

Pamphlet No.2 Mankind's Final Test of Reason

"Secular historians "live scrupulously, morally, righteously by the law of historical method but that method leaves us in vast darkness. It tells us that there are facts but does not tell us what they mean.... We cannot take an honest view of human history unless we acknowledge God's work through human kind in history."

Arthur Link was more right than he could possibly have known when he wrote the words. The time has come to set aside all that is known or thought known and think again in the context of an empirically evidenced ineffable intellect and power that chose the title God when setting mankind on a journey of ascendance to a higher plane of existence; a journey that will culminate with Yeshua in 2026 Jerusalem.

After having read Pamphlet No.1 there can be no doubt as to all-encompassing scale of the Convergence Matrix on multiple levels; cosmic, historical, prophetic and individual...it is a parable not only telling us how God thinks but what He is thinking now. It makes uncommon sense that He would fuse history, mathematics and Judaic scripture into a message written across time then commission human detritus to find the mathematical keys needed to open the matrices then deliver what is a final offer of peace with terms as a final test of reason for mankind. Every individual on earth is being challenged to think anew about all things; using the ever expanding matrices to provide answers that have been hidden in plain sight waiting the appointed time.

"He has made everything beautiful in its time; also the [wisdom of] the world He put into their hearts, save that man should not find the deed which God did, from beginning to end" Ecclesiastes 3:11

Think...about how long it took for the sun and moon cosmology revealed by the Exodus 14:19-21 72 year increment to fall into place. There is no plausible answer as to why no civilizations have come before, and it provides a plausible answer to the Fermi paradox; extraterrestrial civilizations reaching ascendance have been told not to violate what Star Trek intuited...the Prime Directive.

Think...about human population that will reach 8 billion between now and 2026 knowing that the number seven represents perfection that is achievable via natural means but eight symbolizes that which is beyond natural law.

Think...about the precise nature of the 72 year increments detailed in Pamphlet No.1 and how prophetically they define the final confrontation between good and evil raging in the United States.

Think...about the precise identification of Obama as evil incarnate on par with Adolf Hitler and why it was necessary to write Pamphlet No.1 as a warning; answering the why of incompetent/senile Biden.

Think about the brilliance of choosing uneducated human detritus as faithful emissary; someone who never belonged to a church or read an entire book of the bible...so obtuse the fear of God has meaning.

"God chose things the world considers foolish in order to shame those who think they are wise. And he chose things that are powerless to shame those who are powerful" 1 Corinthians 1:27

Fear God has meaning as never before given empirically evidenced existence; the beginning of wisdom human beings will need to pass the final test of reason. Few realize the age of reason did not begin with the enlightenment but rather with Yeshua supplanting the ancient...and in many ways Thomas Paine was right in his *The Age of Reason; Being an Investigation of True and Fabulous Theology*. This I know after spending a mere five seconds in 70AD Jerusalem where I learned what was until then was a mental parlor game was not theory; the Convergence Matrix which holds history is best understood as a mathematical equation i.e. the "language of God".

There were no angels and trumpets when I found myself standing in a doorway on a narrow walkway with a man standing in a doorway on the opposite side flanked by a window with a cloth awning watching a woman with a flat basket walking from left to right passing a man in robes walking in the opposite direction. In that five seconds I learned in words that were not words at all why Christianity has been wrong about Yeshua for 2000 years and why Judaism has never gotten it quite right.

It goes to the words of Arthur Link...none have considered Yeshua in the context of history and a plan. William Shakespeare famously wrote in *Hamlet* "Brevity is the soul of wit" (Polonius) to which I agree but it takes an ineffable intellect to first remove any religious connotations and yet entirely restructured the true relationship and nature of Christianity with Judaism in five seconds.

I am not a prophet, I have no words from God to share, and yet the mathematics of the matrices makes it clear I was chosen before I was born and then allowed to make a shambles of my life to prepare me for a commission that would require knowing what it is like to submit to evil so as to gain a clear view when I gained the higher vantage where God exists at the appointed time. I had absolutely no time to consider the five seconds and react yet within minutes thereafter the Convergence Matrix was opened.

Knowing Convergence Theory was not a theory but fact allowed for the rethinking of the first equation that formed the basis for my mental parlor game. 1) What are the chances the tiny sliver of humanity that is the Jewish people would survive 3500 years of oppression, persecution and mass murder? 2) What are the chances a Jewish rabbi would teach for less than 3 years, leaving no physical trace or written words, yet change the world like no other before or after? 3) What are the chances Israel would be reestablished on the same land, speaking the same language, adhering to the same scripture and worshipping the same God as their ancestors 2000 years ago? That wagering Blaise Pascal created probabilities mathematics is an affirmation he too experienced a vision affirming the identity of God.

"Belief is a wise wager. Granted that faith cannot be proved, what harm will come to you if you gamble on its truth and it proves false? If you gain, you gain all; if you lose, you lose nothing. Wager, then, without hesitation, that He exists"
Blaise Pascal, *Pensées*

Pascal finished his wager with the words "If my words please you and seem cogent, you must know that they come from a man who went down upon his knees before and after." I know from personal experience exactly how Pascal felt on bended knee. After his fire and brimstone vision Pascal took pen to paper writing "God of Abraham, God of Isaac, God of Jacob not of the philosophers and of the learned. Certitude. Certitude"...two steps above mere belief and one step above sincere faith.

From that moment forward Pascal could see all the way to singularity in 2026 and he foresaw the day when certitude would leave theologians, ideologues and intellectuals no other choice but to make the penultimate choice; the choice is Pascal's wager writ large.

To open the first axis of the matrices simply required common sense, intuition and basic mathematics in that knowing the answer, the reestablishment of Israel, allows for identifying the variables. Realizing the United States is unique in history and most responsible for Israel required finding some event equally improbable in American history which I knew from my fascination with history to be the deaths of John Adams and Thomas Jefferson on the 50th anniversary of the signing of the Declaration of Independence July 4th 1826; calculated at 1.67 billion to one any two man present that day would die fifty years later on the anniversary...but when factoring they were the voice and pen of the founding documents and the first and second presidents of the United States the odds likely match that of a rabbi teaching less than three years yet changed the world like no other before or after.

After deriving an increment of 250 years, two men, fifty years, the question was where to start which was provided; 70AD and the fall of the 2nd Temple. As I walked through history I was stunned as to how accurate the first axis, the first paragraph, was in identifying individuals and events lending to the hand of God as indisputable fact. The first axis:

- 1) 70CE fall of 2nd Temple and the Jewish diaspora begins...as does the Convergence Matrix.
- 2) 320CE the halfway point of Emperor Constantine's reign and the Arian confrontation; the Edict of Milan ended persecution of Christians and soon after Deacon, later Bishop of Alexandria, Athanasius convened the 1st Council of Nicaea in 325AD; exactly 300 years after Yeshua's crucifixion the Nicene Creed professed Jesus God in the flesh and Christianity was severed from Judaism with the Trinity.
- 3) 570CE The Birth of Muhammad exactly 500 years after the fall of the temple.
- 4) 820CE Charlemagne is crowned first Holy Roman Emperor in 800CE and the birth of autonomous western civilization begins with the Carolingian Empire after his death in 814CE which resulted in the division of Europe between his sons; a map which essentially endures to this day.
- 5) 1070CE Battle of Hasting, the Norman invasion of Anglo-Saxon Britain in 1066, was followed by the first English royal dynasty, the Normans, in 1070; the mother country of the United States is born.
- 6) 1320CE The Renaissance began with the publication of Dante Alighieri's Divine Comedy, which is often referred to simply as Dante's Inferno, and the highest point of Giotto's career...the recognized first of the legendary Renaissance painters. Occam's razor is operative.
- 7) 1570CE Pope Pius V excommunicates Queen Elizabeth I of England with the Regnans in Excelsis papal bull; a Protestant Island is created and the Enlightenment begins.
- 8) 1820CE Friedrich Engels is born in 1820 just two years after Karl Marx in 1818; without the financial support of Engels the works of Marx would have been stillborn.

