

Pamphlets

No. 1 Obama Preempted

"I would wish you to distribute [some pamphlets], not to sound men who have no occasion for them, but to such as have been misled, are candid and will be open to the conviction of truth, and are of influence among their neighbors. It is the sick who need medicine, and not the well."

Thomas Jefferson to Archibald Stuart, 1799

For 1700 years Trinitarian Christianity and the majority of resulting denominations have held the 'Jews killed Jesus' not realizing 1) the reference adhered to the 2nd Temple authorities not the people, and 2) had the "Jews" embraced Yeshua as the messiah there would have been no cross and therefore no Christianity. Paul said a veil was pulled over the eyes of the Jews but few have ventured as to why because none think of Yeshua in terms of history and a plan i.e. HaShem knew the 2nd Temple would fall and commissioned Yeshua to deliver a new covenant to the gentiles offering adoption into the family born at Sinai and a second unlike the one when the mixed multitude came out of Egypt...to release the chosen people from the stringent dietary, civil and temple laws to prepare them for the great diaspora. Read the Hebrew translation of Jeremiah 31:30-32:

*"Behold, days are coming, says the Lord, and I will form a covenant with the **house of Israel** and with the **house of Judah, a new covenant**. Not like the covenant that I formed with their forefathers on the day I took them by the hand to take them out of the land of Egypt, that they broke My covenant, although I was a lord over them, says the Lord. For this is the covenant that I will form with the house of Israel after those days, says the Lord: I will place My law in their midst and I will inscribe it upon their hearts, and I will be their G^d and they shall be My people."*

It would be convenient to think of academic blindness in terms of a veil since 1826 and the deaths of Jefferson and Adams on the 50th anniversary of the signing of the Declaration of Independence to explain why the academy failed to realize the 1.67 billion to one odds was a key hidden in history by the ineffable intellect and power that chose the title God when setting mankind on a journey to ascendance; odds exponentially higher when one considers Jefferson was the pen and Adams the voice of the founding documents...perhaps matching the odds one man could teach for less than three years and change the world like none before or after.

That key opened the Convergence Matrix to reveal a message written across the tablet of time on multiple axes spanning 6000 years only God could write; it is an offer of peace with nonnegotiable terms detailed in 'Not Peace but the Sword; the Convergence Matrix'. Some debate will begin and others will end with the matrices e.g. the United States as exceptional no longer requires explanation given the founding documents represent the third and last direct intervention to provide Torah, instruction, by He Who Is after Abraham and Yeshua...with all three separated by exactly 1750 years.

The Convergence Matrix fuses two human certainties, wagering Blaise Pascal's probabilities mathematics and history, with Judaic scripture to create a final test of reason for mankind. The truth is validated by the mathematics but reason requires connecting the dots as it concerns history and Judaic scripture hence this first pamphlet to warn Americans adhering to the "Laws of Nature and of Nature's God" a seemingly innocuous though humiliating recent event is a harbinger.

Obama returned to the White House to celebrate the 12th anniversary of the speciously named Affordable Care Act during which he referenced himself 32 times in a speech that was followed by handshakes and obsequious fawning by the faithful to the detriment of Biden who wandered around as if a dementia patient in a senior living facility. That evening and the following day the media asked why Joe's handlers allowed for the public humiliation that no doubt was viewed by leaders and elites around the world. It never occurred to anyone the humiliation was intentional and designed to send a message: 'I am back and Joe Biden is no longer useful to the plans of the false religion of human intellectual arrogance Marxianity now in its final stages'...threatened by the November midterms.

Barack Obama is central to the plans of Marxianity. It was he who revived the moribund Biden presidential candidacy and chose unpopular Kamala Harris to be his running mate; Barack Obama, who broke with an unbroken tradition and took up residence in Washington DC from where he controls a shadow government from just miles away. It is no coincidence the damning Hunter Biden laptop has been in the hands of the FBI for three years and yet the FBI has not acted upon the data with the head of FBI Cyber testifying in recent congressional hearings he had no idea where the laptop is within the FBI labyrinth.

