No.18 The African Exodus

“Destiny is not a matter of chance; it is a matter of choice. It is not a thing to be waited for, it is a thing to be achieved.” William Jennings Bryan

According to the terms set forth as to reading God's message using the Convergence Matrix, it is not enough to simply recognize some historical event that defies Pascal's probabilities mathematics; one must also identify Judaic scripture providing unequivocal context. As it concerns blacks who identify as black before American it can be said certitude leaves no other plausible answer than the African Exodus after the failure of those blacks now posing a threat to the Constitution to concede an unrecognized blessing hidden in plain sight; a concession that will put an end to race as the central tenet of the false religion of human intellectual arrogance Marxianity.

The veil created by Marxianity to protect the black subculture must necessarily be lifted and the cloak of invisibility stripped away by the truth; God does not recognize race per se but emphasizes greater and lesser cultures with the prime directive being the great is to elevate, not rule over, the lesser but never is the greater to become less by contact with the lesser. For the black subculture the truth is a decision between destiny or destruction.

To assist, God has provided mankind measures derived from the matrices with the first the most important: *“The Torah and moral law of Sinai, Yeshua as a precisely defined messiah of purpose, the Declaration of Independence and the Constitution of the United States, republican governance as defined by Jefferson and Adams, are the benchmarks by which all else is to be measured; gone are the debates as to every belief system on earth having equal stature.”*

Piecing together the message begins with history and self-evident defiance of probabilities followed by the link to Judaic scripture then ending with the plan and the why of God's plan. Gain the higher vantage as it concerns the African experience in North America. He Who Is, the God of Sinai, knew that in the end of days neo-Marxists would distort the history of blacks in the United States to impede a plan to close the loop of human history that began in Africa; Nikole Hannah-Jones and writers from the *New York Times* and *The New York Times Magazine* wrote the 1619 Project in a way designed to “...reframe the country's history by placing the consequences of slavery and the contributions of Black Americans at the very center of the United States' national narrative.”

There is no truth in them; they actually wrote the 1619 Project to advance an agenda that would harmonize the “original sin” of slavery with Critical Race Theory in a way that would have now protected blacks believing a bright future could be extorted from the United States...a false promise actually designed by evil incarnate to deny blacks who identify as black before American their destiny. And then there is the death of Saint George of the metaphor which gave rise to anti-racism as a religion that now dominates all aspects of American culture.

The 1619 Project now has seven major problems; 1) 1776 was the third and last direct intervention by God to provide instruction for all mankind after Sinai and Yeshua, 2) white Anglo-Saxon Protestants are a second chosen people, 3) 400 years a slave is not a coincidence, 4) blacks are the last chosen people, 5) God is fully engaged, 6) there is a reason for every word of the Torah and it is incumbent upon those who hope to understand history and the lessons for this moment to look to the Torah for answers, and 7) the answer is in the Torah.

The issue goes to reconciling what Judaic scholar extraordinaire Rashi admitted did not add up; the 400 years a slave of Genesis 15:13 and the 430 years of Exodus 12:40...peshat when the derash is far more revealing. How is it possible that the greatest Judaic scholars including Rashi and Maimonides never seriously delved into the derash attendant to HaShem saying exactly what He meant as to Abram and Abraham being two different men yet the same; one blessed with a son named Ishmael whose descendants would found a great nation stretching from the Nile to the Euphrates and the other born from above as a new man to found the family born at Sinai.

That being the case, the promises made were of a different nature especially as it concerns the “seed” which in the context of history and mathematics is revealed; the seed of Abram are the seed to be planted as opposed to the seed of descent of Abraham and if one applies the distinction history gains a new perspective...from the higher vantage.

If one can distinguish the difference using the oracle of reason, questions unanswered have answers; Abram’s seed to be planted were already in Egypt, the Canaanite Hyksos, and after 430 years they would constitute the mixed multitude to be joined with the seed of descent Israel at Sinai to be genetically programmed to explode outward with the Assyrian diaspora as the lost tribes to seed western civilization; the house promised to David to shelter the chosen people after 70AD and the fall of the 2nd Temple.

That leaves Genesis 15:13 to be explained: *"And He said to Abram, "You shall surely know that your seed will be strangers in a land that is not theirs, and they will enslave them and oppress them, for four hundred years"*

Nowhere in history is 400 years a slave as explicit as Africans coming to Judeo-Christian North America. With that truth one has an answer to the 400 years a slave of Genesis and the 430 years of Exodus; mathematics is the language of God and He did not misspeak, but rather sent a message across time to black Americans to make the African Exodus. One need only ask, when in the course of 3500 years has '400 years a slave' taken on such meaning; a people that were embraced and supported by the Jews only to have them turn against them?

Marxians have long been known to equate slavery to the Holocaust but mathematics and reason tell a different story; there is a direct link between African Americans and the Jews but it is far more profound than most realize in that six million is a key to recognizing the profound evil of the past and the profound good of a necessary future as detailed in Pamphlet 17 United Nations Undone; six million making the African Exodus.

Until the African Exodus there were just nine verses of scripture I was confident referred to the United States as the House of Judah Christianity; Zechariah 12:1-9. There is a second in that just as one cannot point to the 400 years a slave of Genesis 15:13 without addressing the 430 years of Exodus 12:40, so too *"they will go forth with great possessions"*; unlike the mixed multitude leaving Egypt with unleavened bread stuffed in their shirts, blacks *"will go forth with great possessions"* when making the exodus from America to Africa.

It is not enough to simply point to '400 years a slave' and posit blacks in America have been chosen for a God given commission; common sense buttressed by mathematics fused with history and the '400 years a slave' of Genesis evidences the hand of God but requires context. As counterintuitive as it may seem to those weaned on the American experience as one of oppression as in the 1619 Project, blacks in America have no idea how fortunate they actually are in the context of history.

Just as the original Exodus defines the Jewish people and forged them into a family, HaShem recognized a black mixed-multitude would need a shared history and specific event to forge them into a great nation. The emissary is not speculating in that there is evidence of the unrecognized and therefore unacknowledged blessing in the story of slavery in America that rises to the level of a self-evident truth...but only after one is able to set aside the false narratives and concede there is a plan so as to consider the evidence objectively when viewed from the higher vantage where God exists.

It must be said the intended deception that is the 1619 Project was designed to diminish the United States by asserting the arrival of 20 or so Africans to Jamestown in 1619 marked the true founding of the nation...while downplaying the fact African slaves were introduced to the Americas more than 100 years prior by Spanish and Portuguese slavers. In fact, the first African slaves to set foot in territory that would become the United States landed in 1526 with Spanish explorer Lucas Vázquez de Ayllón along the Carolina and Georgia coasts. Africans slaves were also part of the Hernando de Soto Spanish expedition to Florida in 1539 and the 1565 founding of St. Augustine, Florida.

Furthermore, the twenty or so slaves that landed in Jamestown were taken when two privateers, *Treasurer* and *White Lion*, operating with the authority of Dutch letters of marque intercepted Portuguese slave ship *São João Bautista* sailing from Luanda, Angola to Veracruz on the Gulf coast of New Spain (Mexico) carrying upwards of 390 slaves taken from the Kingdom of Ndongo. It is not known what happened to the *Treasurer* but the *White Lion* sailed to the Virginia Jamestown colony where they were traded as indentured servants, common at the time, for "victuals" i.e. food. Two of the indentured servants, Anthony and Isabella, married in 1624 and had a child...the first recorded birth of person of African ancestry in North America.

The history of slavery is as old as human history but the history of slavery in North America was relatively short lived and if one were to objectively point to a beginning it would not be Jamestown in 1619 but further north to the Massachusetts Bay Colony when in 1624 while Isabella and Anthony were celebrating the birth of their son it is believed Samuel Maverick arrived in Boston with two slaves. Ten years later in 1634 the first shipload of slaves imported directly from Africa arrived in Massachusetts according to the book *Bound for America: The Forced Migration of Africans to the New World*.

In a foreshadow of what was to come the reality of slaveholding in the Massachusetts Bay Colony was not as it is widely thought with slaves actually living in the same house as the slave owner and the "triangle trade" the dominate expression of the New England slave trade; slaves or fish to feed slaves shipped to the Caribbean in return for rum or sugar to make rum. After ratification of the Massachusetts Constitution in 1780 slavery passed into history in the state...at the same time slaves sent elsewhere were being lost to history and therein resides the unrecognized blessing.

