No.22 Israel: America's Very Reason

Secular historians "live scrupulously, morally, righteously by the law of historical method but that method leaves us in vast darkness. It tells us that there are facts but does not tell us what they mean.... We cannot take an honest view of human history unless we acknowledge God's work through human kind in history." Arthur Link

The day of acknowledgement has arrived given the God of Abraham/Sinai, Yeshua and 1776 made provision in history to provide three additional equations exactly seven years after my five seconds in 70AD Jerusalem meant to change the world by unlocking the Convergence Matrix; a message written across the tablet of time...the first paragraph of which is included in Pamphlet No. 2 Mankind's Final Test of Reason. It is a perfect template for teaching the history of western civilization while also framing the final confrontation now engaged.

It was during that five seconds in Jerusalem where I heard in words that were not words at all that my until then intellectual parlor game Theory of Convergence was not a theory; look at history as a mathematical equation with the answer being the highly improbable reestablishment of Israel prophesized 2500 years ago. It took mere minutes to realize the equally improbable deaths of Jefferson and Adams on the 50th anniversary of the signing of the Declaration of Independence was a mathematical key i.e. start in 70AD and the fall of the 2nd Temple then walk through history in 250 year steps, 2 men, 50 years, to reveal the first paragraph.

It is hard to imagine but the true believers within the false religion of intellectual arrogance Marxianity can and will insist the deaths of Thomas Jefferson and John Adams on July 4th 1826 was mere coincidence, but then again had James Madison joined them on that day it would not change the minds of those who cannot accept a reality of an ineffable intellect and power incompatible with a rationalized and secular parallel reality.

While one can strongly infer this emissary was personally identified in the matrices by the way the mathematics unfolded and one of the 44 year increments which identify evil incarnate, my coming of age at 13 'ish' 44 years before Obama entered the Senate, God knew the identification would be insufficient and as such removed all doubt as a warning to those who disparage the Convergence Matrix or try to insist interpretation is subjective. The door to interpreting the ever expanding matrices is open to conservative and orthodox Jewish rabbis exclusively...to prompt debate.

As to removing all doubt, the matrices are clear as to Yeshua in Jerusalem July 4th 2026 and for quite some time I thought the honorable and dignified Queen Elizabeth II was a marker and reminder of what faith and duty entail given her 1926 birth year, but then she died on September 8th of 2022. I thought sure of the marker thesis given Queen Elizabeth I is identified specifically at the 1570AD mark; excommunication, the start of the enlightenment and the creation of an island fortress of Protestantism where the colonies that would eventually form the United States were conceived. As it turns out both Queen Elizabeth I and Queen Elizabeth II were indeed markers; the first was born September 7, 1533 and the second died on September 8, 2022...exactly 489 years to the day which would only be possible given the Julian calendar was replaced by the Gregorian calendar to allow for calculating leap years which included a onetime deletion of 11 days from the month of September 1752.

The second equation arose with the realization Queen Elizabeth II and I have something fleetingly in common; Queen Elizabeth II became queen the moment her father the king died on February 6th 1952. I was born in 1952 and as one versed in convergence I looked for a mathematical and historical fusion that would also include Judaic meaning which is the most difficult but obvious if one is willing to consult the oracle of reason and do the research. To wit: "Seventy has a sacred meaning in scripture that is made up of the factors of two perfect numbers, seven (representing perfection) and ten (representing completeness and God's law). As such, it symbolizes perfect spiritual order carried out with all power. It can also represent a period of judgment".

The question then went to the year 1952 and the two perfect seventies; the Queen's reign, my age and the relationship. Not so fleeting when one converts years to days, $70+70$ for 140 then adds the 140 days to February 6th 1952 which yields my June 25th 1952 birthday which only works because 1952 was a leap year.

The third equation was prompted by the meaning of the first two; to wit: in 2019 I recognized the rare July 4th earthquake sequence in a remote area of California on an unexpected fault as a warning and then went on to accurately and publically predict three subsequent earthquakes and the Canadian Omega Dome i.e. is the halfway point of the seven year countdown to 2026 related to the queen equations? I multiplied 7 times 365 then divided by two for 1277.5 days then pushed off the leap year fraction for a clean July 4th 2019 plus 1277 = January 1st 2023. If ones adds the two leap year days to the second half for 1279 days then subtract from July 4th 2026 = January 2nd 2023; auspicious days for a message written in the ink of natural phenomenon; designed to warn mankind God is fully engaged...close and getting closer every day.

"There's something happening but you don't know what it is, do you, Mr. Jones?"

