COMPANY PROFILE

We are an Australian based light steel building provider of structures namely prefabricated buildings, housing, warehousing, offices, commercial units and to international building companies.

We offer an end-to-end client experience that includes seamless building solutions for commercial, industrial and residential sectors.

We offer customized building of houses, villas, granny houses, warehouses, cool room, dry room, commercial & industrial structures, aircraft hangers, silos, ISBU and container houses, Office Pod & Cabin Pods e.t.c, tailoring to a broad customer base.

PRODUCT INTRODUCTION

— ONE CABIN FOR MULTIPLE PURPOSES —

PRODUCT INTRODUCTION

Multi-purpose

Our mobile soundproof rooms are suitable for a variety of purposes and can meet the needs of different customers.

Integrity management

Each soundproof room is composed of aviation aluminum, soundproof glass, polyester fiber sound-absorbing board and bamboo fiber board.

Ingenious creation

Designed and manufactured using professional mechanics solidworks engineering software, easy to install and reliable in structure.

Main materials

High-strength aluminum profile

Sound insulation glass

Polyester fiber sound-absorbing board

Medium density fiberboard

DETAILS

TIPS

SOUNDPROOF

VENTILATION

LIGHTING

100-240V POWER

SOUNDPROOF&SOUND INSULATION

The soundproof room wall is composed of sound absorbing cotton + bamboo fiberboard (hallow structure) and 10mm-thick soundproof tempered glass. The sound insulation and noise reduction index meets the design expectations.

VENTILATION

Each soundproof room is designed with a labyrinth type low-noise fresh air system, which can update the indoor air in 3-5 minutes. Large size soundproof rooms are also equipped with airconditioning.

LIGHTING

The booth body has equipped with 4000K three color temperature 220V LED ceiling lights, which can basically meet the lighting needs in the booth.

100-240V POWER

Each Booth has equipped with 100-240V/50-60Hz and 12V-USB power supply system. which can easily meet the use of mainstream electrical appliances in life.

DETAILS

Air filter

Each booth is equipped with a double effect composite filter, which be made of nano multifunctional primary filter layer+HEPA+composite carbon-attached layer, effectively filtering PM2.5, formaldehyde, toluene, TVOC and other pollutants.

Acoustic interior

The interiors are composed of polyester fiberboard with sound absorption, environmental protection, flame retardancy, decoration and easy processing. The thickness of the conventional soundabsorbing board is 9mm, and the thickness can be adjusted according to the needs of noise reduction.

Sound insulation glass

The glass of each soundproof room is assembled from 10mm-thick single-layer tempered glass certified by 3c. In order to increase the safety, engineers put explosion-proof film on each glass. (glasstype can be customized according to demand).

Steel universal wheel

In order to facilitate the movement, each soundproof room is equipped with steel universal wheels, which can steel freely without pressure. At the same time, a steel foot cup is arranged next to each wheel to prevent the soundproof room from moving when it is stationary. (Except for the smallest one).

DETAILS

Furniture selection

In order to save your time, our designers have preset furnishings for different usage scenarios according to different specifications of soundproof rooms for your reference.

Safety power strip

Each soundproof room is equipped with a dual-control switch, a 16A five-hole socket with USB port and a single-port network cable socket. (Overseas customers can change the socket to the international type 86 five hole USB 13A British socket two or three plug with switch panel).

Anti-wear exterior

The sound-proof board finishes of the sound-proof room are environmentally friendly, wear-resistant, anti-pollution fire-proof and moisture-proof. The color can be changed according to customer needs.

Glass decoration

Our booth pay attention to quality, and strives for perfection in every detail. The designer has beautified the edges of each piece of glass that has passed the 3C certification, and the overall image of the product has been significantly improved.