For a citizenry that has been saturated by the anti-racism theology of Marxianity it is stunning that so many Americans believe the future United States was the primary destination for African slaves. The actual number brought to North America was 388,000; "a tiny percentage" of the 10.5 of 12.5 million that survived the Middle Passage per Henry Louis Gates, Jr.; 3.7% which can be extrapolated to determine the lost equivalent population of South/Central America and Caribbean.

In 1860 there were 4.3 million blacks, both free and slave, in a United States which had a total population of 33 million people. Today there are 43 million blacks and a total population of 330 million Americans; exactly ten times the 1860 numbers. *If blacks expanded at the same rate throughout the Americas there would be approximately one billion in the Americas today which begs the question where are the rest?*

Today, all of South/Central America and Caribbean have total population of approximately 652 million with the majority being Hispanic of indigenous origin. The Africans slaves sent to the Caribbean and South America were lost to history just as those enslaved by Islam were lost to history. It was not white men running around with traps that captured millions; it was the Islamic slave trade targeting the African people with the assistance of other African peoples which delivered Africans to the coast for transit.

It was only in America and within the folds of Judeo-Christianity where blacks increased in direct proportion to the rest of the population. "Where are the rest" requires an answer; an answer that requires an unrecognized blessings as part of a plan. Blacks in the Caribbean, Central and South America have mixed and assimilated to the point that none identify as members of a distinct culture and black first; a cultural identity that did survive and thrive in the United States.

Just as the Jews were imbedded in "the strength of the gentiles" western civilization for 2000 years to insure the promise of Israel would be fulfilled, so too were Africans embedded in the crown jewel of the strength of the gentiles that is the United States. It was a blessing noted more than once by black Americans who advocated for, or thought possible, a black nation in Africa. Booker T. Washington recognized the blessing:

"...when we rid ourselves of prejudice, or racial feeling, and look facts in the face, we must acknowledge that, notwithstanding the cruelty and moral wrong of slavery, the ten million Negroes inhabiting this country, who themselves or whose ancestors went through the school of American slavery, are in a stronger and more hopeful condition, materially, intellectually, morally, and religiously, than is true of an equal number of black people in any other portion of the globe. This is so to such an extent that Negroes in this country, who themselves or whose forefathers went through the school of slavery, are constantly returning to Africa as missionaries to enlighten those who remained in the fatherland. This I say, not to justify slavery...I condemn it as an institution, as we all know that in America it was established for selfish and financial reasons, and not from a missionary motive — but to call attention to a fact, and to show how Providence so often uses men and institutions to accomplish a purpose."

The why of the plan is a great African nation to insure Africa is African in the face of the Chinese Communists who are making serious encroachments in Africa to secure resources; lebensraum.

The Chinese Communist Party membership is less than 10% of the population of China yet that small percentage represents the greatest threat to world peace in that they are true believers in the dream of world socialism, described in the Chinese Communist Party's theoretical journal *Qiushi* as a vision of Chinese nationalist prosperity; *collective effort, socialism, and national glory* which can then be translated to shared prosperity as the driver of a collective effort to realize world socialism as Mao envisioned for the ultimate glory of China; manifest destiny written with the blood of tens of millions of fellow Chinese and one that will not be impeded by the presence of blacks who did not contribute to history.

China is one crisis and charismatic leader away from the socialism misidentified as fascism of Nazi Germany presenting the very real probability the Third Reich with its sui generis nationalist and racial symbiosis is not at all sui generis...and the past is prologue. It is not enough to equate the Chinese Belt and Road initiative to Japanese Greater East Asia Co-Prosperity Sphere; the Belt and Road is reaching deep into Africa and a dark aspect of WW2 lebensraum cannot be dismissed; Hitler needed resources to power the German war machine and looked to Russia and the Ukraine where Nazis believed Slavs, "sub-humans", would slave to provide the margin of victory leading to a thousand year Reich. China looks to Africa in much the same way.

The greatest disservice to mankind over the last 150 years has been the accusation of American imperialism by Marxists; projection designed to replace the Constitution as beacon of freedom with Marxist "national liberation movements". Marxist imperialism was left unfettered and even now as hundreds of thousands of migrants are fleeing Marxian countries for America "national liberation" is championed by Marxian elites which is evidence enough they are targeting the beacon of liberty for destruction.

The strategy of projection remains a mainstay of neo-Marxists at every level but when the future of an entire subcontinent and the tribal blacks of Africa are being threatened with subjugation and worse, negotiations with evil incarnate on terms which negate or diminish the truth are no longer an option. Sub-Saharan Africans are easy prey for China aided by corrupt African politicians; Sub-Saharan Africans who desperately need African American expertise and attitude...as in "*Put a little nigga in it*". Imagine China negotiating with Russell Simmons or Sean Combs.

There is no time to lose in that China is moving quickly to establish a presence on the African continent using their massive cash reserves to build infrastructure...ostensibly without condition. When current South African President Ramaphosa believes it necessary to insist China is not engaged in a new colonialism one can be sure he too plans retirement in a multi-million dollar mansion as did Jacob Zuma...and sewage will still run down the streets of Soweto.

With the national debt of the United States at an unsustainable level the leadership of the PRC sense blood in the water as the neo-Marxist New Left did in 1965 and once again Africans will serve as both pawns and slaves to the higher morality of a godless ideology if the truth is not told and the agenda is not confronted. The "Belt and Road Initiative" has weaponized the massive foreign currency reserves of China and the global chess pieces are moving.

The Chinese "Belt and Road Initiative" announced in 2013 takes the concept of a state planned economy to the global level...with all roads leading back to China. The financial anchor for the Belt and Road Initiative, the Asian Infrastructure Investment Bank (AIIB), was proposed by China in 2013 coinciding with the official launch of the initiative by President Xi Jinping on a state visit to Indonesia in October 2013 followed a year later by the ceremonial launch of the bank in Beijing. The AIIB was capitalized with \$100B ostensibly "to enhance regional connectivity and embrace a brighter future" and was lauded by the United Nations as a vehicle to capable of "scaling up financing for sustainable development" and improving global economic governance.

The AIIB did not formally open until December 2015 and yet by 2017 the Belt and Road Initiative was already ranked "as one of the largest infrastructure and investment projects in history, covering more than 68 countries, including 65% of the world's population and 40% of the global gross domestic product as of 2017"...and Wiki once again proves it value to average people who will need facts so as to understand the implications and make the necessary decisions.

Debating why, after two decades, a country with the second largest economy in the world is still defined as a "developing country" by the WTO and has been allowed to retain the prerogatives attendant to the definition while blatantly stealing intellectual property is a fool's errand; China has nuclear weapons and its manned space program rivals that of both Russia and the United States. China has used its vast reservoir of cheap labor to flood the United States and Europe with products so as to eliminate manufacturing capacity and accumulate massive foreign currency reserves which are now being employed on a strategic level.

When China was admitted to the WTO there was a general consensus by western powers economic integration would moderate political inclinations as supposedly did with OPEC after the 1973 oil embargo.

In response to support for Israel in the Yom Kippur War of 1973 the Organization of Petroleum Exporting Countries (OPEC) instituted an oil embargo which effectively put an end to the post WW2 economic boom but they were proven too clever by half; free people adjust quickly to challenges and as it concerns oil imports changes were implemented resulting in a modest 11% increase in oil imports between 1980 and 2015 while the American GDP increased by 150%.

Today the United States is the world's largest producer of oil and gas in great measure due to technological advances such as hydraulic fracturing given impetus by the embargo forcing OPEC to moderate the use of oil as a political weapon for good reason; OPEC had mountains of foreign currency reserves which translate to mere numbers on a vulnerable bank ledger prompting prudent investment. A less understood aspect of the moderating equation goes to said investment; OPEC countries could not invest in communist countries where private property is virtually nonexistent and so invested in the western countries targeted by the embargo...and as such any future thought of embargo would include damaging their own investments.

China has inverted the equation and those who believed economic integration with Chinese membership in the WTO would temper Maoist/Marxist inclinations of the ruling Chinese Communist Party have been proven wrong in their globalist estimations; cheap consumer products have insured a steady and massive flow of wealth to the PRC while American manufacturing has virtually evaporated leaving a single comparative advantage in the form of technology...which is stolen or transferred on a massive scale.

The CCP is a parasite taking full advantage of an unwitting host but unlike OPEC China has no vested interest in keeping the host healthy and alive in that the host, the United States, must die before an unlimited source of sustenance can be realized; Africa as the means to Lebensraum.