I have no doubt that any objective historian will recognize the significance of the first axis of the matrices and I welcome the slings and arrows to be expected by my assertion the sequence of events are not mere chance; the specificity of the events and the identity of individuals point to a controlled evolution of history impossible to be explained away by mere "coincidence".

The message written across the tablet of time from 70AD to 1820AD is merely the first paragraph yet clearly defines the final confrontation; western civilization led the United States and Israel are being assaulted from within and without; caught in a vise between the false religion Marxianity posing as political ideology in an alliance of convenience with a political ideology, Islam, posing as a religion while Trinitarian Christians stand as the foremost impediment to mounting an effective strategy to defeat both false religions given the erroneous theology of unconditional forgiveness as Paul made clear:

"For if we willfully persist in sin after having received the knowledge of the truth, there no longer remains a sacrifice for sins, but a fearful prospect of judgment, and a fury of fire that will consume the adversaries. Anyone who has violated the law of Moses dies without mercy "on the testimony of two or three witnesses." How much worse punishment do you think will be deserved by those who have spurned the Son of God, profaned the blood of the covenant by which they were sanctified, and outraged the Spirit of grace?"

Hebrews 10:26-29

Because my writings are meant for the common man in the manner of Jefferson's ploughman I strongly suggest the exclusive use of the Jewish Annotated New Testament edited by Amy-Jill Levine and Marc Z. Brettler in that theirs is the only bible available capable of providing a bridge in convergence. As to the "Old Testament" never trust a Christian translation but rather take advantage of the online Hebrew to English translation of the Tanakh provide by Chabad...with good reason.

The covenant was not "passed" but rather two covenants were issued for entirely different reasons for two entirely different peoples; the convergence of forces and circumstances in first century Judea made the destruction of the Jewish institutions of the time inevitable, and G+d knew long before that the second temple would fall...G+d simply made long term plans for that eventuality.

Yeshua delivered an amended Sinai covenant to the Jews to prepare them for the fall of the 2nd Temple and another for gentiles...obvious had the early church not rewritten Jeremiah 31:30-32:

*"Behold, days are coming, says the Lord, and I will form a covenant with **the house of Israel and with the house of Judah, a new covenant**. Not like the covenant that I formed with their forefathers on the day I took them by the hand to take them out of the land of Egypt, that they broke My covenant, although I was a lord over them, says the Lord. For this is the covenant that I will form with the house of Israel after those days, says the Lord: I will place My law in their midst and I will inscribe it upon their hearts, and I will be their G+d and they shall be My people."*

Compare the Hebrew translation to those taken from the Christian NIV: "The days are coming," declares the LORD, "when I will make a new covenant with the house of Israel and with the house of Judah. It will not be like the covenant I made with their ancestors when I took them by the hand to lead them out of Egypt, because they broke my covenant, though I was a husband to them," declares the LORD."

The only instance a new covenant is mentioned was distorted. The words "...after those days" refers to Yeshua before the fall of the 2nd Temple; releasing the Jews from the strict dietary, civil and temple laws to prepare the Jews for life without the temple after which the Torah would survive in their midst and inscribed on their hearts as a collective memory and aspiration. The Torah of Sinai with its extremely stringent demands was formulated to forge a mixed multitude into a disciplined and cohesive chosen people to serve as guardians of a Torah amended by Yeshua for Jews in anticipation of the fall of the 2nd Temple and the diaspora to follow...under the roof of western civilization built upon a New Covenant.

To understand Yeshua as a narrowly defined messiah of purpose requires a return to Genesis where God established a precedent; Jacob/Israel adopted Ephraim and Manasseh, Josephs children by an Egyptian mother, and in doing so established two houses, tribes, in the Abrahamic line.

Very simply, God knew the temple would fall. It was time for expansion of the Abrahamic covenant within the context of our Creator's long term understanding of what was to be; Judeo-Christianity would become the most formidable idea known to man and it would carry foundational Judaism relatively intact through the coming centuries; the "New Covenant" allowed for gentile adoption into the Jewish family born at Sinai; the House of Judah as the lesser of two houses; the greater House of Israel are the direct descendants of Abraham, Isaac and Jacob as Israel.

Only in the context of the House of Israel and adoption into the greater Jewish family created at Sinai under the auspices of the Abrahamic covenant that Christians have meaning, validation and purpose. Even with the distance created by corruption of HaShem's instruction the Christian religion has followed where Judaism has led throughout history; without Exodus, Sinai and the Torah the followers of Yeshua have absolutely no foundation. Furthermore, the moral laws of Sinai are still in force.

Yeshua was from the House of Judah; those who accept the terms of adoption, acknowledging God's sacrifice of "as a son" Yeshua, join the only hope for a true family of man within the lesser House of Judah Christianity in that the greater House of Israel stands alone. The House of Israel will always be set apart in accord with God's promise "...if you obey Me and keep My covenant, you shall be to Me a treasure out of all peoples... you shall be to Me a kingdom of princes and a holy nation.' These are the words that you shall speak to the children of Israel". "as a son" has meaning as never before.

Look to 1 Chronicles 17:8-14 where every Jew, and every Jew of the lesser House of Judah, need only find themselves in the words while noting those in bold.

*"And it will come to pass when your days are finished to go with your forefathers, then I shall raise up your seed after you, who will be of your sons, and I shall establish his kingdom. **He will build Me a house**, and I shall establish his throne forever. **I shall be to him as a father, and he will be to Me as a son**, and I shall not remove My loving-kindness from him as I removed [it] from he who was before you. And I shall station him in My house and in My kingdom forever, and his throne shall be established forever."*

The house that "as a son" Yeshua built is western civilization which would house the Jews for the 2000 years of godlessness that would follow as Jews believe...and at times it was a house of horrors thanks to Athanasius and Trinitarians hence the reason the Arian dispute was specifically identified along with Muhammad and Marx/Engels as evil incarnate in the first paragraph of the message written across the tablet of time. Yeshua was a human being as Paul made clear yet the Trinitarian church has convinced far too many to violate the most important commandment thus severing the Christian branch from the tree that is Judaism with its Torah roots.

"You shall have no other gods beside Me. You shall not make for yourself any graven image, nor any manner of likeness, of any thing that is heaven above, or that is in the earth beneath, or that is in the water under the earth. You shall not bow down to them, nor serve them, for I, the Lord Your God, am a jealous God, visiting the iniquity of the fathers upon the children unto the third and fourth generation"

Yeshua is not God...as evidence by the agony in the Garden of Gethsemane. There may be no better way to reintroduce fallen away Christians and those never exposed to Yeshua than viewing the Garden of Gethsemane from the higher vantage. For the unfamiliar, Yeshua went to the Garden of Gethsemane to pray in anticipation of being arrested and put to death.

Many times I have asked shepherds and Christians to tell me what the fearful cup held for Yeshua that would have him saying "My soul is overwhelmed with sorrow to the point of death"; crying, sweating blood and praying "My Father, if it is possible, let this cup pass from Me; yet not as I will, but as You will". Twice more Yeshua prayed "My Father, if this cannot pass unless I drink it, your will be done."