What does it all mean? After researching the Convergence Matrix for five years I realized it serves as a parable as to how God thinks...enough to recognize the significance of the July 4th 2019 California earthquake sequence then publically and accurately predict three earthquakes and the Canadian Omega Dome; warnings. This pamphlet is not a conspiracy theory but rather a means to preemptively deny evil the advantage of surprise per Sir Francis Bacon:

*"The surest way to prevent seditions (if the times do bear it) is to **take away the matter of them**. For if there be fuel prepared, it is hard to tell, whence the spark shall come, that shall set it on fire"*

The following is an excerpt from Not Peace but the Sword; the Convergence Matrix wherein the dots are connected in a way the ploughman can understand.

'All great truths begin as blasphemy'; the Axis of Greatest Evil

"Kirk defined the ideologue as one who "thinks of politics as a revolutionary instrument for transforming society and even transforming human nature." Unleashed during the most radical phase of the French Revolution, the spirit of ideology has metastasized over the past two centuries, wreaking horrors. Jacobinism, Anarchism, Marxism, Leninism, Fascism, Stalinism, Nazism, Maoism—all shared the fatal attraction to "political messianism"; all were "inverted religions." Each of these ideologies preached a dogmatic approach to politics, economics, and culture. Each in its own way endeavored "to substitute secular goals and doctrines for religious goals and doctrines." Thus did the ideologue promise "salvation in this world, hotly declaring that there exists no other realm of being." Russell Kirk, The American Cause (Editor Intro)

How evil is Obama? Look to the earth and moon. Blaise Pascal's probabilities mathematics leave no alternative; the matrices on multiple axes spanning 6000 years identifying events and individuals with stunning accuracy are not coincidence but rather messages written across the tablet of time; matrices fusing history, mathematics and Judaic scripture as a parable as to how God thinks and how evil tasked with testing human reason acts in very real terms.

That the matrices exist at all is a sad testimony as to the refusal or inability to recognize evil...and a testament to the brilliance and compassion of a Creator unwilling to allow human intellectual arrogance unchallenged free reign to destroy a plan for human ascendance thousands of years in the making.

The matrices clearly define the confrontation at hand and challenge humanity to use its vaunted intellect to make a reasoned assessment as to the existence and nature of evil; revealing the machinations of evil in messages written in the language of God mathematics incapable of deceit.

The matrices were opened by a key in history defying Pascal's probabilities mathematics; the deaths of Jefferson and Adams on July 4th 1826 on the 50th anniversary of the signing of the Declaration of Independence; calculated at 1.67 billion to one any two men present would die on the 50th anniversary, not factoring Jefferson and Adams were the 2nd and 3rd presidents and most responsible for advancing the founding documents. (two men, fifty years, 250 steps staring in 70AD)

The key opened the first axis, and then there was a second and a third. I have no doubt the matrices are ever expanding but for purposes of revealing both Marxianity as the stepchild of evil incarnate and Obama as the Marxist messiah in waiting, I submit the most revealing key to date; the number 72.

Three verses of Exodus, 14:19-21, are unique in the entire library of human literature; three verses describing how G[†]d literally protected the rear of the chosen people from the army of the Pharaoh until the sea was parted allowing for salvation; three verses defying probabilities mathematics act as a key to the ebb and flow of evil in the last 250 years before singularity; three consecutive verses containing 72 letters each when arranged as 72 triplets and reversed the 72 triplets are said to not only represent the names of G[†]d but His divine attributes forming the essential pattern of creation.

If one questions the significance of the number 72 as a key consider the brilliance of Maimonides who said God best understood in the context of His actions and His dominion...in this instance fused. When you look at the moon or the sun does the fact there is a precise 400 to one ratio even occur to you or is that something you never knew? The diameter of the sun is exactly 400 times the diameter of the moon and the distance to the sun is exactly 400 times the distance to the moon which allows for the spectacular coronal effect during a full eclipse.