Lebensraum; German, literally 'living space'; *the territory which a group, state, or nation believes is needed for its natural development* as defined in the Oxford Dictionary...the same imperative which prompted Germany and Japan to risk WW2. The Chinese "Belt and Road Initiative" is for all intents and purposes no different than Japan's "Greater East Asia Co-Prosperity Sphere" and the past is prologue; touted as "Asia for Asians" Japanese militarists considered the plan a means to an end; unlimited natural resources and labor which would result in the realization of the Japanese empire in real terms.

Ironically, or perhaps not, the Chinese foreign ministry cited comments by President Xi Jinping asserting Beijing must lead the way in reforming global governance. In an echo of the "Asia for Asians" slogan of Japan's pre-war Greater East Asia Co-Prosperity Sphere, Xi said China would strengthen relations with those developing nations he described as "natural allies". After years of exerting economic soft power in the World Bank and International Monetary Fund, China formed the Asian Infrastructure Investment Bank and aggressively encroaching upon critical sea lanes by building island military bases then declaring sovereignty in the South China Sea.

Using the term "blood in the water" as it concerns neo-Marxists in the west and Chinese Communists is apropos given what should be self-evident truths; neo-Marxists in the west have seditiously weaponized the agencies of governance resulting in a multitier application of justice and in China President is Xi Jinping, who came to power at the same time the "Belt and Road Initiative", does not have to concern himself with term limits after the March 2018 National People's Congress removed term limits. Xi Jinping has adopted the slogan "Chinese Dream" which is traditional for Chinese leaders, but many mistakenly equate the slogan to the "American Dream"; the slogan actually reflects an all-inclusive Chinese leadership embracing the Maoist/Marxist Manifest Destiny.

President Xi gave an 85 minute speech wherein he said "Chinese communists are duty bound to develop Marxism in the 21st century and adapt it to the Chinese context"; a historic mission to create an updated fusion of the thought of Mao Zedong with Marxist Leninism resulting in "socialism with Chinese characteristics"; a national slogan Xi repeated forty times. President Xi is promoting an economic model inherently interventionist and statist as a model of success...and the product of strict control by the communist party. China is creating the groundwork a Maoist/Marxist Manifest Destiny which does not include "...obstacles to the forward sweep of history... inferior stock...who ought to be eradicated and swept from the surface of the earth".

As the "Belt and Road Initiative" (BRI) makes deeper inroads in the African continent expect the adoption of the Yuan to serve as trade currency within the boundaries of the BRI. The world can also expect Russia and the PRC to find common cause in that Russia knows full well if the African sub-continent is denied to the PRC 1.4 billion people ruled over by less than 7% of the population will eventually look north for natural resources; 7%...the same percentage of Germans who identified as true believers of Nazism.

In that truth black Americans might begin to understand why the weight of the world is upon their shoulders; Chinese Communism has deified a tyrant responsible for the deaths of tens of millions of innocent people and now the sons and daughters of those mass murders, true believers of a false religion, presume to assure the world their intentions are purely noble.

There is an equation for world peace, but peace will require the chess pieces now in motion be put in check; China, for all their espoused good intentions, must be denied the African sub-continent by the African Exodus. I would venture to guess six million well-funded black rooks, knights and bishops would put the game in check...no “mean ass bitch” queens allowed in that most will fight tooth and nail to avoid the hard work required to build a great African nation; black women who erroneously believe they have arrived.

The ‘we have arrived’ impression is understandable given the success of the Marxian “anti-racism” front opened by Black Lives Matter after George Floyd; expanded by Nikole Hannah-Jones and the 1619 Project and now being exploited by the likes of Ibram X. Kendi, TaNehisi Coates, Joy ‘Julius Malema’ Reid, Michael Eric Dyson, Leonard Pitts, Marc Lamont Hill, Touré Neblett and until of late open racist Tiffany Cross to translate the capture of Washington DC into perpetual preference and reparations.

*There is another class of coloured people who make a business of keeping the troubles, the wrongs, and the hardships of the Negro race before the public. Having learned that they are able to make a living out of their troubles, they have grown into the settled habit of advertising their wrongs — partly because they want sympathy and partly because it pays. Some of these people do not want the Negro to lose his grievances, because they do not want to lose their job. Booker T. Washington *The Intellectuals and the Boston Mob**

Author and critic Touré Neblett exemplifies a subtle but pervasive common thread that runs through the various black liberation acolytes; anti-Semitism. As of yet not as blatant and obnoxious as the Nation of Islam’s Louis Farrakhan but growing both in the street and within the party of slavery; Democrats like Cori Bush, Ayanna Pressley and Ilhan Omar who openly refer to Israel as an “apartheid state” knowing full well the word is like a dog whistle to the street.

Marxianity will never realize reparations and Louis Farrakhan will never be able to wrest a state or two from the Union but the African Exodus can and must be a reality...before the impression made by law professor Ekow N. Yankah in an article titled ‘*Can My Children Be Friends With White People?*’ becomes the general impression of blacks and whites in America proving Thomas Jefferson was without doubt a prophet of governance.

"Nothing is more certainly written in the book of fate than that these people [blacks] are to be free. Nor is it less certain that the two races, equally free, cannot live in the same government. Nature, habit, opinion has drawn indelible lines of distinction between them."

Thomas Jefferson: Autobiography, 1821

Black Americans have a penultimate choice to make given the identification of evil incarnate; Marxianity is a religion posing as a political ideology in alliance with Islam, a political ideology posing as a religion; Marxianity attempting to supplant Christianity and Islam attempting to supplant Judaism with both fully intent on destroying the United States so as to destroy Israel.

The primary forces of the final confrontation described in scripture, Ezekiel's Gog and Magog, have been identified; these are the "end of days". HaShem provided the identification for a reason; He does not want a single person to suffer or die needlessly...simply concede the evil and act accordingly which for black Americans includes recognizing their very purpose unto God.

It's time for the African Exodus.

If there is any doubt Marxians would dispose of blacks when they are no longer useful in creating the "dictatorship of the proletariat" on the way to a "sustainable world" of 3-5 billion people one need only deeply consider the over 100 million innocents lost to the various forms of socialism in the last 100 years. In the words of Allan C. Brownfeld from his must read article *Karl Marx: Communist leader and blatant racist*:

"In his book "Karl Marx: Racist," Nathaniel Weyl shows how Marx privately developed an entire racial hierarchy and racial view of history by the 1860s. In the middle of that decade, Marx was casting about for some scientific or pseudoscientific justification for his racial notions, which he found in the work of Pierre Tremaux. He and his friend and benefactor Friedrich Engels went so far as to advocate *wars of extermination* against Slavic peoples and the destruction of Russia. How ironic that the Soviet Union proclaimed itself a "Marxist" state."

"Karl Marx and Friedrich Engels," Weyl writes, "were neither internationalists nor believers in equal rights for all races and peoples. They opposed the struggles for national independence for those races and peoples that they despised. They believed that the 'barbaric' and 'ahistoric' peoples who comprised the immense majority of mankind had played no significant role in history and were not destined to do so in the foreseeable future. They regarded them as obstacles to the forward sweep of history. They considered them as objects rather than subjects. They were people who ought to be conquered and exploited by the more advanced nations. Some of these inferior stock were people who ought to be eradicated and swept from the surface of the earth".

Nelson Mandela was a Marxist, and South Africa with its Marxist social justice constitution is failing just as Marxist Zimbabwe failed. Worse yet, the entirety of the black African subcontinent is nothing more than a consortium of corrupt and largely tribal failing states ripe for the taking by Communist China after Marxians defined any investment by the Anglosphere as imperialist and colonialist; investments now being made by China in earnest. The CCP fully expects a return on investment that does not include any more "ahistoric" peoples than necessary to slave in the fields and mines for them.

Marxism managed to convince the world western colonialism was entirely bad which glosses over the fact the United States, Canada, New Zealand and Australia were all colonies at one time. As it concerns Africa, after the Europeans were pushed out by weight of sheer numbers the benefits accrued from contact with the greater cultures were virtually negated leaving Africa in a state of suspense wherein parodies of European governance ruled over the existing tribalism, and thereafter economic and cultural advance ceased.

Black Americans more than any others have been manipulated by Marxianity, not realizing their fate is inextricably tied to the 1.1 billion people of black Africa; the cold calculations of Marxism will not allow a billion people in Africa to stand in the way of a "sustainable world" of 3-4 billion and the Marxist heaven on earth any more than they would allow the millions of black criminals they created to stand in the way of a People's Republic of America.