There is much weight given to his anticipation of scourging, death and sacrifice for the sins of man and bearing the wrath of G[†]d in the days of old as the cup; the lamb of G[†]d sacrificed to atone for the sins of mankind by taking all of the sin upon himself; the pain of dying to be suffered on the cross...a pain experienced by tens of thousands and shared by two thieves the same day. Sorry, pain and death held no mystery for Yeshua.

Such is the view from the unstable sand at sea level upon which most Christians stand. Yeshua would bear the burden of sin...but not in the way most Christians believe in that one does not sit next to God when covered with sin. HaShem sacrificed pristine human being "as a son" Yeshua, and though symbolic as were the Exodus paschal lambs Yeshua meant the world, literally, to HaShem.

I am not the only one who knows death and scourging held no mystery for Yeshua and yet being the son of man Yeshua would have to experience death as a man experiences death along with the pain that goes with that death; crying would be understandable but Yeshua was no ordinary man. When viewed through the lenses of convergence just how extraordinary and heroic he actually was in terms humans can understand comes to the fore.

Reason alone in the context of a plan and scripture provides the truth; G[†]d is just and in his infinite wisdom knew that Yeshua would have to live life as a man and experience all aspects of life as a man including joy, disappointment, temptation and pain to be the empathetic advocate and just judge G[†]d demands; divine justice is operative. Yeshua is a unique individual designed for the task of judging; "the Father judges no one, but has entrusted all judgment to the Son".

In order to be the empathetic advocate and just judge G[†]d fully intended, Yeshua must be made aware of every sin a man has lowered himself to since time began on an individual basis; he was crying and agonizing right to the last minute about the truly agonizing weight of having to judge, the cup, and when in judgment Yeshua would have to expose himself to every sin committed in exacting detail while retaining his human character to moderate the weights on the scale; it is only in that way Yeshua is bearing human sin.

It is a cup the odor of which would destroy an average human being; Yeshua will judge but 'revenge is mine sayeth the Lord' and the punishment will fit the crime ten times over. Yeshua was a human being as Paul said yet more than human; Mary's DNA fulfilling descent prophesy and divinely crafted DNA by "like a father" HaShem; both man and divine as Paul knew well.

Yeshua's ability to withstand pain to fulfill his commission can be found in the over 100 lashes evidence by the Shroud of Turin which had no answer until the matrices; convergence holds both the Temple and Romans would have preferred for both political and theological reasons that Yeshua had died during the scourging or as a result while shouldering a heavy cross, implying he was weak, a mere criminal...just an ordinary man and not the messiah. The intent has confirmation in the wounds; a flagrum with lead barbellas was used.

It is not unreasonable to believe the first Romans to recognize Yeshua as the son of G[†]d after the Capernaum centurion were the centurions administering the scourging; Yeshua no doubt endured the scourging without begging for mercy. Roman tradition, pride and honor had its limits and as such 40 minus one per Judaic law administered more than twice over would have compelled a halt to the punishment...and Pilate would not have forced the issue.

What most Christians have failed to recognize is the incredible physical endurance, sense of purpose, unbreakable resolve and faith of a divine nature representing Yeshua's first victory over death and earthly authorities even before reaching Golgotha; Yeshua was a Jewish warrior par excellence.

Yeshua was not simply a Torah observant Jew but Torah personified not given to distortion and mythology inconsistent with Judaism. Sin, the mud that soils the soul, is not something allowed around the perfection that is G[†]d; "he bore your sins" is a metaphor. Nor did Yeshua descend into hell; the myth was created whole cloth by the early church of Athanasius without a single reference in scriptures to support the assertion included in the apostle's creed which emanated from the Council of Nicaea in 325AD...along with the doctrine of the Trinity.

The church created polytheistic god and a monotheistic Satan; two diametrically opposed theological arguments. Predestination is valid only as a massive equation with living free radicals but the descent into hell per the Apostles' Creed is unsustainable; no three days suffering the wrath of God, no proclaiming victory to a Satanic kingdom, no preaching the gospel to Jews who had died long before.

Yeshua was a messiah of purpose and as it concerns gentile adoption the terms of the symbolic paschal lamb were made clear by the lamb; those who "accept Christ" are forgiven their sins one time and thereafter will be judged to a higher standard with Yeshua advocating on their behalf before G[†]d. As advocate Yeshua would not be inclined to excuses or rationalizations in that he experienced the same temptations and never once succumbed to them.

Because the church has been wrong, individuals can baptize in clear natural water as if the first time.

The 'Why' of Being Wrong

Consider, the only revelation during the five seconds in Jerusalem other than confirming Convergence Theory was not a theory went to the why of Christianity being wrong for 2000 years and why Judaism has yet to get it right; Yeshua in the context a plan coursing across history has never been a serious consideration for theologians or historians.

For the Christianity Triumphant School the fall of the 2nd Temple was reduced to the simplest logic fallacy; post hoc ergo propter hoc (after this therefore because of this) which aligned with the fiction the Jews paid a heavenly price for rejecting Jesus. It was a price the Jews paid for over and again during the next two millennia when the house built by Yeshua was turned into a house of horrors by the Trinitarian Catholic Church Athanasius created.

The machinations of the Satan manifested as the Trinitarian doctrine explains the never ending persecution of the Jews, and church politics explains a narrative none were to challenge...but nothing explains why historians have failed to challenge Christianity with historical truth. There were 2 million Jews in Judea and another 5 million spread across the Levant, Mediterranean and Southern Europe at the time of Jesus; very few of whom even heard of Jesus and as such innocent.

Even those Jews most responsible for the crucifixion, temple authorities including the Sanhedrin, cannot be held responsible given Paul said a veil was pulled over their eyes so they would not recognize Jesus, for had they done so he would have died when the 2nd Temple fell rather than on the cross as the paschal lamb. It is a truth that ranks very high on the list of 'I didn't think of that' as is so often the case e.g. Paul was commissioned to provide a bridge between gentile Christians and Judaism ...and then to extricate Peter from Jerusalem after the disciples were lost to history.; disciples like Barnabas who like James were focused on Judea not knowing the temple would fall and Judea would come to an end.

Few historians ask why the Roman military superpower extended a degree of deference to the Judean religious authorities in Jerusalem within the Roman province of Judaea, allowing them autonomy like no other province as it concerned their faith and the authority to conduct civil affairs according to their faith. The answer as to why...the Jews were a financial superpower and critical to the Roman treasury.

Did you know Herod and Cleopatra had a monopoly on pitch for sealing ship hulls? Herod's ability to build the palace fortresses of Herodium and Masada, the port of Caesarea Maritima, refurbish and expand the 2nd Temple in Jerusalem then build a palace and civil structures rivaling anything in Rome, even while paying tribute to Rome, has no plausible answer except for the millions of Jews outside Judea as a result of the Assyrian diaspora; Jews obligated to pay an annual temple tax.

Roman historian Josephus documented the Jews in diaspora including a massive temple tax shipment sent by Babylonian Jews to Jerusalem requiring a guard contingent numbering in the "many tens of thousands" (Ant. 18.313). At the time of the 2nd Temple the two million Jews in Judea and the five million in diaspora shared a common identity centered on Torah but revolving around the 2nd Temple.

