Think Strategic Awards

Established to formally recognise persons and companies who demonstrate outstanding command and application of strategic principles and management practices.

This award aims to celebrate those who consistently exhibit foresight, adaptability, and effective decision-making in their roles, contributing significantly to organizational success and setting a benchmark for strategic leadership within the industry.

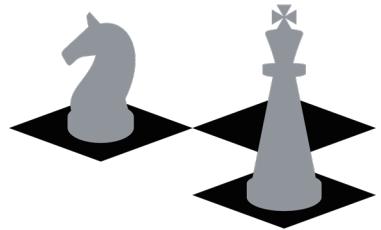

Award Categories

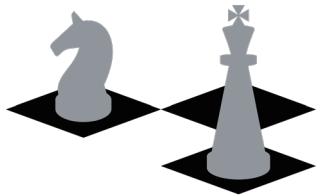

Award is presented across 15 main categories to ensure recognition spans different levels of influence and organizational structure.

Think Strategic Awards

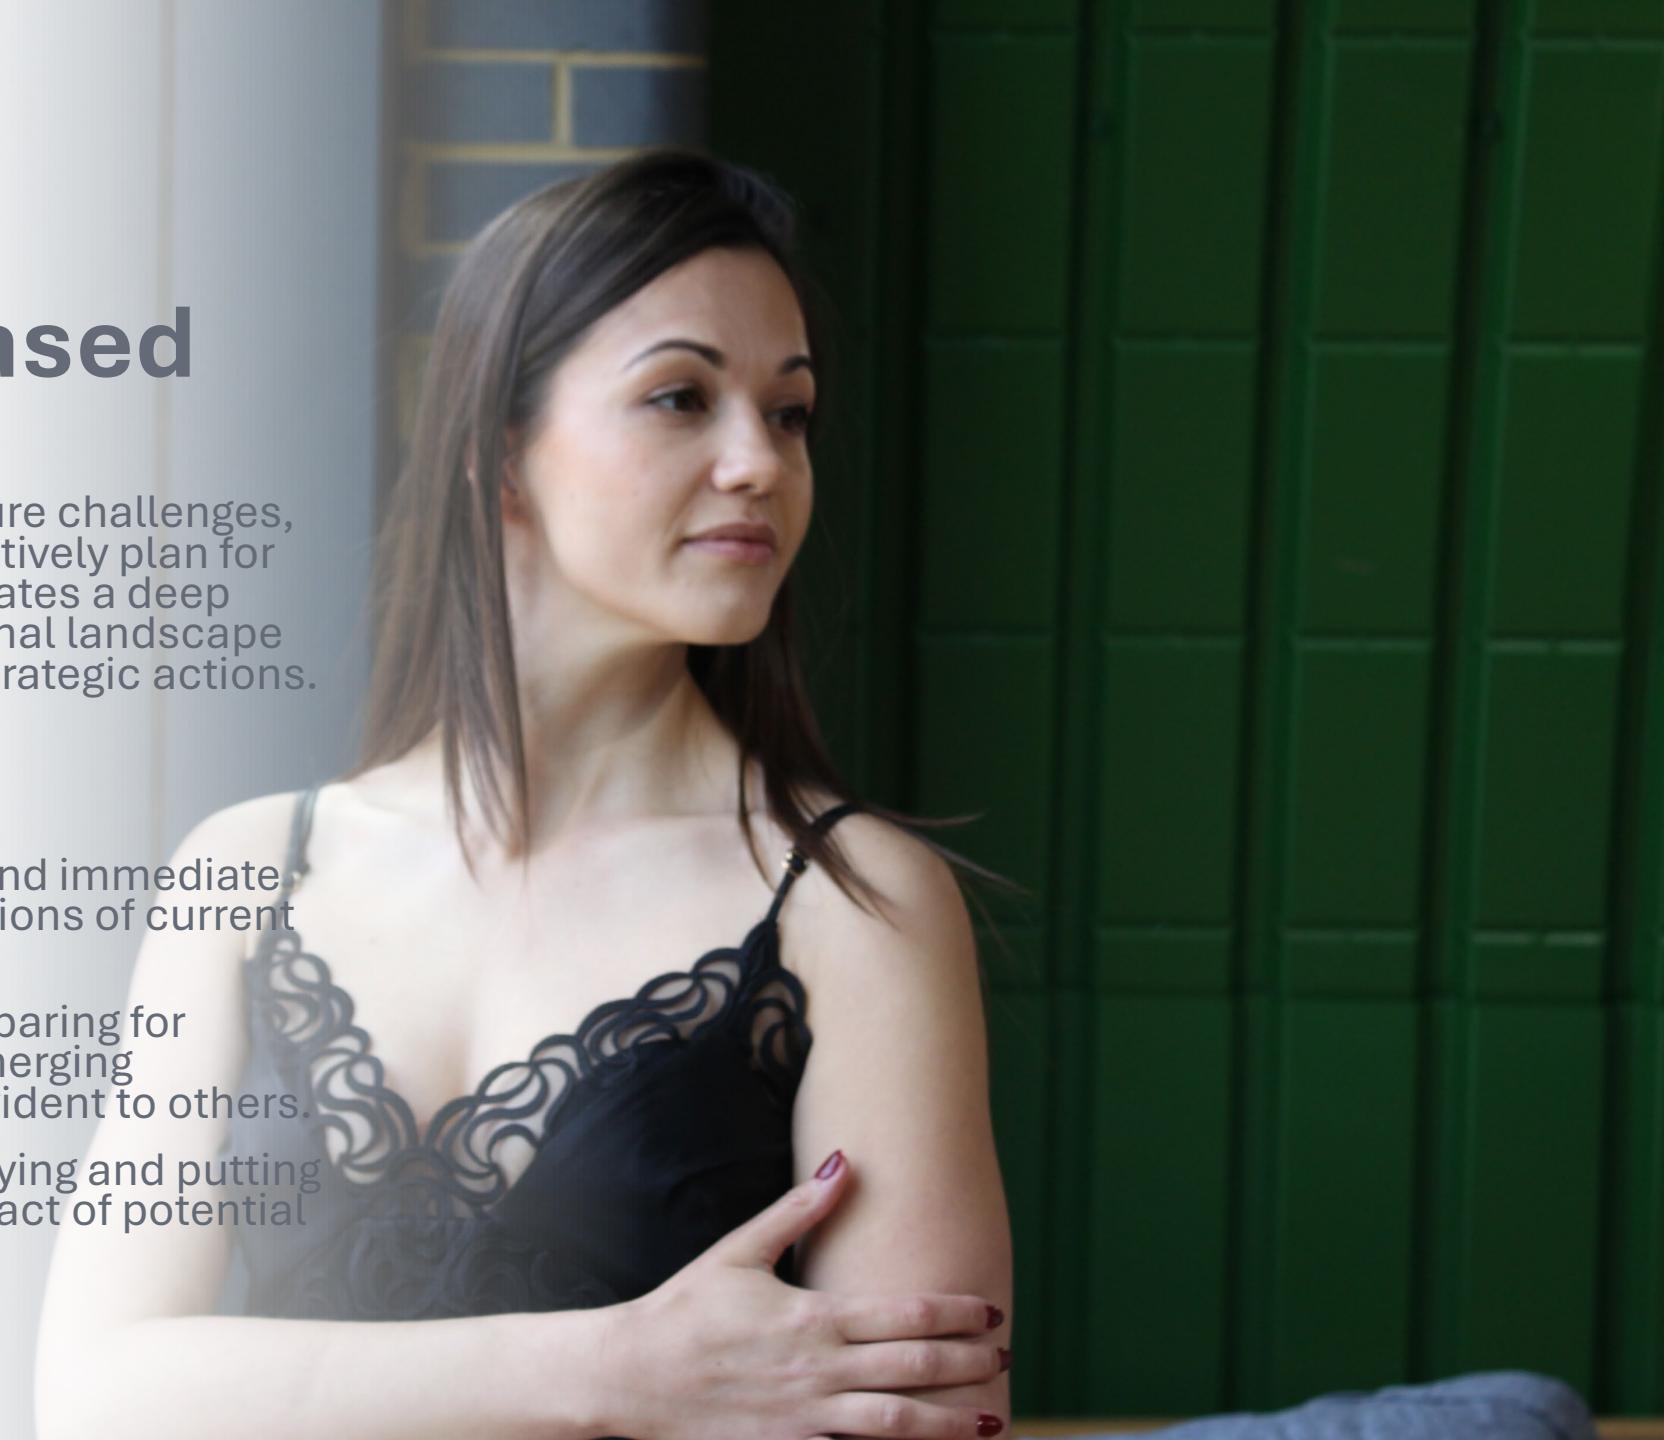

Evaluation based

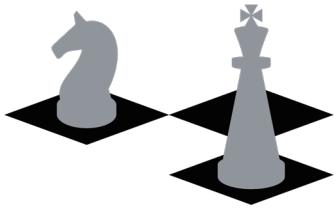

Foresight

Foresight is the ability to anticipate future challenges, opportunities, and trends, and to proactively plan for them. A successful nominee demonstrates a deep understanding of the internal and external landscape and uses this understanding to guide strategic actions.

Evaluation Focus:

- **Strategic Vision:** Ability to look beyond immediate tasks and identify long-term implications of current actions.
- **Proactive Planning:** Evidence of preparing for potential risks and capitalizing on emerging opportunities before they become evident to others.
- **Risk Mitigation:** Successfully identifying and putting in place measures to reduce the impact of potential future challenges.