The degree of societal indoctrination as to the civil rights movement being the seminal event can be answered by asking a common sense question; in what civilization would a readily identifiable 5% of the population, black males age 15-45, commit over 50% of violent crimes with virtual impunity and then be allowed the cloaks of invisibility that are racism and victimhood? The answer to why the needle of "character" has not moved in 60 years goes to policies designed to create the animals that will be needed for violent revolution.

For a short period young blacks might be useful as enforcers but soon thereafter they will become a burden to Marxians well versed in scientific determinations...with the problem being the only science Marxians are concerned with is political science and when viewed objectively there would be very little difference between the final solution of the false religion Marxianity and the false religion Nazism.

Bolshevism="International Socialism" Nazism="National Socialism" One was collectivism based on economic class, the other collectivism based on race and ethnicity. They agreed on the socialist part, but disagreed on participants. A.E. Samaan

Black Lives Matter only so long as they serve a purpose in advancing the agenda of Marxianity; now propagating the "anti-racism" movement after redefining the civil rights movement as *the seminal event in world history*.

With nominally libertarian corporations exhibiting their citizen of the world colors supporting the anti-racism movement, the 2020 Marxian election theft and subsequent spending will result in an inevitable Cloward and Piven economic crash and reveal Friedrich von Hayek entirely right when he wrote "*Fascism is the stage reached after communism has proved an illusion*".

It is as it was in 1990 after neo-Marxists successfully redefined the civil rights movement as *the seminal event* in American history; South Africa became a target and soon there were banners hanging from college dorms and marches in solidarity just as there is today with 'Black Lives Matter'...an equally contrived causa sui movement that studiously ignores the truth. Just as the history of the United States as it concerns slavery is complex so too that of South Africa; a nation colonized long before blacks in great numbers arrived with the discovery of gold and diamonds requiring labor for large scale mining.

In truth, the country was forced from the hands of white South Africans who had been there for over 300 years before the arrival of blacks in large numbers to work the mines in the name of democracy. Very simply, white South Africans are people of the greater European culture and merely wanted to live apart, apartness, which is what 'apartheid' means. The same strategy is reflected in the open southern border of the United States.

It is ironic there is a push to provide separate but equal facilities for blacks at a number of universities and colleges. Despite 55 years of trying to force Americans to racially integrate the effort has largely failed...to the extent "progressive" Montgomery County Maryland considered reviving the long dormant idea of busing to achieve racial integration i.e. government coercion and forced association.

"But we assure the socialists that we repudiate only forced organization, not natural organization. We repudiate the forms of association that are forced upon us, not free association. We repudiate forced fraternity, not true fraternity. We repudiate the artificial unity that does nothing more than deprive persons of individual responsibility. We do not repudiate the natural unity of mankind under Providence." Frédéric Bastiat, *The Law*

God has an incredible ability to transform the machinations of evil into profound good. So too the evil of slavery deemed America's original sin by Marxianity resulting in unending angst and anger within the black subculture growing ever more confrontational by the day by design...compounded by unwarranted guilt ascribed to every white American by Critical Race Theory. Alexis de Tocqueville sensed the only solution in his classic *Democracy in America*. *"Thus the negro transmits the eternal mark of his ignominy to all his descendants; and although the law may abolish slavery, God alone can obliterate the traces of its existence."*

Marxianity has amplified the ignominy and yet black Americans have willingly forged chains bonding them to the evil that is the false religion and as such God determined there would be a higher vantage afforded. Begin by considering it is quite possible that the White Lion engaged the São João Bautista slave ship on July 4th 1619 and as such the date is far more important than the August Jamestown date used by Nikole Hannah-Jones for the 1619 Project in that the July 4th 2019 California earthquake sequence 400 years later marked the start of the seven year countdown to Yeshua in 2026 Jerusalem.

An Honest Conversation with a People Ill Prepared

"In a time of deceit telling the truth is a revolutionary act." George Orwell

It is fairly obvious that after revealing matrices that identify Barack Obama as evil on par with Adolf Hitler the emissary has no intention of pandering to blacks...especially in the wake of the offensive now being implemented in the streets of America and Europe that will soon grow to be Gramsci "War of Maneuver"; the "antiracism" movement internationalizing the Civil Rights movement as *the seminal event in world history*.

In June 2020 Obama came out of seclusion after the death of George Floyd to write an article titled *How to Make this Moment the Turning Point for Real Change* in language steeped in Marxian subtext, praised as the voice of reason with obsequious calls for his second coming; Obama who appeared at the 2020 DNC to emphasize Covid and Floyd presented an opportunity Marxians must exploit to "preserve democracy" and the institutions of government... he failed to mention he had weaponized during his two terms as president and now resembles the classic definition of fascism.

Rather than pandering to blacks the emissary carries stark warning; the dysfunctional black subculture was created by as a means to an end, the destruction of the Constitution and Israel, and in doing so the evil that is Marxianity compromised a distinct people and culture the God of Sinai forged during "400 years a slave" into a chosen people; a people now responsible for what the end of history as it is understood will look like.

The scale is now in place and the weight of the world is upon blacks in America after turning their backs on an unrecognized blessing putting them on the wrong side of the end of history and if history proves anything, it is the extremes HaShem will go to preserve the Torah, Israel and the Holy Nation.

Not one jot or tittle of leniency or sympathy from an emissary trying desperately to save the lives and souls of the last chosen people before the end of history as it is understood; no leniency or sympathy after joining forces with Antifa to burn, destroy and loot in a never ending series of excuses to inflict Planned Chaos that has taken on the hue of a predicate for revolution threatening the Constitution and by extension Israel and the Holy Nation. Blacks who identify as black before all else face certain destruction if they fail to take advantage of the avenue of escape that is the African Exodus.

The African Exodus is part of our Creator's plan and a great nation on the African continent is the destiny of black Americans if they can free themselves from the chains they themselves forged bonding them to Marxianity. Those blacks who deny or diminish the unrecognized blessing paid for with the suffering of their forbearers will lose the blessing and protections extended by HaShem and fall with the false religion Marxianity...but those who recognize the uncommon sense of the African Exodus will be blessed above others and find redemption.

"Only the redeemed have the ability to like what God likes and to be pleased with what pleases God."

A.W. Tozer, And He Dwelt Among Us

When one thinks of black churches in America, one thinks of "Go down Moses" which speaks to the heart of hearts of a people who have a shared history of suffering and endurance in the face of slavery and persecution; the tie that binds them to the Jews and Exodus was intended. One need only visit black churches once or twice to understand that black ministers and their congregations have a special connection with the G^d of the Exodus; their spirit is inextricably interwoven with that of He Who Is, Moses, slavery, "let my people go" and the idea of freedom.

Unfortunately, the historical Jewish empathy with black experience and the resulting support is imbued with a distinct *causa sui* arrogance and so must have an end; it took courage and faith to follow Moses through the wilderness and to the Promised Land ergo black Americans will have to renew their relationship with HaShem independent of Jews; American blacks will have to move forward as did Moses and the chosen people with their backs against the sea rather than the deceitful “forward” of Marxianity.

When blacks chose to follow the Moses of Marxianity, Karl Marx, the truly remarkable progress made in the 100 years between the end of the Civil War in 1865 and the signing of the Voting Rights Act in 1965 was discarded in favor of dependence. Justice Antonin Scalia was excoriated for referring to the Voting Rights Act as a “perpetuation of racial entitlement” during *Shelby County v. Holder* arguments but history has proven his observation was even more applicable to the Civil Rights Act of 1964 which goes to Martin Luther King Jr.’s 1963 “I have a Dream” speech in two parts; the check and character.

“In a sense, we have come to our nation's capital to cash a check. When the architects of our republic wrote the magnificent words of the Constitution and the Declaration of Independence, they were signing a promissory note to which every American was to fall heir...America has defaulted on this promissory note insofar as her citizens of color are concerned...America has given the Negro people a bad check, a check which has come back marked "insufficient funds"...So we have come to cash this check”

America may have come up short before 1963 but after the civil rights legislation of 1964 and 1965 over \$20T has been wasted to create and maintain the black subculture; the proverbial check has been cashed, reissued and squandered many times over with no appreciable results which goes to character.

Martin Luther King Jr. prayed for the day his children would “...one day live in a nation where they will not be judged by the color of their skin, but by the content of their character” yet the needle on the scale of character has not moved upward since 1965 but rather dipped precipitously with destructive anger, riots, rap music, sex, drugs, crime and routine incivility with a decidedly blatant racist undertone encouraged by Marxians directed pointedly at whites but often Jews, Asians and when territory collides, Hispanics.