"He was part of a whole, a people scattered over the earth and yet eternally one and indivisible. Wherever a Jew lived, in whatever safety and isolation, he still belonged to his people." Pearl Buck

Few historians have touched upon the greatest advantage Jews in diaspora engaging in commerce enjoyed over their competitors; Jews had a complete code of conduct, contracts and method of adjudication embodied in Torah; Jews in Alexandria could engage in commerce with Jews on the Iberian Peninsula in the same language, with the same expectations and a means to adjudicate conflicts. It is a truth to be derived from reason and simple common sense but does not appear in history books; the Jews were and are a nation without boundaries...but the Jewish heart is in Jerusalem.

The Roman concessions to Jewish autonomy were unique; allowing the Jewish temple religious and civil liberties unheard of anywhere else in the Roman Empire in return for treasury and talent; two incentives that insured their survival across history. The Jewish wars that began in 66AD can be distilled down to one demand; Roman Emperors came to believe they should be worshipped as gods thus demanding the Jews violate the most important commandment; the 2nd Commandment. It was a demand Torah adhering Jews would never accede to even at the pain of death.

Over a million did die between 66AD and the end of the Bar Kokhba rebellion in 135AD; the 2nd Temple fell, Jerusalem was renamed "Aelia Capitolina" and the province Syria Palaestina. The Romans also paid a heavy price in blood, treasury and pride. At the end of the Bar Kokhba rebellion Hadrian wrote to the Senate; for the first time omitting the traditional lede "I and the legions are in health" cryptically noting the halcyon days of Rome were over. Rome would eventually fall as would many others across a span of two millennia who sought to harm the Holy Nation but the Jews would survive.

"The preservation of the Jews is really one of the most single and illustrious acts of divine Providence... and what but a supernatural power could have preserved them in such a manner as none other nation upon earth hath been preserved. Nor is the providence of God less remarkable in the destruction of their enemies, than in their preservation... We see that the great empires, which in their turn subdued and oppressed the people of God, are all come to ruin... And if such hath been the fatal end of the enemies and oppressors of the Jews, let it serve as a warning to all those, who at any time or upon any occasion are for raising a clamor and persecution against them."

Thomas Newton, Bishop of Bristol (1704-1782)

If one wonders why God did not intervene to preserve the 2nd Temple the answer is logical; 1) Herod the builder, like David, had bloody hands, 2) those same temple authorities created a virtual temple cult which exists even today, and 3) Yeshua made clear the temple had come between the people and God. If one still doubts direct interventions by God to advance a plan simply ask 'what are the chances' all of the essentials would be in place to create the greatest and most powerful nation on earth so as to usher in the reestablishment of Israel?

The Most Important Axis

The question of why 1776 was out of sequence with the first axis was puzzling, and my conviction that Marxism is evil manifested demanded that some kind of plausible association be found. I simply started by pondering the reason 1776 was 44 years out of sync with the 250 increment timeline. I then mused that, for whatever reason, the appearance of the United States was fortuitous in that the evil manifested as Marxist/Leninist communism in the Soviet Union was eventually defeated by the good that preceded by 44 years; the United States.

My brow literally furrowed when I realized Yeshua's crucifixion preceded the evil that was the fall of the second temple by approximately 44 years. I use the term "approximately" in that confirmation of the most significant axis of the matrices fell into place within a few hours. I had discovered the key to identifying direct interventions, singularities, as our Creator had intended them to be found and a marker used to identify evil incarnate or the mitigation of evil incarnate; the number 44.

"You must accept the truth from whatever source it comes"

Maimonides

When one considers that 44 years prior to the benchmark, the fall of the 2nd Temple in 70AD, is 26AD and exactly 1750 years before 1776, the birth of the United States, taking notice is prudent.

It was at that same moment when I realized that the same 1750 year span is the measure between the fall of the 2nd temple in 70 CE and Marx/Engels in 1820; a second 1750 year increment parallel to the original 250 year increment timeline beginning with the evil that was Rome trying to destroy Judaism and ending with the evil that was Marx and an ideology seeking the destruction of Israel by forming an unholy alliance with Islam; a political ideology which rejects religion but has all of the traits of a religion in alliance with a religion that has the traits of a political ideology.

The only part missing from the matrices puzzle was a reasonable and logical confirmation of Yeshua's crucifixion in 26CE; the date did not comport with the common understanding of Yeshua at age 33 and the gospels which do not agree as to the length of his ministry. Instinctively I knew then there would be a reconciling confirmation waiting for discovery. The matrices at that moment seemed almost miraculous and I would not be disappointed.

Before making even one more calculation, I recognized an aspect of Judaic understanding as to the appearance of Judaic mashiach which fit perfectly; 2000 years of 'godlessness' before the Jewish mashiach which, if measured from 26CE would be 2026; reconciliation of the Judaic eschatological tradition indicating Yeshua, a messiah of purpose, is the benchmark for Judaism not the fall of the temple. I have to assume by now some Judaic scholars are conceding they have also been wrong. The Yeshua revealed by the matrices was a Jew then and is now...in complete harmony with Torah and the eschatological expectations of both House of Israel Judaism and the lesser House of Judah Christianity.

The number 1750 is in agreement with the 250 year increment on a broader scale and 1776 would be exact as it relates to Yeshua's crucifixion in 26AD at age 32 if one measures from a birth in 6BCE as historians believe. Academics are almost unanimous as to the birth of Yeshua in 6BCE; a date that for years has been used to emphasis the inexact nature of religious institutional constructs such as the Gregorian calendar which "calculated" the birth of Yeshua in 1 CE.

Academics will be happy to know that their estimations were correct but, like Richard Dawkins, not in a way that will please most. The Gregorian calendar is an extremely appropriate daily reminder of religious institutional fallibility but academia's correct date of 6AD provides a clustered matrix of dates which will force a reassessment of Christian scripture. There are four gospels and it is safe to assume whoever cuts through the Gordian knot of contradiction is wielding the Sword in the Stone, Excalibur, thus revealing king; the matrices are Excalibur and G+d has put the sword in motion ergo the gospels must align with the matrices and not the other way around so as to please religion.

The 26AD date was certainly worthy of note given the parallel 1750 increment between 70AD and Marx/Engels but initially I had nothing but a very compelling piece of anecdotal evidence.

Pontius Pilate was in his first year as Prefect of Judea in 26CE and common sense suggests the answer as to why a politically astute first year Roman Prefect was reluctant to take responsibility for Yeshua's crucifixion; Pilate was new to Judea and executing a "king" above his office; Pilate's prudent political inclinations prevailed; Pilate washed his hands leaving the Sanhedrin to take responsibility for taking the life of a messiah of purpose who amended Sinai thus engendering the temple hierarchy's hatred.

Approach all things as it concerns Judaism and Yeshua in the context of history rather than religious dogma and the truth will become apparent from the higher vantage provided by the matrices; history guided by our Creator's hand. Thomas Jefferson the "deist" understood the true nature of Yeshua's commission and warned of mankind's fallibility in explicit terms as it concerns accurately conveying the truth into the future. There is very good reason Jefferson created his cut and paste bible.

"But a short time elapsed after the death of the great reformer of the Jewish religion, before his principles were departed from by those who professed to be his special servants, and perverted into an engine for enslaving mankind, and aggrandizing their oppressors in Church and State."