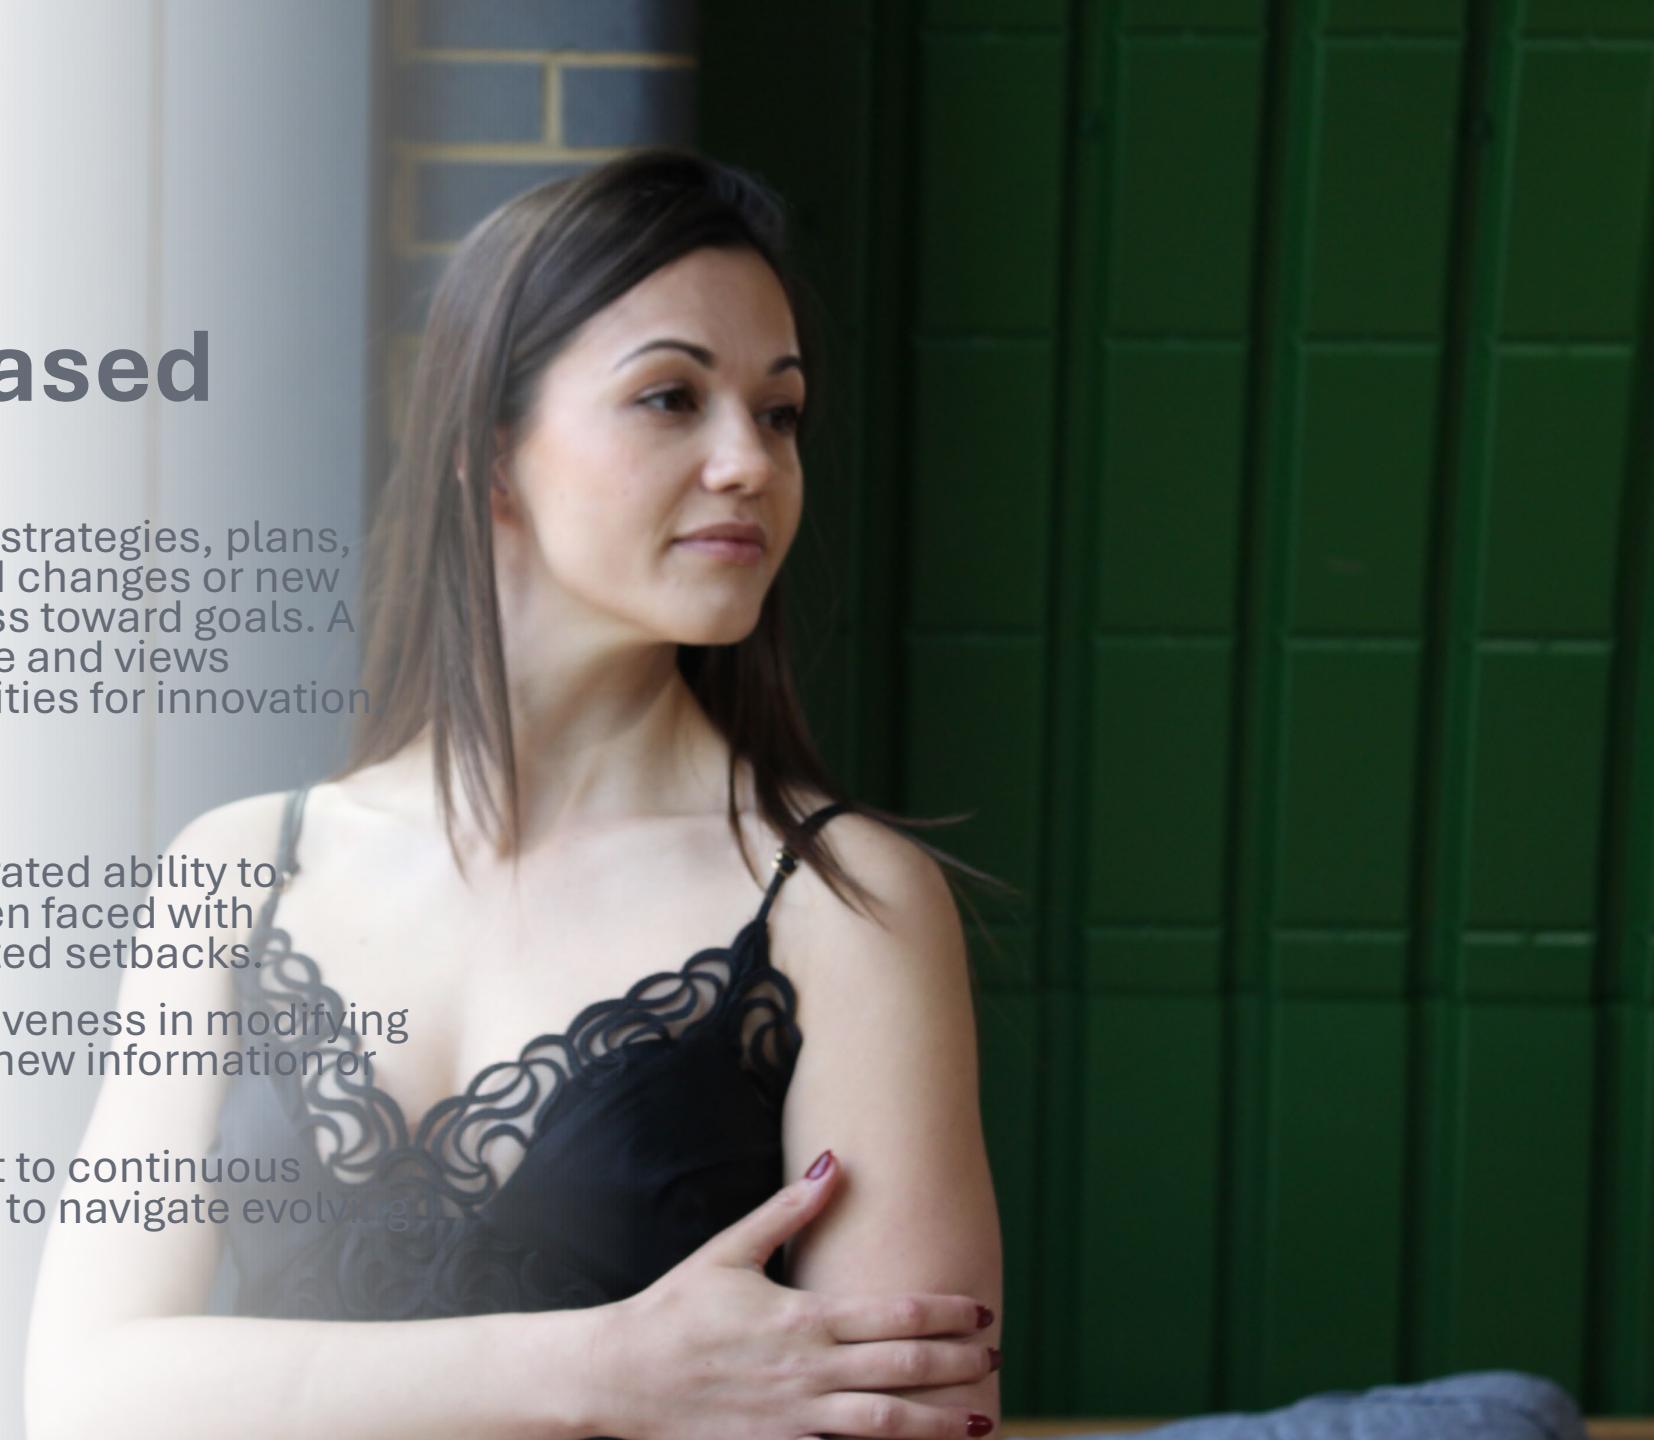

Evaluation based

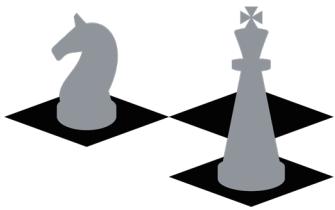

Adaptability

Adaptability is the skill to quickly adjust strategies, plans, and priorities in response to unexpected changes or new information, ensuring continued progress toward goals. A recipient of this award embraces change and views unforeseen circumstances as opportunities for innovation.

Evaluation Focus:

- **Resilience and Flexibility:** Demonstrated ability to maintain productivity and morale when faced with sudden shifts in priorities or unexpected setbacks.
- **Rapid Adjustment:** Speed and effectiveness in modifying approaches or processes to address new information or market conditions.
- **Learning Orientation:** A commitment to continuous learning and applying new knowledge to navigate evolving environments.