Forget the check in this world where the card is king...the race card has been declined by God for overuse and lack of self-control necessary to overcome dependence and crippling lack of self-esteem.

Blacks may have rejected the measure of character Martin Luther King Jr. championed but God has not; it has never been about race but rather greater and lesser peoples and cultures with the greater tasked with elevating, not ruling over, the lesser but the 'prime directive' is operative...never is the greater to be made less by contact with the lesser. Deeply consider the following quote:

"I just want to do God's will. And He's allowed me to go up to the mountain. And I've looked over. And I've seen the Promised Land. I may not get there with you. But I want you to know tonight, that we, as a people, will get to the Promised Land. So I'm happy, tonight. I'm not worried about anything. I'm not fearing any man. Mine eyes have seen the glory of the coming of the Lord."

Blacks in America would be well advised to begin asking the question 'what are the chances' with the seriousness it deserves; the words were spoken in the last public speech Martin Luther King Jr. would make in 1968 Memphis less than 24 hours before his assassination. After being coopted by Marxians hijacking the Civil Rights Movement I have no doubt the mountain he was referring to was that of ignorance; King must have realized he had been used but because he was a good man he was allowed a vision from that mountaintop and could see all the way to 2026 and the creation of a great African nation.

The Weight of the World

"The destiny of the colored American...is the destiny of America."

Frederick Douglass, 1862

Frederick Douglass was more right than he could have known, but not in a way he might have perceived which is so like the mistaken impression of Jews as it concerned Ephraim; the seeds of nations to be planted versus those of descent are as the truths of the Torah; some seen and some hidden. Black Americans are the last chosen people; very special children of a G^d who chose them for a reason just as He did the Jews...and just like the Holy Nation HaShem forged them in the furnace of slavery.

There will be many who take offense given the harsh tone of this writing heretofore, and the usual Marxian suspects will label the truth as racist; a conclusion impossible to defend if one deeply considers the central demand being made by the God of Sinai. The Jews are disciplined and educated with the lowest number of crimes per capita of any identifiable people and culture; the opposite of the black subculture.

If blacks hope to retain their blessing and realize their destiny they will have to recoup the 55 precious years lost bowing at the altar of a false religion within the next few years and become as the Jews; born from above as a highly disciplined people and culture so as to prepare for the African Exodus. Read the words of Frederick Douglass from *Narrative of the Life of Frederick Douglass* and consider them a message across time speaking truth to the false religion Marxianity: *"Here we have religion and robbery the allies of each other—devils dressed in angels' robes, and hell presenting the semblance of paradise."*

Black Americans have a destiny, a purpose unto the incomprehensible intellect that created the matrices and as such must gain the higher vantage of convergence to reexamine their journey from tribal Africa to English colonies that would become the future United States.

Our Creator is unwilling to abandon a precious people forged by 400 years of slavery to a false religion and it is in that context one must read the words of this emissary. This writing is meant to elicit the necessary *honest conversations* Marxians cannot allow and will attempt to bury in an effort silence the truth, and the truth is blacks have been lied to...to create cannon fodder. Silence no more must be the mantra while there is time.

"When people are forced to remain silent when they are being told the most obvious lies, or even worse when they are forced to repeat the lies themselves, they lose once and for all their sense of probity. To assent to obvious lies is to co-operate with evil, and in some small way to become evil oneself. One's standing to resist anything is thus eroded, and even destroyed. A society of emasculated liars is easy to control."

Anthony

Malcolm Daniels

There may be no better description of black males in a matriarchal society than *"...emasculated liars...easy to control"*; reduced to hunter gatherers that have no place in the Marxian Utopia now defined as a sustainable world.

There are over two million black men in prison in the United States which has less to do with a racist justice system than policies designed to advance a neo-Marxist agenda that will in the end require the sacrifice of black men including many now in prison; black men who would eagerly embrace the opportunity to build a nation if given the opportunity to prove themselves to themselves...meaning as never before.

To be able to one day say 'we saved six million innocent whites, secured an entire subcontinent for black Africans and set the stage for the solution of the Arab/Israeli conflict is meaning of the highest order; a second chosen people.

Black Americans were chosen for a reason; the unfathomable intellect and power that chose the title God when setting mankind on the journey to ascendance knew human intellectual arrogance would one day morph into a religion posing as a political ideology that would ally with a political ideology posing as a religion to challenge His authority and threaten His plan...but as it is with all the plans of evil too clever by half in that what it perceives as its greatest strength is actually its greatest weakness.

"No matter how hard Evil tries, it can never quite match up to the power of Good, because Evil is ultimately self-destructive. Evil may set out to corrupt others, but in the process corrupts itself." John Connolly, *The Infernals*

Black men have been waiting for this moment in the sun forever...an opportunity to shine and take their place in history at the end of history as it is understood. Black men no longer fated to be pawns to be sacrificed in the end; they will be the ones writing the banner headlines in the last few years. Black men who can expect the greatest international support in history to insure the success of an Exodus that will preserve Africa for black Africans while also serving as a template for ending the Arab/Israeli conflict. Black men who will be blessed by the God of Abraham who chose them to build a New Jerusalem in the African Promised Land.

"We're coming to the edge, running on the water, coming through the fog, your sons and daughters. Let the river run, let all the dreamers wake the nation. Come, the New Jerusalem." Carly Simon's *Let the River Run*

The Africa Ascendant Treaty

"Men, there is much to live for, and there is much to die for. The man, the race of nation that is not prepared to risk life itself for the possession of an ideal, shall lose that ideal. If you, I repeat, must be free, you yourselves must strike the blow."

Marcus Garvey, *Selected Writings and Speeches*

If you build it they will come...but what is being built does not serve the interests of the people of Africa; the Build Act of 2018 establishing the United States International Development Finance Corporation is a strategic endeavor intended to create a financing firewall to blunt the encroachment of China in Africa but does nothing to address the endemic corruption of African governments; two competing powers, east and west, seeking leverage will do nothing but lay the foundation for a bidding war to be exploited by corrupt governments...none of which will benefit the people of Africa.

HaShem's counteroffer; *The Africa Ascendant Treaty (AAT)* introduced by the United States to join with the European and Ishmaelite nations in a three year effort to begin the process of creating a great black African nation. Of the 54 countries on the African continent eight would be excluded; Arab Egypt, Libya, Algeria, Sudan, Mauritania, Morocco, Tunisia and Djibouti.

As with all things African the leverage would be in the form of financial assistance but with difference; the governments and politicians would have an advise and consent role but the building management would be entirely in the hands of black emigrants from America.

The AAT would entail recognition of the African Exodus as a historically significant event and as such every African nation and every signatory would recognize a unique citizenship classification, African, as a condition of participating in the greatest grassroots transformation in history; blacks returning to African as *Africans* who would be able to travel from one signatory African state to another unhindered to advance the cause of a great African nation. Free radicals fully committed to changing the chemistry so as to create a truly ascendant Africa.

One country has taken the first furtive but non-committal steps; Ghana, from whence the majority of Africans were shipped into slavery, instituted the Year of Return, Ghana 2019, inviting the descendants of the African diaspora to return home. It is no coincidence Ghana, once a British colony, was the first to gain its independence peacefully in 1957 under Kwame Nkrumah...who later like MLK embraced Marxism, was deposed and died before realizing his dream of the diaspora returning to join in developing the African continent.

While Ghana touts the idea of offering the African diaspora the chance to return to their spiritual home so as to recapture their ancestral connection, the government is well aware of the benefits the 3,000 individuals who have made the move bring to Ghana. Unfortunately, Ghana has made no provision for the diaspora to break the ties that bind them to their countries of origin and become citizens; in the 15 years after the country passed a 'Right of Abode' law in 2000 only Rita Marley, Bob Marley's wife, was granted indefinite stay.

In 2015 Ghana established a Diaspora Affairs Bureau under the foreign affairs ministry that makes clear the "Right of Abode" is dependent on the migrants contribution to government development and investment goals. All in all the effort is about as effective as 2014 UN General Assembly Resolution 68/237; International Decade for People of African Descent (2015-2024).

One might venture to guess the idea of \$10B per year injected into economies of signatory states, \$540B, would be welcomed as would a massive infusion of black expertise and talent. Like a double helix giving life to the African Exodus the focus would be on South Africa; the last English enclave also transitioned peacefully but remains an open wound in decline.

