

## About the Program

This program is designed to foster knowledge and skills as to how businesses can engage within the Sustainable Development Goals (SDGs) framework; driving business growth and productivity, whilst contributing to the better world as envisaged by UN's 2030 agenda for sustainable development.

## Who should attend?

Corporate professionals and sustainable development practitioners, who want to understand how to generate business value focusing on SDGs.

Policy professionals and civil society professionals seeking knowledge on design and implementation challenges of businesses for SDG planning.

Undergraduate and graduate students interested concepts related to the SDGs