It is no longer possible or wise to assert as coincidence the fact Abraham was born in 1948 of the Judaic calendar and Israel was reestablished in 1948 in the Gregorian; the Convergence Matrix evidences the two calendars wrap around each other like a double helix giving life to a plan.

I'm not a prophet, I have no words from God to share but I am what all were told to expect; human detritus to reveal the foolishness of human intellectual arrogance and the weakest to confront the powerful with nothing but Jefferson's oracle of reason and the Convergence Matrix. Reason more than suggests God has specifically identified His emissary as an integral aspect of Mankind's Final Test of Reason.

Fearful or Terrified is a Choice in the End

"Years ago, a group of good, wise, brave, God-fearing men stood up to claim and defend the human right for independence. Those men are now dead. Their work is not. If good, wise, brave, God-fearing men fail to stand up in their stead that independence will cease to exist."

Richelle E. Goodrich, Making Wishes

The world is about to witness what the wrath of God looks like in very real terms and the United States with its acceptance of Marxianity will be the recipient of both general and specific inflictions of said wrath; general in that Americans allowed the destruction of the Judeo-Christian civil religion and abortion without taking to the streets and specific as it concerns places and individuals slated for destruction.

The worm has turned and henceforth the question of incompatibility has been returned to its proper place in the grand scheme of things i.e. are you right with the God of Abraham/Sinai, Yeshua and 1776...and if not why not? Do you have a family member embracing homosexuality or transgender theology? The moral law of Sinai was not repealed by Yeshua and the "Laws of Nature and of Nature's God" are immutable. The Jewish messiah Yeshua made clear what would happen in the end.

"Do not think that I have come to bring peace to the earth. I have not come to bring peace, but a sword. For I have come to set a man against his father, and a daughter against her mother, and a daughter-in-law against her mother-in-law. And a person's enemies will be those of his own household."

Matthew 10:34-36

The Lord God Himself succinctly describes the same end in Zechariah 12:1-9:

"The prophecy of the word of the Lord concerning Israel: Says the Lord, Who stretches out the heavens and founds the earth and forms the spirit of man within him: Behold! I am making Jerusalem a cup of weakness for all the peoples around, and also on Judah, [that he] shall be in the siege against Jerusalem. And it shall come to pass on that day that I will make Jerusalem a stone of burden for all peoples; all who bear it shall be gashed, and all the nations of the earth shall gather about it....And the princes of Judah shall say to themselves, "The inhabitants of Jerusalem were my strength through the Lord of Hosts, their God." On that day I will make the princes of Judah as a fiery stove among wood, and as a brand of fire among sheaves. And they shall consume on the right and on the left all the nations round about, and Jerusalem shall still stay in its place in Jerusalem....And it shall come to pass on that day that I will seek to destroy all the nations that come upon Jerusalem."

In less than three pages reference has been made to Pamphlet No.2 Mankind's Final Test of Reason for a reason; to understand the any of the 29 other pamphlets in this series will require the context provided therein. Not the least of which is reconciling the lesser House of Judah Christianity to the greater House of Israel; the Holy Nation and a prophetic Israel reestablished. Yeshua of the House of Judah paid the price for gentile adoption into the family born at Sinai and in that context alone the words of Zechariah make sense...uncommon sense.

The seemingly insurmountable obstacle goes to a trait American Christians as Jews of a lesser house share with the Jews of the greater House of Israel; both are stiff necked and convinced that despite the literally thousands of denominations each in their own right is in fact right. American Christians will have no problem ignoring the mathematics when told to do so which explains the reason God has engaged to scare the hell out of them, but Judaism will find the mathematics impossible to ignore i.e. the Yeshua of the matrices in perfect harmony with the Tanakh and Gods plan. Yeshua came only for the lost sheep of Israel but to save them at the appointed time the gentiles of Europe were enlisted in a greater plan to provide salvation for all mankind.

With the Convergence Matrix, an emissary identified and a God fully engaged...the commission originally tasked to the Christian church to teach the gospel to all mankind will be fulfilled and by extension the world will know Torah. *Instruction* for Christ's sake, *instruction* that provides moral and ethical guardrails along with a sense of purpose and meaning that if universally applied would end the madness infecting human societies. There is only one cure for the illness; a strong dose of fear God directly injected into the bloodstream of mankind.