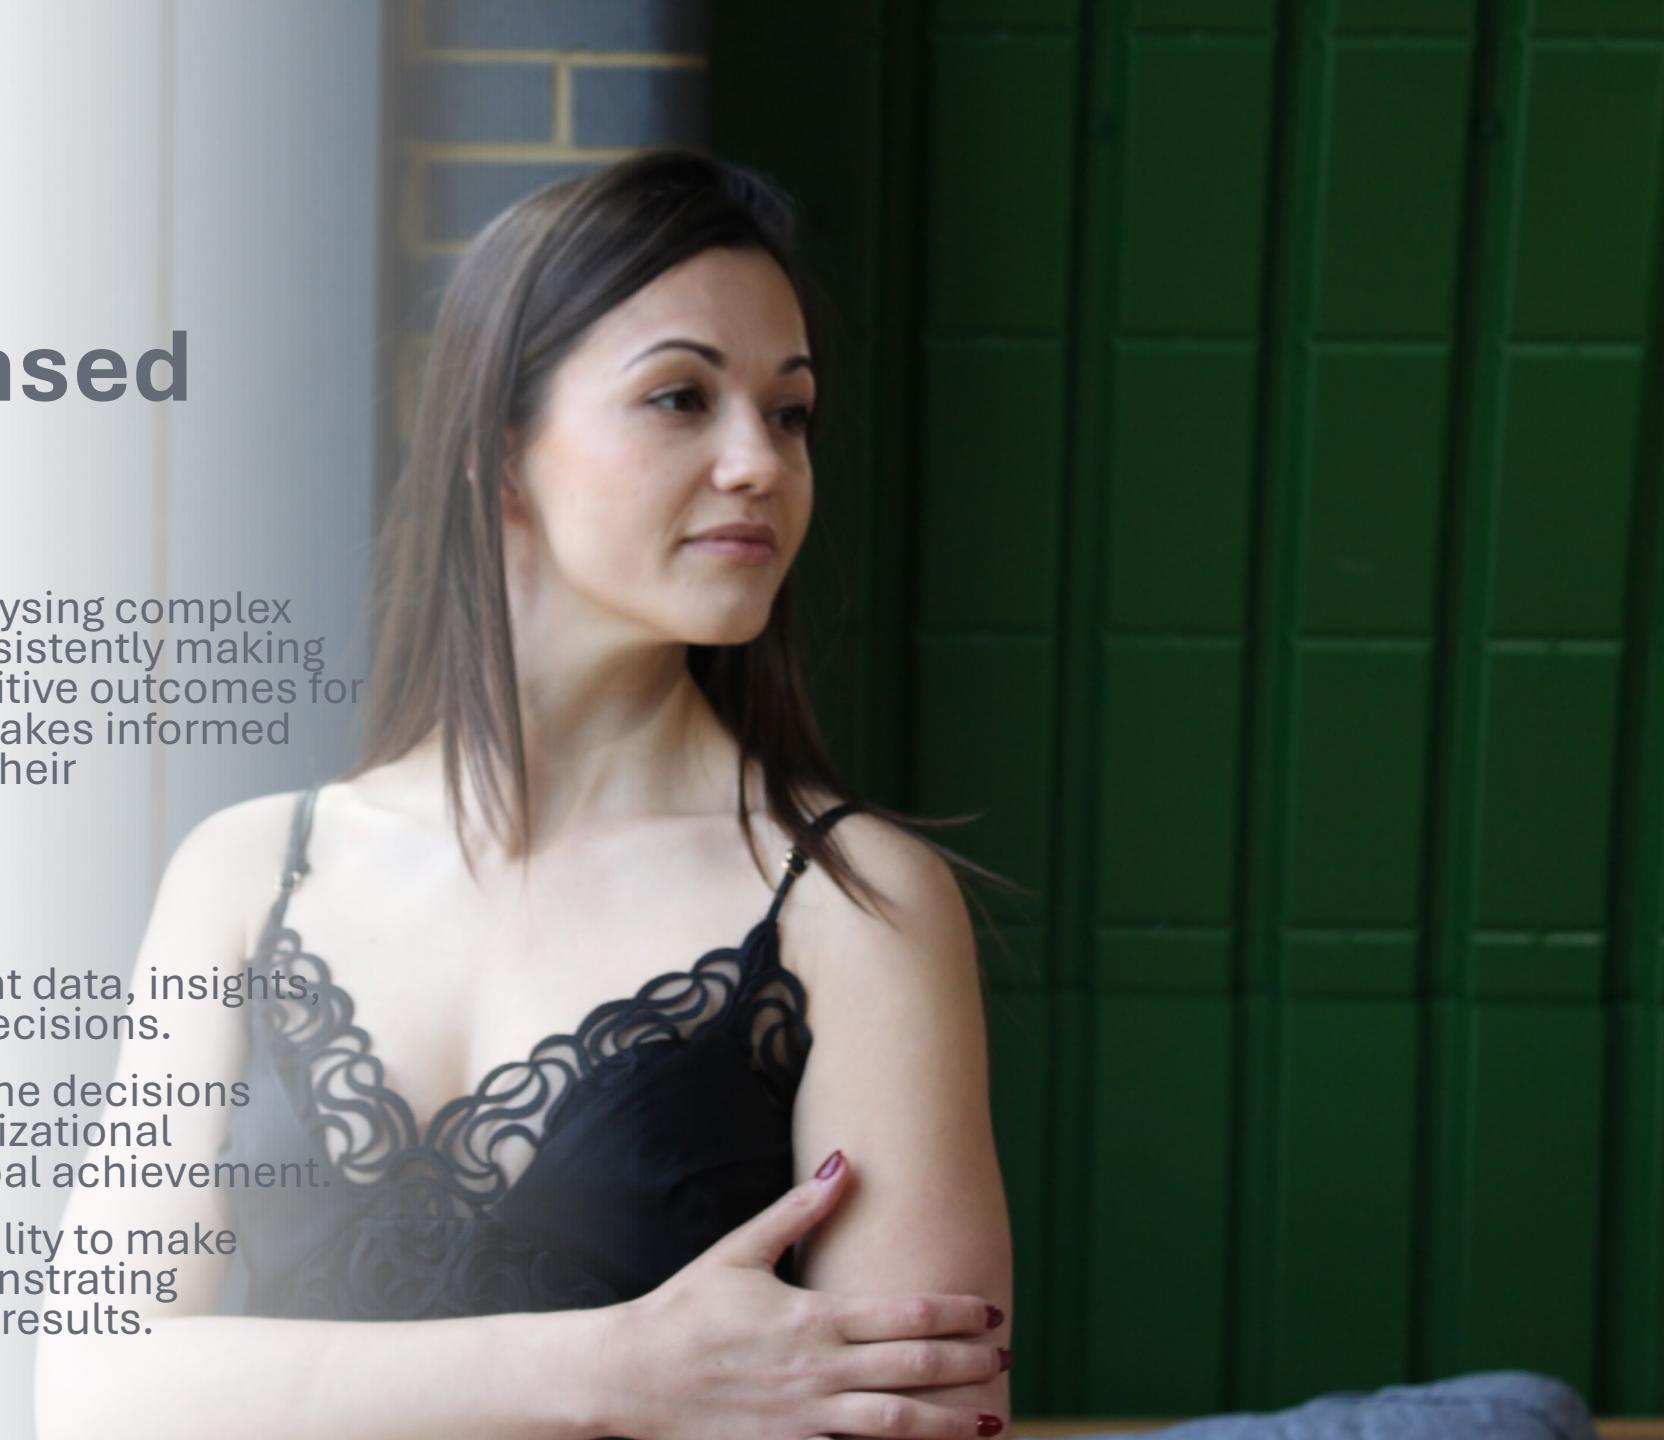

Evaluation based

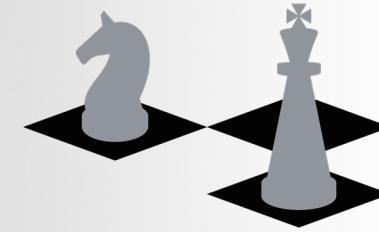

Effective Decision-Making

Effective decision-making involves analysing complex information, weighing options, and consistently making timely, sound choices that result in positive outcomes for the organization. The ideal candidate makes informed choices under pressure and stands by their commitments.

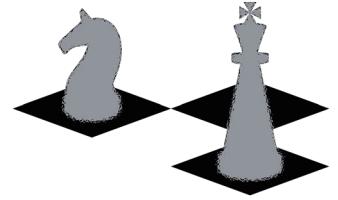

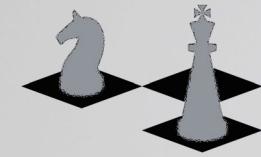

Evaluation Focus:

- **Data-Driven Choices:** Use of relevant data, insights, and critical analysis to support key decisions.
- **Impact and Results:** Evidence that the decisions made led directly to significant organizational improvements, efficiency gains, or goal achievement.
- **Timeliness and Confidence:** The ability to make necessary decisions promptly, demonstrating conviction and accountability for the results.
