

# SUPERSONIC

## FLIGHT ALLIANCE

### OUR MISSION

Provide the infrastructure necessary for the safe, sustainable and effective development of supersonic commercial aircraft in America by representing the interests of the aerospace industry to the responsible governments.

### OUR VISION

Create a civilian supersonic corridor (CSSC) over Eastern Washington.

### OUR GOAL

Gain industry support and lobby the FAA to designate a 300 mile CSSC for flight testing and aircraft development.

📍 6100 4th Ave South, STE 300 Seattle, WA 98108

PH: 206.486.1140 EMAIL: [MEMBERSHIP@SSFA.AERO](mailto:MEMBERSHIP@SSFA.AERO)

## WHY THIS MATTERS

Aerospace OEMs need non-military airspace to test and certify new supersonic civilian aircraft.

## ECONOMIC BENEFITS

The development of a CSSC in Eastern Washington will bring aerospace jobs and economic benefits to Washington State.