The AAT would provide for African citizenship and \$10B allocated to signatory African states for a period of three years on three conditions; 1) firm commitments to sever financial ties with the PRC, 2) acceptance of the terms of the *African Exodus Act* (AEA) which will include a detailed management and financing structure to be administered by blacks in exodus from the US, the EU and the Anglosphere, and 3) the extension of exit visas to every white South African and every other white scattered across Africa wishing to leave for the United States or any other country in Europe or the Anglosphere to do so...countries that would provide for refugee status and a unique classification; eligible for citizenship within one year.

South Africa is the quintessential expression of "The road to hell is paved with good intentions" and should serve as ample warning to all of western civilization as it concerns concessions to Marxists based upon the fiction of race. To that end, every country has a shared responsibility for coercing white South Africans to relinquish their country in the name of racial equality; equality the Marxists in South Africa ignored once they were in power as Marxians are doing in the United States in the name of equity.

AAT signatories would assume the costs associated with relocation of whites in Africa to the United States, Europe and the Anglosphere which can be safely estimated to be \$30B. At the same time rather than the specious "Justice for Black Farmers Act" plan to distribute 32,000,000 acres to blacks who will never farm, the AAT signatory nations would identify farms and farm acreage equal to and of the same or better quality as the acreage forfeit by white South African farmers. When the last whites have left a little cultural appropriation would be apropos; the words of Ralph Waldo Emerson engraved in stone at every point of entry.

"Be not the slave of your own past - plunge into the sublime seas, dive deep, and swim far, so you shall come back with new self-respect, with new power, and with an advanced experience that shall explain and overlook the old."

While statues are being torn down nationwide in the name of racial justice there is one on the Washington Mall in the style of Soviet Realism that stands quietly in mute testimony to useless *causa sui* gestures, rejection of character and a symbolic knee taken to Communist China. The Martin Luther King Jr. memorial opened to the public in 2011 boasts 14 inscriptions but not his most famous; "I have a dream that my four little children will one day live in a nation where they will not be judged by the color of their skin but by the content of their character"...but it does contain an inscription condemning the Vietnam War just across the reflecting pool from the Vietnam War Memorial.

The memorial was sculpted by Chinese communist Lei Yixin assisted by Chinese artisans, chosen without public input, using Chinese granite; a sculptor known for his memorials in China honoring Mao Tse Tung. It is eminently appropriate that with the African Exodus the Martin Luther King Jr. memorial be moved to the highest peak of the great escarpment in South Africa, Mount Ntlenyana, to overlook the Promised Land; a land denied to China by black Americans of character making the African Exodus.

The African Exodus Act (AEA)

"God is gathering a small number of chosen people who will live at the edge of one time shifting to another time. These are the people who will make history"

Compare the words of Sunday Adelaja to those of Rabbi Schneerson; *All that's left is for us to open our eyes.*

The African Exodus makes uncommon sense; six million called to declare Africa for Africans and in doing so save 6 million whites facing genocide who no longer have any reason to be in Africa. Doing so will weaken Marxians thus protecting six million Jews in Israel after the loss of six million Jews in the Holocaust...setting the stage for six million "Palestinians" to create a homeland of their own. Meaning and purpose of the highest order requiring a chosen people forged in slavery as were the Jews; blacks who identify as black before American are the last chosen people.

It can be assumed China and Marxian fellow travellers around the world in both the United States and Europe will rail against the African Exodus, with many going as far as accusing the emissary of cynically appealing to religiosity and invoking the name of God to cloak white supremacy and divide the black voting bloc. A position that will be difficult to defend after the emissary stated unequivocally the time of religion has passed and Obama is evil incarnate. Marxians deal in deception...not so an emissary chosen by the God of Sinai to test human reason.

Deeply consider, there is a reason G^d forged a 6'4", 210lb, American of German/Norwegian descent with blond hair and hazel eyes, Adler Pfingsten, human detritus, Pentecost Eagle, His faithful emissary; Marxianity, ostensibly eschewing prejudice and stereotyping, is being confronted by the archetypical but stereotypical definition of evil...*as defined by evil*. In the context of a plan the emissary makes perfect sense; all must think anew and begin anew.

What does Marxianity do with an archetypical but stereotypical “white nationalist neo-Nazi” emissary proudly and openly proclaiming to be the defender of Israel and the Holy Nation; champion of black Americans chosen to make an Exodus and create a New Jerusalem? Run as quickly as possible to the Southern Poverty Law Center to initiate a thorough background check to prove...I am in fact human detritus. The truth is actually quite simple; God chose “...*what is foolish in the world to shame the wise...what is weak in the world to shame the strong*” which in and of itself is a test of reason requiring a focus on the message not the messenger.

“You must accept the truth from whatever source it comes.”

Maimonides

I was chosen and I can attest to how difficult it is to embrace the reality of a Creator close and getting closer every day; a process reflected in my discordant writings. The wrong I have done is a crushing weight which at times results in stumbling over the stones on the path behind me, but then I realize the forgiveness that came with baptizing in clean natural water was extended by a God to whom there is nothing that cannot be forgiven when one is born from above...and thereafter walks the walk of righteousness.

Find balance knowing religion does not factor into my considerations but certitude does. This is entirely about making the penultimate choice, yea or nay, and for blacks a New Jerusalem in a Promised Land or falling with the false religion Marxianity posing as a political ideology; Marxians quite content with black dependence until tyranny is achieved at which time blacks worldwide who did not contribute to history in the words of Marx and Engels will be eradicated in the quest for a “sustainable world”.

A New Jerusalem awaits blacks in America who are far more justified in identifying as African than merely black; reclaiming a heritage lost to time and a final opportunity to prove themselves to themselves...and to a Creator extending the opportunity to create an African nation in an appeal to reason and common sense.

Those who are blessed with the ability to hear know in their heart of hearts the sound of Africa calling is the sound of God calling a chosen people to come home to the Promised Land Martin Luther King Jr. was allowed to see the day before he died and said so in words that were not “coincidence”.

The African Exodus Act (AEA):

1. Concurrent to passing the Africa Ascendant Treaty (ATT) the State Department would advocate for the congressional passage of the African Exodus Act which would establish an Africa Ascendant Division within the States Department with a July 4th 2026 expiration date and a mandate to expand upon the opportunities provided by the AAT; unify the countries of Africa and people of Africa to insure Africa remains in the hands of Africans to benefit all Africans; Africa for Africans.
2. The Africa Ascendant Division (AAD) would be unique in governmental agency history; authorized to establish an African Ascendant Commission (AAC) wherein leadership would be restricted to black Americans committed to making the African Exodus.
3. The AAC would be tasked with 1) leading the State Department AAT signatory effort, 2) merging the International Development Finance Corporation (IDFC) African initiatives with those of the AAT and the AEA, 3) establish working offices in signatory countries, 4) determine international goals, 5) determine signatory interstate goals, 6) determine intrastate goals, and 7) develop and design a comprehensive African infrastructure plan.
4. The AAC would establish a consultation/recommendation section with two doctorates from each of the following disciplines: 1) Economics 2) Finance 3) Physical Sciences 4) Information Technology 5) Education 6) Political Science 7) African History 8) Medicine 9) International Law 10) Mental Health 11) Urban Planning 12) Transportation 13) Agriculture 14) Food Processing 15) Manufacturing 16) Energy 17) Infrastructure 18) Engineering 19) Resource Extraction 20) Languages, 21) Law Enforcement, and finally, 22) Constitutional Law. All of whom must be committed to making the African Exodus.
5. AAC leadership would be authorized to staff as necessary.
6. The AAC would establish a liaison office in every federal agency to provide support and expert advice to the State Department AAD if asked to do so.
7. The AEA would authorize the Comptroller of the Currency of the United States to charter a Pretoria based *Africa Ascendant Bank* with an initial private capitalization goal of \$60B; an opportunity for the Davos billionaires who recognize the unarguable mathematics of the matrices to step across the line to the right side of the end of history in anticipation of singularity in 2026.
8. Although a private effort, the charter would require the *Africa Ascendant Bank* to partner with the IDFC and AAC to prioritize established goals as it concerns financing private African businesses and in return would receive deposit insurance from the Federal Deposit Insurance Corporation with one major stipulation; the bank would be barred from any investment requiring funds to be funneled through signatory governments.

9. The *Africa Ascendant Bank* would receive funding from the IDFC to establish branches in every signatory country as necessary. The presence of bank branches that look and function like those in the United States will have comforting psychological effect upon citizen of Africa expatriates.