The probabilities do not allow for mere chance but as Jeremiah said "Who will listen?" when listening now is the most important decision in history even for intellectuals who dismiss the incredible odds as mere coincidence.

Look closer and you will see what none have noticed until this moment; the diameter of the moon, 2160 miles, is exactly 72×30 ; the diameter of the earth, 7920 miles, is exactly 72×110 ...with both the earth and the moon orbiting about their barycentre; the common center of mass which varies but on average follows the moons orbit over 2000 miles below the earth surface at a point that is on average 72% of the earth's diameter.

Even the significance of the numbers 30 and 110 lend to the fusion of the symbolic and the physical i.e. the relation between God and man; 30 signifies the apex of a man's development and the assumption of authority; 110 is 10×11 and 5×22 ...and every number indicated is significant to Judaism.

Pure mathematics intellectuals separated from the idea of a supreme being now presenting as pure intellect will have great difficulty dismissing; pure mathematics unknowingly supplemented by the brilliant Michael S. Schneider as part of his 'Constructing the Universe' series which includes germane calculations within a seemingly innocuous exploration titled 'What do U.S. paper sizes have in common with the earth and moon?'

"...the diameters of both Earth and Moon, $7920 + 2160 = 10,080$, is the same as the number of minutes in one week" and "...10,080 is a Highly Composite number with exactly 72 divisors; the same as the average number of heartbeats in a minute".

The number 72 as a key not only links the size of the Sun and Moon directly to heartbeat of humanity but the number of minutes in a week evidence the significance of the number 30; the calendar of today indicates human scientific knowledge has reached maturity...and when He Who Is and his key is accepted those who accept can speak with authority and conviction to say God created both a perfect moon and a perfect sun to create a perfect home for mankind; His actions and dominion and 72 is the key.

Evil incarnate, by definition both adjective and verb, is spiritual evil assuming flesh and blood form and to this point a matter of opinion with Adolf Hitler leading the list of historical candidates; the Führer offering hope and change to the German people after the first college professor in the White House, one Woodrow Wilson, allowed the United States to be drawn into the death throes of European empire thus setting the stage for WW2 with the Treaty of Versailles...manifest evil in retrospect.

The references to 'college professor' and the promise of 'hope and change' are nothing more than ugly racist memes directed at Barack Obama in the estimation of academics and intellectuals who largely identify as Marxians but the truth is by no means mere opinion; just as the first axis of the matrices identify Athanasius, Muhammad, Marx and Engels as evil incarnate so too an exceedingly specific axis within the last 250 increment between 1776 and 2026; an axis bearing the personal imprimatur of the God of Sinai in that only He could author a message written across the tablet of time itself.

There are two axes of the matrices in parallel consisting of a series of 72 year increments spanning the last 250 years of human history between 1776 and 2026. One unarguably tied to the primary axis of seven 250 year increments beginning in 70AD and ending with the births of Marx/Engels in 1820 serving as a segue to a virtual countdown providing reasoned context to the end of history and a second identifying the ebb and flow of evil incarnate with such specificity it cannot be ignored...anchored to the year 1789 which marked the inauguration of the Constitution and the start of French Revolution.

"For the average person, all problems date to World War II; for the more informed, to World War I; for the genuine historian, to the French Revolution".

Erik von Kuehnelt-Leddihn, *Leftism Revisited*

"Genuine historians" would be close but it is only from the higher vantage where the true implications of history can be seen; the French Revolution ushered in a degree of secular thought not easily transmitted to the United States which was intended from the beginning to be a continental fortress of Anglo-Saxon Protestantism that originated with the island fortress of 1570 England.