Thomas Jefferson to Samuel Kercheval, 1810

Yeshua prepared Judaism for the diaspora by amending the Sinai covenant presaging the Constitution in many ways with his teachings...especially the writing in the dust. The span of 1750 years seemed to be confirmed with the parallel timelines and there was no way to dismiss the possibility that was implied; the birth of Christianity and the birth of the United States were actual interventions intended for all mankind. But could the inference be reasonably and logically confirmed by replicating the two 1750 year increments as something more than the coincidence intellectuals are hoping for? Was there a link to Judaism that went back in time as well as forward to the 2nd Temple?

I started again calculating from known dates looking for some correlation extending back into ancient history. Doing so would be entering into a vast gray area of conjecture still argued by archeologists and historians, but the matrices were stunning throughout recorded history and I had to believe their accuracy would hold; confirmation of our Creator's authorship...and again I would not be disappointed.

Using 26CE and 6BCE as the markers there was nothing I would expect given the exact nature of the dates revealed thus far. But as with my first excursion, I realized I was not using the correct benchmark which had everything to do with Judaism. I found what I was looking for when I reached back in time to what is actually the most important event in human history; G+d's original covenant with Abraham.

Abraham received the Covenant between the Parts in 1743BC seven years after the death of Hammurabi thus explaining the precise dating; the first attempt at law giving, the Code of Hammurabi, fell on barren ground. The date is well recorded and Abraham was literally just a short distance away at the time in the vibrant city of Ur.

1750 years later in 7AD Yeshua at age 13, 'ish', faced examination by the Temple elders after which he assumed his commission telling his parents he was about his father's business; Yeshua began his ministry when he acknowledged his purpose. Yeshua was not 12 as the gospel of gentile Luke reads but age 13; an age infinitely more plausible for his first temple visit; Yeshua came of age according to Judaic tradition which fully explains his temple examination. Do not assume the author of Luke was in error but rather question scripture in the context of the matrices, asking who would benefit from the change?

The early church had, within 70 years of crucifixion, embarked upon a strategy to divest Yeshua of his Jewish identity and the change to age 12 would have served as a subtle insult to the temple authorities i.e. Jesus at age 12 was wiser than the elders.

Consider the number 7 represents G+d, creation, natural perfection: 7 days of creation; 7 days to the week; seven oceans; seven continents, and exactly 7×250 for 1750 years between Abraham and Yeshua at age 13 impressing the elders in the 2nd Temple and exactly 7×250 for 1750 years from Yeshua's crucifixion in 26CE to 1776. HaShem was creating matrices intended to define all of history for a cynical world including identifying evil in convergence; 1750 years between the fall of the temple and Marx/Engels. 2026 will mark the end of the 8th and last increment at which time there will be 8 billion people on earth; the transition from natural perfection, the number 7, to that which is beyond natural constraints; the number 8. Finally, 7×500 , 3500, is likely exact when dating from Sinai and the end of the 40 years in the wilderness to 2026...and the matrices keep expanding.

I was able to derive the 250 increment from the signing of the Declaration of Independence and the deaths Jefferson and Adams 50 years later, from which the matrices evolved. Thereafter, every single consideration included some factor of 5, which naturally led me to consider the 5 centuries between 70CE and the birth of Muhammad as a confirmation. I also took note of the 250×5 increment of 1250 years between 570AD and Marx/Engels to arrive at 1820 which marks closely the birth of Karl Marx in 1818 and exactly as it relates to Marx's enabler Friedrich Engels.

I then began to wonder just how significant the number 5 is to Judaism in the context of the matrices and a confirming piece dropped into place; a set of numerical correlations speaks volumes. There are five books in the Torah, five sections to the beloved Psalms...and finally, the 5th of Iyyar, 5708; Yom Ha'atmaut; Israel's Independence Day celebrating the reestablishment of Israel in 1948. The circle connecting the American Declaration of Independence on the July 4th 1776 and Israel's reestablishment is made complete.

The Covenant of the Parts to Abraham, Yeshua and the birth of the United States are each separated by 1750 exactly and those who do the mathematics will realize there is a 19 year gap between Yeshua at age 13 in the temple and his crucifixion in 26AD...that allows for reconciliation of the Judaic calendar to the Gregorian as a double helix giving life to reality Abraham, Yeshua and 1776 were singularities, direct interventions by HaShem, to provide instruction, Torah, to mankind.

Perhaps in context one might better understand why Marxianity and Islam seek the destruction of the United States...which has now become untenable given God is fully engaged and regardless of the pain and suffering the false religions inflict they have lost already with empirical evidence of existence. God is just and has provided a path of escape from the field for the brothers from another mother that is the Ishmaelites and the tares within the Christian churches, but offers only destruction for the false religion of human intellectual arrogance Marxianity. One need only consider the pain, suffering and madness inflicted on mankind to understand why Marxians either take a knee or learn what endlessness means.

Whom the gods would destroy they first make mad

"But our culture never did that for the horrors of socialism, which is how you get a majority of young people having a positive view of socialism. What have they missed that they can believe that? Here's what they've missed: the artificial famine in Ukraine, the Soviet Gulags, the forced deportation of Lithuanians, the persecution of Christians, China's Great Leap Forward and Cultural Revolution, the killing fields of Cambodia, North Korea's horrific prison camps and famines, the systematic impoverishment of Cuba, and now Venezuela's collapse into starvation and mass-murder. All of this should be absolutely required background knowledge for any educated person."

Robert Tracinski, The Federalist, For The Left, Socialism Denial Is Holocaust Denial

It is now required knowledge for every human being on earth wanting to pass the final test of reason an extant God is administering. Do you really believe G^d would leave evidence of existence and the needed definition of history in history simply to have the evidence ignored? Doubly so as it concerns Marxism in any of its permutations; the false religion of human intellectual arrogance focused upon the destruction of a United States bearing the personal imprimatur of God...exceptional by definition.

When one comes to accept the evil that is Marxianity has implemented the dark strategy of what Ludwig von Mises termed "Planned Chaos" then the seeming madness that surrounds gains focus; disrupt, disturb, dislocate, distract, destroy, disorder, dislodge, demean, displace, damage, devalue, diminish and degrade every aspect of the Judeo-Christian American culture while disparaging its history...discord until dissatisfied Americans come to believe the Constitution is dead. Planned Chaos has been an effective weapon with devastating consequences since 1960...and never intended to craft solutions.

One need only accept Marxianity in the guise of not at all "loyal opposition" Democrats are making the final push to replace the Constitution with a social justice blank check like that of South Africa by first creating what is the classic definition of a fascist state i.e. an unholy alliance between a weaponized government, the academy, the Imaginarium, corporations and oligarchs.

Americans will have to accept the not at all loyal opposition neo-Marxist "progressive" nee "liberal" nee Democrats have declared war on the Constitution: labeling half the citizens of the United States to be the enemy. In that light perhaps it would be better to give voice to a patriot before listing the long train of abuses; Enemies of the State vs. Enemies of the People by Frank Miele, February 2021, in part:

- I didn't declare war on the establishment; it declared war on me.
- It declared war on me when it supported energy policies that could enrich Saudi Arabia and Russia and would cost me more money at the gas pump or on my power bill.
- It declared war on me when it told me my ideas weren't worthy of debate and discussion or that they were even so dangerous they couldn't be shared publicly.
- It declared war on me when it used the police powers of the FBI and CIA to first spy on a presidential candidate and then worked to undermine the administration of that candidate after he was elected.
- It declared war on me when it told me my religious beliefs did not deserve the protection of the First Amendment.
- It declared war on me when it told me boys could compete against girls in high school sports and that they could shower together afterwards.
- It declared war on me when it offered citizenship to illegal aliens and shipped American jobs to China.
- It declared war on me when it mocked the usefulness of a wall on the Mexican border and simultaneously put up a razor-wire fence around the Capitol.
- It declared war on me when it tried to defund the police so that millions of Americans would be left defenseless against mobs from Antifa and Black Lives Matter.
- It declared war on me when it said America was never great.
- It declared war on me when it told my children they are not good enough because they are white.
- It declared war on me when it said that defending the Constitution's rules on federal elections is sedition.
- It declared war on me when it told me that I was a domestic terrorist if I didn't believe the government's official pronouncements about elections, about free speech, and about right and wrong.