10. If South Africa begins uncompensated seizures it would be barred from participation in the AAT, the provisions of the AEA and IDFC; the Pretoria central bank would be based elsewhere.

One of the most obvious failures of neo-Marxist ideology is the inability to maintain the level of production after the means have been seized; in Zimbabwe and South Africa the productive land was redistributed to people who were subsistence farmers and herders 100 years ago and without guidance have returned to subsistence on the land seceded to the ANC in 1994. Like the Pigford settlement the focus of Marxists is punishment for perceived injustice and redistribution regardless of the facts and implications.

The purpose of the Africa Ascendant Bank is straightforward; one does not build a great African nation with bribes or bayonets; one begins with an idea that brings all the countries of Africa to the same table; a table where goals as to investments are set and conditions are imposed; a table dominated by black American entrepreneurs and experts unwilling to simply put billions in the hands of what are essentially tribal leaders; a table where industries and businesses are created along with infrastructure hence the IDFC would have a place at the table to partner rather than dictate...in that the neo-Marxist obsession with homosexuality and gender is a non-starter in third world nations.

For the first time, foreign aid will be less aid than actual investment wherein the return on investment is not only counted in currency but actual meaning and purpose. There is a place at the table for American entrepreneurs, economists and political minds that happen to be black as well as those who identify as black before anything else...which more than suggests Africa not only defines who they are but where they should be.

With the African Exodus the entire world is a stakeholder; governments and agenda driven NGOs are impediments to be supplanted by massive popular initiatives that will in turn provide a template for solutions elsewhere. There is a place for the billionaires to live up to the mark set by the Carnegie legacy.

Over 2500 Carnegie libraries were built yet if one to ask the average person on the street about "The Giving Pledge" with over 200 signatories and over \$600B pledged few if any could name one benefit produced by what appears to average people nothing more than an exclusive virtue signaling club; a club that has just three years to prepare for a meeting well above pay grade.

There are now a record 724 billionaires in the United States including 12 of the world's 20 richest yet little to prove the Davos elites care one wit for the common man but all the proof necessary to conclude not one of them fears a God close and getting closer every day. The African Exodus provides an escape clause; develop plans for, and commit to investing in an African interstate rail and highway system...and universities where there are none. Of the top ten universities in Africa, 7 are in South Africa, two in Egypt and one in Uganda; the true legacy of "colonialism".

The Exodus will require a substantial initial planning and logistical problems to be resolved prior to initiation. The 1000 wealthiest people on earth would know full well the Exodus will also require negotiations with every African nation; negotiations better left to those who have made their fortunes in business; negotiations and agreements settled before the AAT and AEA are submitted to Congress rather than left to the State Department after the fact.

There is no reason a shadow version of the Africa Ascendant Division cannot be in place and fully functional with private sector commitments in anticipation of the AAT and AEA; an shadow AAD to coordinate the private sector effort that will essentially have all of the pieces in place and the questions answered before the legislation comes to the floor of Congress including clearing house identification of those blacks seeking to emigrate to Africa and those whites in South Africa seeking to immigrate to the Anglosphere.

11. The African Exodus Act would facilitate the emigration every white in Africa choosing to do so to the country of choice and every black American who wants to go "home" to Africa to do so; funded by a partnership between the AAT and billionaires who do the math and realize the implications of the matrices.

12 The Department of State in conjunction with the Department of Defense would be tasked with evacuating every white in Africa wishing to emigrate under a "by any means necessary" order; the use of commercial air or sea charter to supplement DOD assets would be authorized. Conversely, the Department of State in conjunction with the Department of Defense would be tasked with facilitating the emigration of blacks to Africa under the same general order.

13 By Treaty and as a function of the AEA, once an émigré boards a flight or ship, at the moment a ticket is accepted and boarding pass issued, citizenship is relinquished whether African or American; the émigré is either a citizen of Africa or an immigrant to the US, EU or the Anglosphere with a right to citizenship after one year.

14. The African Ascendant Commission working with the *Africa Ascendant Bank* would assume responsibility for facilitating the equitable exchange of real property and business interests based upon fair market value with transactions subject to IDFC audit. It is here where the partnership between the AAT signatories and billionaires come to the fore in the form of truly equitable transactions ranging from investment to contributions. The participation of the wealthiest 1000 would represent an opportunity to fulfill “to whom much is given much is required”; an opportunity for a select few to solve problems on a scale governments have not, cannot or will not.

According to the NAACP Criminal Justice System fact sheet blacks make up 1 million of the 2.3 million federally incarcerated in the United States; the reason for which Marxians ascribe to an inherently racist justice system rather than the culture of crime in the black subculture Marxians created. Assuming the thesis correct, which reason does not, approaching a South Africa dominated by black Marxists with a plan to free the “oppressed” in a way that benefits South Africa suggests doing so would ideologically align with the Marxist agenda and as such black convict expatriates should be welcomed.

The cost of incarceration is approximately \$50K per year and given the opportunity to start a new life in Africa many if not most would gladly embrace the opportunity to be part of creating a great African nation; freedom and receiving \$20K per year for 3 years which is well above the average South African salary.

15. The African Exodus Act would provide for transportation and \$20K for three years to incarcerated blacks on the condition the freed prisoner renounces and forfeits US citizenship. Captains of old knew that if a return home was no longer an option, focus would be upon the task in front of the crew; discipline would be self-imposed. In this instance God Himself is the captain and there is nothing more demanding than meaning and purpose.

It can be expected South African Marxists will abandon the pretense of protectors of “oppressed” blacks and accuse the United States of trying to dump criminals as did Castro during the Muriel Boat Lift, while Marxians willing to do anything to damage the United States will cry ‘hypocrisy’ demanding those who can be set free in South Africa can be set free in America...adding to Planned Chaos.

The issue is one of redemption, meaning and purpose not politics; an infusion of billions every year pales in comparison to the attitude, talent and visceral understanding of freedom embodied in every prisoner making the Exodus. The truth and the offer applies to every black American trapped in generational welfare in that they too are chained to hopelessness as dark as any prison.

16. The African Exodus Act would offer essentially the same terms to black households now on welfare and black SSI recipients; a single mother household would receive \$25K, married with children \$30K, single men and women on welfare or SSI \$20K for five years upon renouncing US citizenship and transport to Africa.

To assert the African Exodus is a scheme to whiten America would miss the entire point; Americans who happen to be black and those who identify as black before American, are by virtue of '400 years a slave' a demonstrably greater people and culture...capable of creating a great African nation after blacks in Africa have proven they cannot. Saving white South Africans is a redemptive moral imperative for the United States which could have opened the doors to European Jews after the Nuremburg Laws but did not.

The idea of a United Africa, requires the same formula used to create the United States, New Zealand, Australia and Canada; average people seeking a better life led by visionaries supported by investors with means. Unlike the barren frontiers of the past, the African Exodus will begin in established urban areas where urban blacks with steady incomes will be led by wealthy émigrés in a symbiotic relationship and from there the planning, financing and building would radiate outward.

There is no supremacy in the plan but rather an obligation placed upon the greater to elevate the lesser, but never should the greater be made less; the truth has no color. It is no longer sufficient to identify with *causa sui* gestures to assuage guilt or avoid responsibility; identity is essentially all inclusive and if one identifies as black above all else then Africa cannot be separated from identity and vice versa.

The greater culture has an obligation to the lesser and as it concerns black Americans identity did not begin with slavery; identity began in and still is in Africa. African Americans are primarily responsible in that they were forged for a reason; create a great African nation impervious to the designs of external ideologies and nations; create a nation where a unified people identify as African and the tribe is nothing more than heritage. As it is with the emissary, HaShem would not have chosen blacks in America if He did not have faith in the chosen...and like the emissary, black American will have to decide if they are willing to risk all.

From the higher vantage it is obvious the United States is where slavery came to die along with upwards of 700,000 Americans, and the "original and indelible sin" meme promulgated by neo-Marxists is to be proven too clever by half; Africans brought to North

America survived as a distinct people and culture as did the House of Israel in Egypt. Blacks in America are a third and last chosen people and only they can make the African Exodus a reality...with all of western civilization behind the effort in a final act of perceived contrition which is not contrition at all but merely what was intended by the God of Sinai from the beginning.