Mankind has paid a heavy price for the bloody egalitarian and anti-religious French Revolution including the inevitable rise of two secular false religions with Marxist socialism and National Socialist Nazism; cousins responsible for the deaths of over 100 million people in just 100 years. The axis of evil began with the French Revolution in 1789 followed by the Civil War in 1861, Hitler in 1933 and ends in 2005 when Obama entered the Senate and exited through the doors of the White House. All separated by 72 years exactly.

Obama came to power promising hope and change as did Hitler and is still revered. As such the labeling of the matrices as mere numerology will be legion to which I will beg to differ; numerology is confirmation bias writ large while convergence simply points out Hitler was born exactly 100 years after the inauguration of the Constitution in 1789, was age 44 when he became chancellor in 1933...Obama was born in 1961 exactly 100 years after the start of the Civil War in 1861, was age 44 when he entered the Senate in 2005, 72 years after Hitler took power, and exited the White House as the 44th president making his exit after 12 years in federal government as did Hitler.

HaShem's three dimensional chess in response to numerology checkers; reasoned and logical in context and impossible to dismiss given the mathematics. To confirm the influence of actual evil according to a plan one need only ask what 1789, 1861, 1933 and 2005 have in common as it concerns the final confrontation in the approach to 2026?

- The French Revolution in 1789 created an intellectualized society and political ideology less secular than anti-religious, intent upon enforcing egalitarianism rather than liberty; the template for secular false religion Marxianity.
- The Civil War in 1861 allowed neo-Marxists to burden the United States with the original sin of slavery despite those who gave the last full measure; carving the mark of Cain across the very soul of America even though hundreds of thousands gave the last full measure to end slavery.

- Hitler and the Nazis in 1933 forever tainted nationalism as racist in their attempt to exterminate the Jews and in defeat served as a foil to absurdly assert Soviet Marxism as a force for good; two messianic false religions...both of which targeted the Jews and as it concerns the Soviet Union created the open wound that is "Palestine".
- Obama entered the Senate in 2005 and exited the White House after introducing 'some animals are more equal than other animals' Critical Race Theory and weaponizing the agencies of governance to the point of attempting a coup to remove a duly elected president; a president elected in a miracle election to purchase time for Americans to rise to preserve and defend a Constitution bearing the God of Sinai's personal imprimatur.

The implications are straightforward as is the 1st axis, but recognizing evil has always been a challenge for those who take God and evil incarnate lightly.

Today anti-religious Marxian Jacobins, 1789, are insuring the deep wounds of the Civil War, 1861, and Nazism, 1933, will never be allowed to heal for political purposes; Marxianity is using racism and the imaginary specter of white supremacist nationalism to emasculate white Anglo-Saxon Protestant Americans clinging to their guns and bibles...to insure they are as sheep to the slaughter so as to bring about the second coming of Obama.

Easy to understand measures of Marxianity...and given the relative ignorance of Americans, God has provided three equally easy to understand measure with the first a reflection of the most important axis, Sinai, Yeshua and 1776:

"The Torah and moral law of Sinai, Yeshua as a precisely defined messiah of purpose, the Declaration of Independence and the Constitution of the United States, republican governance as defined by Jefferson and Adams, are the benchmarks by which all else is to be measured...gone are the debates as to every belief system on earth having equal stature."

The second measure is as insurmountable as the first. Deconstructionists who pick and choose quotes by the founding fathers to assert or deny some aspect of religious influence on the founding documents are very adept at painting the issue with shades of gray to deflect from a singular unified endorsement by the signers of the Declaration of Independence which has existed in plain sight since July 4th 1776; Jefferson's source of unalienable rights.

From time immemorial Judaic scholars have always capitalized any words or names bearing the imprimatur of G+d to signify the words and names are a direct reference to G+d while avoiding more formal titles; Jefferson's capitalization of the words "Laws of Nature and of Nature's G+d" is an acknowledgement of the authority vested in the document and provides the second of three measures; the G+d of Sinai placed His imprimatur on the Declaration of Independence and by extension the Constitution.