Let's just say it plainly: The establishment declared war on me and on all conservative Americans when it decided that leftist orthodoxy was more important than the Constitution.

A house divided against itself cannot long stand, but if there is to be a truce it will not come from submission, but from a recognition that all people are created equal, that they all have certain inalienable rights, and that among those are life, liberty and the pursuit of happiness. Those words were worth fighting for once. Are they worth fighting for today? End Excerpt

The United States and the Constitution are indeed worth fighting for, and now said fight constitutes an obligation and duty. George Washington knew the truth and said so in his 1st Inaugural Address.

"No People can be bound to acknowledge and adore the invisible hand, which conducts the Affairs of men more than the People of the United States. Every step, by which they have advanced to the character of an independent nation, seems to have been distinguished by some token of providential agency."

For a short while longer Marxian fascists will occupy Washington DC but at some point God will make His presence known in a way even the most cynical cannot ignore...even more pronounced than the messages written in the ink of natural phenomenon heretofore. Until that day Marxians will engage in Planned Chaos at an accelerated rate; creating chaos until Americans come to believe there is no other option other than turning to Washington DC...at which time the totalitarians will lift the veil on their true intentions. If there is any doubt one need only look to the further weaponization under Biden.

In just 18 months the United States has been divested of energy independence and fuel prices are at record highs with the shortages exacerbated by cancellation of Keystone XL pipeline, suspension of new oil and gas leases on federal land, strong arming institutions that finance fossil fuel exploration and production and shutting down ANWR, all while blaming Putin and price gouging...doing so in the name of climate change that is now a moot issue with 2026 fast approaching. Energy Secretary Jennifer Granholm waxed "hilarious" claiming "It is not the administration policies that have affected supply and demand" and Interior Secretary Deb Haaland refused, or could not, answer questions in Senate hearings as why oil and gas leases on Federal land are moving at a snail's pace.

In the same time period the Department of Injustice has unleashed the FBI to persecute and prosecute over 850 individuals for the January 6th kerfuffle deemed an "insurrection" with many imprisoned without bail or charges; an insurrection that closely resembles the Reichstag fire with its own Horst Wessel in Brian Sicknick. Compare the prosecutions to the BLM riots that took 35 lives with 2000 police injured, over \$2 billion in damage...and over 15,000 arrests but only a handful of convictions after Marxian money came flooding in to advance the cause. Even the patently obvious unjustified murder of Ashli Babbitt by Capitol Police Lieutenant Michael Byrd was deemed justified and "lawful and within Department policy". It is a policy that has morphed into a national security finding that "White Supremacy and Far Right Extremism" pose the nation's greatest threat despite the crime wave that has followed and excused in the name of racial equity.

As if being caught conspiring to destroy the Trump campaign with and presidency with knowingly false evidence wasn't enough, the FBI and DOJ were ordered to create a special task force by Attorney General Merrick Garland at the behest of the teachers union to "investigate threats to school boards" by parents refusing to accede to Critical Race Theory and LGBT/gender instruction in elementary schools.

How does one explain the open border other than Planned Chaos? Marxians assert white supremacists have embraced the 'browning of America conspiracy theory' even after decades of openly touting what is the same strategy used to divest white South Africans of their country; flood the country with illegal economic migrants and then appeal to "democracy". Department of Homeland Security Secretary Alejandro Mayorkas has, like so many other sanctuary states and cities, nullified immigration laws and in the last 15 months over 2 million foreign nationals have crossed the southern border. Marxianity has recreated the plantation system as evidenced by racial, economic and political maps.

Marxians claim the supply chain chaos that appeared out of nowhere is not the administration's fault and yet if you look closer one will find the precipitous closing of Abbott Laboratories infant formula plant was not addressed for months and ships backed up to the horizon waiting to unload are being handled the same way robbing train boxcars going to and from Los Angeles is being handled; Marxians do not consider the issues a problem. Homosexual "wife" Secretary of Transportation Pete Buttigieg took a two month "maternity leave" to care for two infants adopted by him and his "husband" and now that Buttigieg is back he has done nothing to address the widening of the 710 Freeway going to the port of Los Angeles which was scrapped after it was alleged "people of color" would be adversely affected environmentally. Madness in that trucks caught in traffic idling is far more impactful.

I refuse to address climate change and the Green New Deal other than to warn Americans cannot afford to ignore straightforward articles such as 'The Day The Electricity Died' by Frank Lasee for Townhall.

To counter the rising tide of opposition, the indifferent and ideological miscreants populating the cabinet and agencies turned to Mayorkas to establish the Disinformation Governance Board within the DHS to insure Americans willing to listen to an Orwellian Ministry of Truth heard the party line while those in opposition were singled out by the fascist cabal for silencing. Myorkas tapped Nina Jankowicz to head the board until a number of juvenile tweets and videos exposed her as even more detached than the rest.

Americans are witnessing Planned Chaos and it will not end until Marxianity confronted and the road to a totalitarian fascist state with a social justice black check is severed. Fortunately, He Who Is anticipated entire generations that would be required to learn quickly and good reason to do so; body and soul are at risk. To assist, HaShem provided three simple measures to be used in identifying the enemy within.

“The Torah and moral law of Sinai, Yeshua as a precisely defined messiah of purpose, the Declaration of Independence and the Constitution of the United States, republican governance as defined by Jefferson and Adams, are the benchmarks by which all else is to be measured; gone are the debates as to every belief system on earth having equal stature.”

The second is Thomas Jefferson’s “Laws of Nature and of Nature’s God”. Juvenal put it into words all can understand: “Never does nature say one thing and wisdom another”. Now have the conversations about homosexuality and gender fluidity...which violate both.

The last was provided in 1861; Sir Henry Sumner Maine published his classic “Ancient Law” which posited both law and societies advanced from “status societies” in which status determined benefits and rights to “societies of contract” where autonomous individuals were free to decide on an individual basis the associations and contracts they entered into. The United States and its capitalist economic system is the quintessential expression of a contract society...now beset and threatened by identity politics, status, which is entirely regressive in nature and the true threat to the republic rather than “white supremacy”.

In retrospect, one might better understand why, as far back as 1960, Marxians launched a successful effort to freeze, isolate and denigrate WASPs; White Anglo-Saxon Protestants e.g. the founders, those who fought the Civil War and then built the greatest nation in history. HaShem is not suggesting but rather demanding every individual on earth regardless skin color, nationality, religion or culture to look again to history in the context of the Convergence Matrix i.e. it is not now nor has it ever been about race but rather greater and lesser cultures with the “prime directive” being the greater is to elevate the lesser but never is the greater to be made less by contact with the lesser.