*"For My thoughts are not your thoughts, neither are your ways My ways," says the Lord
"As the heavens are higher than the earth, so are My ways higher than your ways and My thoughts [higher] than your thoughts."*

The Honest Answer

"I know that I must do what's right...As sure as Kilimanjaro rises like Olympus above the Serengeti...I seek to cure what's deep inside, frightened of this thing that I've become"

Toto, Africa Lyrics

It is not as if millions of blacks have not heard the heart of hearts song being sung by Africa that at times sounds very much like Toto's classic Africa whispering "Hurry boy, it's waiting there for you"; a song that at other times sounds very much like those of Bob Marley being sung from the other side...in harmony when the lyrics merge to sing "time to come home".

Coming home will not be easy if 1) the concession to the truths herein as to the dysfunctional black subculture in the United States are ignored, and 2) the equally self-evident truths as it concerns the dysfunctional cultures of sub-Saharan Africa are not conceded; dysfunction that is the direct result of Marxian success ejecting the greater cultures of western civilization. The 22,000 miles of railroad in South Africa, including the only recognized international rail line north to Zambia, represent over 45% of the rail lines in sub-Saharan Africa...all built by "evil white colonialists" long before Mandela and the African National Congress.

The greatest disservice to mankind over the last 150 years manifest; the United States turned inward after the Civil War and thereafter forgot what the founders knew to be the very reason for the United States; God's beacon of freedom and prosperity intended for the world. Worse yet, after neo-Marxists redefined the Civil Rights Movement as *the seminal event in American history* the same cloak of invisibility afforded to the black subculture was extended over black Africa; no requirement for responsible advancement...and if the tribes want to kill each other wholesale simply confine them to territories.

The extent of self-inflicted ideological flagellation endemic in the EU, Anglosphere and United States was on full display when French President Emmanuel Macron flew to Rwanda to ask for forgiveness of France for its role in the 1994 Rwandan genocide in which 800,000 were massacred; tribal Hutus killing Tutsis and vice versa...the "role" being France had ignored warnings as to "preparations" for genocide valuing "silence over examination of the truth".

France had no direct role yet a commission of "experts" determined President François Mitterrand bore a "heavy and overwhelming responsibility" for ignoring the "preparations" for genocide...which started virtually overnight when the plane carrying Hutu President Juvénal Habyarimana and Burundian President Cyprien Ntaryamira was downed by missiles on approach to the Rwanda capital of Kigali. The Rwandan genocide began 7 April 1994 and continued for 100 days ending 15 July.

To this day western media self-flagellates for failing to realize a genocide was occurring; a media that for all of the struggle sessions never seriously considered, let alone admit, the first après apartheid general election in South Africa on 27 April followed by the inauguration of Nelson Mandela on May 10 was a black self-determination narrative none could allow a concurrent genocide to spoil so the western elites chose "silence over examination of the truth". Marxist South Africa was born as hundreds of thousands were dying in genocide.

The only lessons learned by the media as to the Rwandan genocide worthy of note goes to "preparations" for genocide in Hutu state media the west ignored; in the words of one book review *"...a startling record of the dangerous influence that the media can have when used as a political tool or when news organizations and journalists fail to live up to their responsibilities"*.

To say coincidence is to concede that after every other "coincidence" one does not yet recognize that evil folds in upon itself and in doing so reveals itself to those with eyes to see and ears to hear; just as Cardi B rather than Oprah Winfrey is the true face of black women, and every other woman who supports Marxianity, so too the Rwandan genocide rather than Mandela is the face of Marxist South Africa...a first world country in 1994 now well on its way to sharing third world status with Marxist Zimbabwe.

France and every other country of western civilization are on notice; the 5½ million whites in South Africa are facing genocide when Marxists begin seizure of the remaining white farmlands and property...and yet the media is silent. Perhaps the "obligation to protect" is applicable...but not in that whites are threatened.

That genocide is a real possibility need not be debated; one need only look to an organization created to label those who would oppose Marxianity “racists and haters”; the Southern Poverty Law Center has taken to assuring Americans the threat of a South African genocide is a myth...hence the threat is real and even more real now that the effort is being made by Marxists to internationalize the Civil Rights Movement as the seminal event *in world history* on the back of Black Lives Matter.

It is a strategy of grievance that will embolden Marxians like Julius Malema in South Africa to kill whites...and provide perceived justification for the evil that is Marxianity to label Israel an apartheid state; perceived justification in that whatever advances the Marxian agenda is rationalized regardless.

South Africa touts its social justice credentials and has been the recipient of adulation and praise by politicians, academia and media of Marxianity who for decades have been hiding the truth; white South Africans have been, and continue to be, the victims of one of the largest thefts perpetuated by organized crime in history; 5½ million whites are essentially barred from government positions while labor and business employment practices are skewed by “Black Empowerment” laws leaving the majority of whites either living on the edge, in slums or refugee camps on the land of white farmers who are now facing uncompensated seizure of their property.

It must be noted the planned seizure of the remaining productive farmland would be from white farmers who have been working the land for hundreds of years before blacks arrived in large numbers; farmers who are being forced by western Marxianity to endure murder rates among white men, women and children exceeding combat casualty rates in Iraq and Afghanistan at the height of the “War on Terror”...and yet the media is silent.

Those murder rates are concealed from public view much the same way statistics evidencing the seditious weaponization of governance are hidden from Americans, in that if Americans knew children were being flayed alive and dropped into boiling water by the black social justice warriors of Marxist South Africa the equation would change; revealing the demands now being made to atone for systemic racism and police abuse are statistically unsustainable and prove conclusively the same strategy that divested white South Africans of their country is being implemented in the United States.

The Planned Chaos of Marxianity depends upon creating wounds that are never allowed to heal so at some future date the wound can be reopened to further advance the Marxian agenda as was the case South Africa, is now the case in the United States, and soon will be the overarching case in Israel; “apartheid”. Three open wounds never to be resolved; the original sin of slavery in America, the Arab/Israeli conflict and the 5½ million whites abandoned in South Africa will be closed at the same time with the African Exodus.

The longer those festering wounds remain open the more time Marxist influence in Africa led by China and South Africa has to expand; expansion enabled by neo-Marxist labeling of western influence as colonialist and imperialist i.e. enable Marxism while paralyzing the Anglosphere with the threat of "racism". The African Exodus will close the three wounds forever and halt the spread of the Chinese communist cancer in Africa before it metastasizes and eats away the idea of Africa for Africans.

The emissary has been truthful and straightforward as to bringing down towers and it can be safely assumed Marxianity will label the African Exodus as "white supremacist". Doing so will evidence the false religion's profound disconnect from the "Laws of Nature and of Nature's God". If you believe the truth to be racist, I would warn G+d does not share your definition but rather fits your definition; HaShem recognizes greater and lesser peoples and cultures and mandated they were to be separated until the lesser becomes greater until which there is an obligation to help the lesser to become greater.

To say the emissary is a supremacist is to implicate G+d by association; the term "supremacy" infers dominance of one over another; superiority of one race over another...when G+d makes no such distinction. Domination and superiority are inappropriate at best and slanderous at worst; to be greater whether culturally, intellectually or materially is to be blessed and *"From everyone to whom much has been given, much will be required; and from the one to whom much has been entrusted, even more will be demanded."*

Mankind is approaching singularity and reintroduction to an incomprehensible intellect and power and as such there is no time to parse; an intellect and power who created equally and will no doubt demand to know why the greatest human intellects, the richest individuals and nations have failed to provide schools across Africa, South America and every other poverty stricken part of the world yet managed to build tens of thousands of utterly useless nuclear weapons, massive war machines and provide trillions of dollars to fund programs providing monetary assistance to people who can, but will not, work.

There are great nations to be built, starting in Africa where South Africa Marxists will be confronted with an idea whose time has come...and an extant Creator disinclined to negotiate. Marxism is a criminal enterprise it can be expected that South Africa will attempt to hold white South Africans hostage and as such a "strictly business" treaty and effort on the scale of the Marshall Plan will be required to effect an orderly but rapid exchange of property and individuals to and from the United States and South Africa so as to establish the foundation for creating a great African nation.

If one manages to gain the higher vantage by surmounting the mountain of ignorance, the massive migration of people in the last days whether it be Muslims abandoning Europe to build the great nation of Ishmael, millions of Hispanics going south to confront Marxists in central and south America, Jews making Aliyah to Israel, blacks making exodus to Africa to thwart communist Chinese lebensraum or whites evacuating Marxist South Africa makes uncommon sense...on a scale that has but one author.

Solutions all can support in the interest of peace in accord with the offer of peace with terms that is the Convergence Matrix.

Choose and Godspeed,

Adler von Pfingsten