Marxianity depends upon tribalism and preference ergo, in anticipation, God provided a third measure to provide a clear distinction between the tribalism known as identity politics and equal protection before the law; Sir Henry Sumner Maine's status society versus contract society.

In 1861 Sir Henry James Sumner Maine published his most enduring work *Ancient Law* which put forth his thesis that governance progressed from a *Society of Status* to a *Society of Contract*; every form of governance before the Constitution of the United States reflected a society of status wherein *who you were* determined what benefits would be forthcoming from governance. There is nothing "progressive" about identity politics.

Marxism is probably the most reactionary false religion cum ideology that has ever cursed mankind and the end result of the tribalism will be the same as it has been across history; perpetual tribal warfare, distrust, resentment, cycles of revenge, territorial conflicts and refusal to forgive past wrongs as is the norm in the Middle East, Balkans and Africa. The melting pot has gone cold and cultures 1000 years in the making are at risk...if Americans and the nations of the Anglosphere and Europe fail to recognize the threat posed by the evil that is the false religion of intellectual arrogance Marxianity.

At the appointed time, after Biden steps aside and Kamala Harris steps in, a call will go out to the faithful to take the streets in the War of Maneuver, violent revolution, designed to convince Americans the Constitution failed at which time Obama with social justice blank check in hand will assume emergency powers "for the good of the nation" as did Hitler at the request of Hindenburg.

What looks like a plan is in fact a plan put in motion by actual evil designed to shape the final confrontation; evil entities known to most as the Satan but to Judaism "prosecutors or hinderers"; evil entities created by HaShem but by no means capable of challenging HaShem hence the exacting 72 year cadence; designed to provide reasoned human beings a heretofore nonexistent frame of reference to choose which side of the line they stand...and an escape route from the battle for Marxians surrendering to reason and common sense.

HaShem provided the matrices in an act of grace appealing to human beings in the 'language of God' demanding a 'what are the chances' calculation knowing the scale applies equally to great events in history and little noticed events dismissed as coincidence when they are not. So too the physical world it seems...none will ever look at the moon the same way again; both the earth and moon are reminders of a Creator that identified Obama as evil incarnate.

The Convergence Matrix is the final test of human reason and as such designed to spur humans to do the necessary research on their own which is why the events in 1933 Germany were not expanded upon e.g. after the Reichstag Fire Germany was under emergency orders issued by doddering Hindenburg and Hitler was asked to become Chancellor for "the good of the nation". The Nazis had their own Brian Sicknick in Horst Wessel proving Mark Twain prescient when he said "History doesn't repeat but it does rhyme".

The next years will be the most dangerous in American history given the neo-Marxists are obviously making their final push...and like their ally Islam never surrender conquered territory e.g. losing the House in the midterm election. The FBI and DOJ are holding that laptop to make the quintessential organized crime offer Biden can't refuse i.e. nice business and family you have there, it would be a pity.

Biden will step down but before doing so he will pardon Hunter and every other person linked to the influence peddling scheme thus ending the investigation before resigning in return for a Harris presidential pardon, after which Kamala will nominate Obama for vice president thus circumventing the 22nd Amendment; confirmed by a House vote with the assistance of small 'r' republicans. History will rhyme when the Marxians call the lumpen into the streets to create a national emergency on a scale equal to that facing Hindenburg when he called upon Hitler "for the good of the nation" then Kamala will step down in favor of Obama .

This pamphlet will complicate the implementation of the plan to "take away the matter of them" and as such it can be expected the false religion of human intellectual arrogance, Marxianity, will react to the revelation of the truth as would any religion desperate to conceal church ecclesiology; asserting this pamphlet is baseless, blasphemous and unworthy of response...an untenable position given the mathematics of the axis of greatest evil.

'You must accept the truth from whatever source it comes' wrote Maimonides.

Godspeed,

Adler von Pfingsten