If one dares to question historians with the Convergence Matrix and Torah in hand, history looks quite different from the higher vantage dating all the way back to the mysterious Genesis 15:13 “And He said to Abram, “You shall surely know that your seed will be strangers in a land that is not theirs, and they will enslave them and oppress them, for four hundred years” which does not align with “And the habitation of the children of Israel, that they dwelled in Egypt, was four hundred and thirty years” of Exodus 12:40. Few realize the profound implications inherent in difference between Abram and born from above Abraham; God was describing two different peoples, two different seeds; the seed of descent versus the seed to be planted. History records the presence of the very creative Hyksos Canaanite people present in Egypt long before Abram; the creators of the horse and chariot and compound bow among other inventions...the seed to be planted that would join in the Exodus after 430 years.

What happened at Sinai is best explained in the context of what is now known about genetics e.g. fish do not school to learn how to be fish; look to genetic memory...which can be created by fear or pain.

It is written the mixed multitude heard God speak and were so terrified they begged Moses "No more" and from that moment on they were programmed for historic destiny; evidenced by the presence of a unusual Y chromosome marker, the Cohen Modal Haplotype, carried exclusively by the Cohanim, the Cohen, the priestly line descended from Aaron dating back thousands of years; a specific marker carried by the guardians of the prophetic message which genetically date to the Exodus with a hidden message...the imprinting was designed at the quantum level for specific tasks.

It was Jacob/Israel who established the idea of adoption and while it is logical and reasonable the tribes of Ephraim and Manasseh, Egyptian by birth, were the largest of the mixed multitude the House of Israel and that of Judah remained small and exclusive in comparison. Jews have a saying "May God make you like Ephraim and Manasseh" and for the first time there is understanding as never before.

On his death bed Israel blessed the brothers choosing to bless Ephraim over the firstborn Manasseh much to the disquiet of their father Joseph yet Israel insisted saying "I know, my son, I know; he too will become a people, and he too will be great. But his younger brother will be greater than he, and his children will fill the nations...With you, Israel will bless". How Israel blesses will come 700 years later.

There are those who question the 40 years in the wilderness but there is an answer; it would be unwise to enter what was a province of Egypt until the memory of the Exodus faded. The archeological evidence supports that when the Jews entered under the command of Joshua the story of Jericho was as described but the reason for telling the following story of savagery is known but to God. What the evidence shows is a strategy of anonymity which had the Jews living side by side with the Canaanites; a thesis evidenced by the most thoroughly document ancient battle in history...the Battle of Kadesh.

The Battle of Kadesh dates to 1274BC; pitting the forces of Ramesses II against the Hittite Empire at the city of Kadesh on the Orontes River near today's Lebanon-Syria border. Unlike most ancient battles the formations and tactics are known and it is estimated to have been the largest chariot battle in history involving up to 6000 chariots.

The army of Ramses II was comprised of four divisions; the royal Amun, the Ra, the Ptah and the Seth and when the lead elements were less than 10 miles from the city of Kadesh Pharaoh Ramses II walked into an ambush after relying upon information provided by two Shasu; Jewish nomads.

The Shasu told Ramses II the Hittite army was 125 miles farther north near Aleppo when in fact the Hittites were encamped just miles away on the opposite side of Kadesh and the Orontes River just south of Lake Homs. The royal guards and Amun division with Ramses II leading proceeded to camp just north and west of Kadesh virtually opposite the Hittites on the east side of the river with the Ra division strung out on the road behind them with the Ptah and Set divisions even farther south when the Hittites attacked.

The Hittites turned north and struck; tearing through the encamped Amun division. Ramses II recorded he was virtually alone and yet he rallied his forces and turned the tide of battle...a counterattack that would be threatened with destruction by massive reserves of royal units which crossed the Orontes River directly from the main Hittite camp.

It was a Hittite attack thwarted by the sudden appearance of a yet to be adequately explained or identified Ne'arin division strong enough to break the Hittite reserves. The battle, for all intents and purposes, was over...and it make uncommon sense "the god" of the Ne'arin would be recognized as the deciding hand hence a reference in a unique treaty agreed to by two great powers that withdrew and never clashed again as they did at Kadesh.

The battle ended in what historians consider a draw with both the Egyptians and the Hittites withdrawing. The battle led to the drafting of the first international peace treaty in history; the Silver Treaty...a replica of which hangs in the United Nations. While historians have concluded the Ne'arin division originated in the tiny and immediately adjacent kingdom of Amurru, a buffer kingdom the Hittites conquered prompting Ramses II north, the words of the Silver Treaty suggest otherwise.

While it is true the text concludes with an oath before "a thousand gods, male gods and female gods" of the lands of Egypt and Hatti, it is the preamble that is telling: "Now from the beginning of the limits of eternity, as for the situation of the great ruler of Egypt with the Great Prince of Hatti, the god did not permit hostility to occur between them, through a regulation."

That "...the god" is none other than the God of Sinai goes to the heretofore unexplained Ne'arin division and a strategy that would define the Jewish nation as much as anonymity for the next 3000 years; the Jews would be caught between great powers and prove indispensable in deciding winners and losers and yet manage to avoid entangling alliances and loyalties supplanting their loyalty to HaShem...and those who would turn to them for assistance knew that was a line never to be crossed. As it concerns the Egyptians and Hittites the now cohesive and self-actuating Israelites were caught between a Pharaoh well aware of the God of the children of Israel and Hittites who needed to learn; Israelites who wanted nothing more than to be left alone in their anonymity.

The Silver Treaty did exactly that...and I would posit the Ne'arin division was comprised of Jewish warriors who would gain a strong negotiating position by deciding the battle citing "the god" from the beginning of the limits of eternity for the victory; He Who Is eternal with no beginning or end as opposed to every other ancient god created by men; He Who Is the God of Abraham/Sinai.

The Convergence Matrix lends to Exodus and Sinai occurring between 1480 and 1540 BC and for 400 years Judges would rule until the first of the Kings; Saul who would be followed by David and then Solomon building the 1st Temple. The United Kingdom of Israel became a reality but lasted for just a short while and it is here the cryptic words of Israel, "...his younger brother will be greater than he, and his children will fill the nations...With you, Israel will bless" has meaning.

Rehoboam was the son of Solomon and last king of David's Israel. Jeroboam was Solomon's right hand man; eventually conspiring to sever the northern ten tribes from Israel which succeeded after the death of Solomon. Rehoboam became the King of Judah to the south...and Jeroboam, from the Tribe of Ephraim, became king of Israel to the north comprised of the ten tribes. It was there the mixed multitude reverted to polytheism and the installation of the golden calf in the temples.

The difference between the house of Israel, David and Solomon, and the ten tribes is a distinction with a huge difference; Egyptians and a truly mixed multitude would have been attracted to the tribes of Ephraim and Manasseh carrying with them any number of cultures, beliefs and traditions...and the golden calf appears twice serving as an identifier of those people; at Sinai and when the 10 tribes broke apart David's united Israel to form the northern Kingdom of Israel in opposition to Judah. Unlike the chosen, these people were called to a purpose separate from, but critical to, Judaism's primary role in building a monotheistic future. The stage was set for those programmed at Sinai to explode outward.

I would posit the Phoenicians were seafaring people who were not called but gravitated first to the opportunity to escape Egypt, were genetically imprinted and then made their way to the sea after entering Canaan where they would exhibit the same fusion with nature's economy as the chosen people and would form a symbiotic relationship with the northern tribes close to the sea e.g. Asher, Zebulun, Ephraim, Manasseh, Dan, Naphtali.

