

ALLSteel® **ThinHaus**®
10' WIDE x 24' LONG
TRAILER

Even the Wheels Have Steel

Oh my! Even the 16"/8-lug "E" rated tires on the 10' wide ThinHaus trailer have steel. From the ground up, strength and stability are built into every mile. When you start with a solid foundation, the rest of your house will stand strong for a very long time and that's the core of the ThinHaus trailer design.

Ten foot steel beams, galvanized bottom plate, 1/2" steel foundation pins, twin Dexter drop axles, 5' long king-pin, four 8,000 lb. bull dog corner jacks, all required DOT safety lights, license plate light & frame and 2-Year ThinHaus warranty make this trailer tops in the THoW world. Our cost for a complete ThinHaus trailer is \$9,975USD.

Your custom designed ThinHaus trailer comes to you from our licensed Arizona build center and

dealership with complete documentation and titling assistance for your home state and jurisdiction. Taxes, delivery, transfer, titling and permit costs are extra.

WHEREVER YOU WANT TO BE®

Just tell us where you want it and we'll take it there for you. Or, you can come to Gilbert AZ and pick it up. Or, you can rent a truck and tow it yourself anywhere you want.

Add a spare tire kit for only \$495 or wideload banner set for \$385.

Call or email to order. Worldwide delivery from stock available today.
