at the same time. They may not be racing against each other, yet they may appear to be if you're not paying attention. Each Class runs **ONLY** against the ones running within their class.

Scoring: Each turn of the race or race buoy has a "Turn Boat" with Race Officials on board keeping track of the racers and their performance, as well as on the Start/Finish boat. As each race boat passes a "Turn Boat" and "Start/Finish" boat, the official marks their sheets according to the rules. When the event is done all times, speeds and distances traveled are calculated to determine the winner.

There are actually fifteen individual classes, broken up into separate races; that are happening at one time. On the chart below you will see the different classes and numbers they are allowed to run. What class is your favorite boat in?

CLASS	BOAT #	DESCRIPTION	LENGTH	TOP SPEED	ENGINE(S)
Extreme 1100	2-99	Canopy	40'-50'	Unlimited	Piston Power
Super Cat	2-99	Canopy	34' - 42'	Unlimited	Twin 750
Factory Stock	2 - 99	Canopy	34' - 40'	Unlimited	Twin 450R Outboards
Super Stock	S-2 - S-11	Canopy	32' limit	Unlimited	Twin Stock Outboards
Super Vee	2-99	Canopy	35' - 46'	Unlimited	Twin (see Rule Book)
Modified Vee	2-99	Canopy	32' limit	Unlimited	Single (see Rule Book)
Stock Vee	2-99	Canopy	30' limit	Unlimited	Single 525 EFI
Class 1	100-199	Canopy	—	115 MPH*	Twin
Class 2	200-299	Unlimited	—	100 MPH*	Twin
Class 3	300-399	Unlimited	—	95 MPH*	Twin
Class 4	400-499	Unlimited	40' limit	85 MPH*	Single or Twin
Class 5	500-599	Open Cockpit	30' limit	75 MPH*	Single
Class 6	600-699	Open Cockpit	26' limit	70 MPH*	Single
Class 7	700-799	Open Cockpit	20' - 22'	60 MPH*	Single Outboard (300HP limit)

*Indicates boats in classes which are based on speed and cannot go over the class bracketed speed. Any boat caught breaking out of their speed bracket will receive last place points and will start the next race in the outside lane. GPS units will track this. GPS units are mandatory in each race boat, otherwise they will be disqualified.

An official start time begins when the bow of the boat crosses the start line. The boat is then scored by completed laps/distance. A completed lap is when a boat crosses the start line, and continues around the marks of the course and back to the finish line. The start and finish line are at the same point on the course. When the green flag drops the races begins, but the 1st completed lap is scored when the boats passes the start/finish and then comes around again to complete the lap.