For hundreds of years they exploded outward on land, but mainly the sea. Both the scriptural and historic records are rife with reference and inference to the Danaans referred to in Homers Iliad; the Danaans, the tribe of Dan, were quite possibly the first to design keeled ships suitable for the open sea and their presence in ancient Greece is well documented. "The Danaan were a people who colonized the ancient world from Greece to the British Isles and Denmark (i.e., "Dan's mark" or settlement)" per Per Dr. Robert G. Latham in his "Ethnology of Europe" (1852). No doubt the Danube lent to the thesis.

I would also posit the "mysterious sea peoples" may not be as mysterious as historians believe but merely a manifestation of the strategy of anonymity whether they were aware or not. The mixed multitude began to explode outward from the beginning but it was with the Assyrian diaspora the tribes became "lost" even though only a few tens of thousands were taken by the Assyrians; those programmed at Sinai migrated north across the Caucasus to become Scythians and Cimmerians, across northern Europe to become Goths even unto to the Iberian Peninsula. It goes to Ecclesiastes 3:1:

"He has made everything beautiful in its time; also the [wisdom of] the world He put into their hearts, save that man should not find the deed which God did, from beginning to end"

These were Abrams' seeds to be planted as opposed to Abraham's seed of descent Israel. Because the seed to be planted was a mixed multitude, genetic tests would be constrained in that said testing cannot read genetic memory but there is a marker; the Cohen haplotype which would logically be extremely rare in Europe. A very circuitous route to make the case Ephraim, through his rebellious descendants, would provide the seed to be planted from which Europe and western civilization would grow: "...his children will fill the nations...With you, Israel will bless".

Eventually, as evidenced by the first axis of the Convergence Matrix, the tip of the spear would be white Anglo-Saxons who would eventually sever the ties to the Trinitarian Catholic Church to become White Anglo-Saxon Protestants...chosen to make an Exodus to North America where they would found the United States with a Constitution bearing the personal imprimatur of God, reestablish Israel and defend her unto 2026. And now you know why the evil that is Marxianity is focused upon the destruction of the United States, the Constitution...so as to destroy Israel.

Those who deem this writing as “white supremacist” would be wise to remember the ‘prime directive’ which the Jews have obeyed for 3500 years and to which WASPs are equally obligated; elevate, not rule over, the lesser...but never become less by contact with the lesser. There is one last chosen people, but their culture is facing destruction for spurning an obvious blessing; blacks who identify as black before American will have but one chance to escape the fate of Marxianity...the African Exodus.

History and scripture look very different from the higher vantage where the existence of God is not a matter of mere belief or abiding faith but rather certitude does it not? Mankind has been bequeathed the Convergence Matrix written in the “language of God” mathematics even the most arrogant of intellects ignores at their own peril...an offer of peace with nonnegotiable terms; set aside all you know or think you know and think again as to what it means to walk the walk of one right with God i.e. righteous.

The time of religion has passed and the time of certitude is upon us; the God of Abraham/Sinai, Yeshua and 1776 is presenting as pure intellect and power demanding every individual to submit to the oracle of reason and objective truth. One need only consider the sun and moon calculations of Pamphlet No.1 to realize 1) it took billions of years for the sun and the moon to reach position, and 2) the positioning had to coincide with the human technological advances to be able to calculate the positions.

To assist measures have been provided and reality expressed in mathematical and scientific terms mankind can now understand...such as the imprinting of genetic memory at Sinai. Genetics answers far too many questions left unanswered for far too long as does a quantum connection to an informational weave...including a reasonable explanation as to the nature of the soul and resurrection.

God established DNA as a baseline to be used and has consistently referred to that baseline whether it is Abraham to Isaac to Israel, the line of David leading to Yeshua or the Cohen haplotype.

There are a number of researchers such as the University of Oxford’s Roger Penrose and the University of Arizona’s Professor Stuart Hameroff convinced the human brain functions like a quantum computer utilizing quantum mechanical phenomena such as entanglement to perform complex calculations. As it concerns the unique nature of individual human beings it is only in the last decades an irrefutable measure existed; DNA and no two human beings are exactly alike. DNA is a unique identifier that even now can be reduced to numbers...imagine sequencing at the quantum level.

Sentience as the knowledge of good and evil, right and wrong, and the ability to calculate was somehow imprinted on human DNA and each “received” a soul which is a spiritual bridge unique to humans among living creatures; a bridge with the ability to connect and transfer information on a quantum level. Since that time each individual has been a product of procreation and the soul of the individual is created at the moment of conception...which then connects to the “mainframe” at a quantum level.

It is all about the numbers which should advise as it concerns the unique nature of DNA; the creation of a unique and identifiable individual begins at the moment of conception. DNA is an incredibly complex identifier which can be expressed as a number far more complex than any IP address; at the moment of conception a connection is made with the spiritual realm at a quantum level; connected in a way that is for the moment beyond human technological understanding. The uniqueness of DNA, even as it concerns monozygotic identical twins, speaks to the reality of the individual soul.

Only human intellectual hubris would suggest human technology exceeds that of God. Human computer technology has the hardware, operating systems, programs, file saving, the "cloud" and wireless connectivity...all governed by security measures and access limitations based upon conceptual keys, passwords and IP addresses. The soul remains as long as the brain is alive and transmitting but once the brain stops functioning in death it ceases to transmit but is by no means dead; the soul is logically, much to the chagrin of those who taunt believers with "Sky Daddy", stored in the spiritual "cloud".

To understand the functional nature of the soul another analog to human technology exists in the Mars rover appropriately named Spirit; the now silent "dead" rover had both serial number and encrypted communications address and as it explored the Martian landscape sent data back to a mainframe computer which stored the data...but what happened when the Spirit stopped broadcasting after the batteries died? It is the data which represents the Spirit; one can build another rover from the plans and download the operating system and data from the mainframe; Spirit would be resurrected in a new body.

It can't be known what exactly will happen when Yeshua returns to Jerusalem in 2026 but what can be known is what is at stake for every individual on earth...individual souls that can look forward to an eternity of possibilities, including having every question answered, or endlessness separated from the now empirically evidenced God of Abraham/Sinai, Yeshua and 1776.

This pamphlet is written less for the religious and more for the cynical with enough information to begin the test of reason being administered by the unfathomable intellect and power now presenting as such; a very real God wanting none to suffer needlessly. Begin by objectively considering the Convergence Matrix in the context of a plan nearing its end i.e. the matrices have meaning at this moment and time, not before. I am looking forward to the day theologians, historians, intellectuals and scientists determine what is still hidden in the ever expanding matrices. They may well determine the fate of mankind.

A test of reason with a future preordained should not be that difficult...but if one is looking for confirmation of a House of Judah Christianity awakening look no further than Zechariah 12:1-9:

*"The prophecy of the word of the Lord concerning Israel: Says the Lord, Who stretches out the heavens and founds the earth and forms the spirit of man within him: Behold! I am making Jerusalem a cup of weakness for all the peoples around, and also on Judah, [that he] shall be in the siege against Jerusalem. And it shall come to pass on that day that I will make Jerusalem a stone of burden for all peoples; all who bear it shall be gashed, and all the nations of the earth shall gather about it....And **the princes of Judah shall say to themselves**, "The inhabitants of Jerusalem were my strength through the Lord of Hosts, their God." On that day I will make the princes of Judah as a fiery stove among wood, and as a brand of fire among sheaves. And they shall consume on the right and on the left all the nations round about, and Jerusalem shall still stay in its place in Jerusalem...And it shall come to pass on that day that I will seek to destroy all the nations that come upon Jerusalem."*

All will have to make the penultimate choice. Choose wisely...choose a now evidenced God of Sinai, Yeshua and 1776 and act accordingly.
