

SUPERSONIC

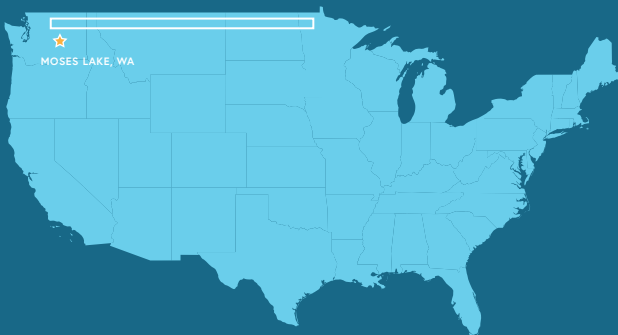

FLIGHT ALLIANCE

OUR VISION

Provide the infrastructure necessary for the safe, sustainable and effective development of supersonic commercial aircraft in America by representing the interests of the aerospace industry to the responsible governments

OUR MISSION

Create a 800-mile civilian supersonic and hypersonic corridor over Northwestern United States in partnership with the FAA and the aerospace industry.

📍 6100 4th Ave South, STE 300 Seattle, WA 98108

WHY THIS MATTERS

Aerospace OEMs need non-military airspace to test and certify new supersonic civilian aircraft.

ECONOMIC BENEFITS

The development of a supersonic and hypersonic corridor will bring new investment in the aerospace industry to the Northwest.