If your primary concern is the fascistic cabal in control of Washington DC take heart; within a short period of time all that was done in the dark will be brought to the light. Government has erected a wall of secrecy and censorship but overlooked a fatal flaw in their godless logic; even with tech giants in tow it has always been perplexing as to why those manipulating bits and bytes of binary logic or abusing technology would risk a confrontation with the Creator of a binary existence. The wall will come down as did the Berlin wall and like Berlin 1989 it will be those inside swinging the hammers to end the division and tyranny.

If your primary concern is the destruction of Judeo-Christian America take heart; God will be reintroduced to schools and the civic square at which time drag queen story hours will end and those who subscribe to or tolerate the alphabet of sexual perversion will no longer have the Civil Rights Act to hide behind. There is a huge difference between discrimination based upon innate characteristics and sexual preferences that violate the "Laws of Nature and of Nature's God". To be a Judeo-Christian is to hold religious beliefs based upon certitude i.e. the God of Abraham/Sinai requires those who know the truth to refuse the forced association demanded by the false religion Marxianity. To simplify identity and belief there is a single word...'I am a *convergent*'.

"But we assure the socialists that we repudiate only forced organization, not natural organization. We repudiate the forms of association that are forced upon us, not free association. We repudiate forced fraternity, not true fraternity. We repudiate the artificial unity that does nothing more than deprive persons of individual responsibility. We do not repudiate the natural unity of mankind under Providence." Frédéric Bastiat, *The Law*

If your primary concern is illegal immigration take heart; the multiculturalism envisioned by Marxians was always meant to be a case of the premise destroying the object but now the tens of millions will know they should not be caught out of place come July 2026. As it concerns those who identify as black before American there is an exit from the field that is the African Exodus. As it concerns Hispanics invading America there is the Illegal Migrant Registration Act (IMRA) to voluntarily identify and three years to accumulate a nest egg before 2026; guest workers who will cease to be a threat to the Constitution.

What the illegal migrants fail to recognize and have in common is the threat they pose to the Constitution and by extension Israel and the Holy Nation...the Jews. Nowhere is that threat more pronounced than the brothers for a different mother Ishmaelites. The Ishmaelites, predominately Muslim, have invaded Europe after the disastrous Middle East foreign policy errors and plans set in motion by Obama in 2011.

They too have been extended and escape from the field detailed in Pamphlet No.23 that would see them returning to land promised to Abram...from the River Nile to the Euphrates with Shiite Iran beyond. Of the Ishmaelites there are none in greater danger than the politically contrived "Palestinians" in Gaza, the West Bank and southern Lebanon; those who are actually on the Promised Land...the land promised to Abraham, Isaac and Jacob.

Israel and Jerusalem are Jewish

"Were we to give up half our territory rather than engage in a just war to preserve it, we should not keep the other half long."

Thomas Jefferson to William Carmichael, 1790

The first fallacy that must be disposed of is the idea of a two state solution. First of all, the Israeli government is tempting HaShem by even considering trading the land promised for peace. In a 2014 article titled *The Truth about Gaza* by the late Charles Krauthammer is perplexed by those who believe a two state solution is even possible given the Gaza experience/experiment that witnessed Israel ceding Gaza in 2005 with the idea of creating an Arab Riviera on the way to a two state solution.

A quote by Israeli Prime Minister Netanyahu summarized the naiveté of the idea given openly terrorist Hamas was elected in 2007 and at once began pursuing its stated goal of eradicating Israel and the Jews: *"Here's the difference between us...we're using missile defense to protect our civilians and they're using their civilians to protect their missiles."*

Krauthammer concludes the article by advising Israel (and the west by inference) should stop negotiating with the Arabs on terms that have Israel consistently suing for peace yet making no firm demands on the Arabs. One does not negotiate with those who will only be satisfied by the destruction of Israel and the Jews...and the time has come cease any type of negotiations with 2026 just 3 years hence.

As to the Arab claim to the Promised Land I submit the words of Sir John William Dosson in his *Modern Science in Bible Lands* in 1888:

"Until today no people has succeeded in establishing national dominion in the Land of Israel. No national unity, in the spirit of nationalism, has acquired any hold there. The mixed multitude of itinerant tribes that managed to settle there did so on lease, as temporary residents. It seems that they await the return of the permanent residents of the land."

History is replete with references to a Jewish presence in what is now reestablished Israel not the least of which is the Christian bible and to a lesser extent the Jewish Tanakh. In truth the Issue has virtually nothing to do with the land beyond the boundaries of the Al-Aqsa Mosque intentionally built on the Temple Mount as it the way of Islamic conquest as exemplified by Istanbul's Hagia Sophia; a Greek Orthodox church founded in 360AD and later a Christian cathedral built in sixth century Constantinople; conquered by the Ottoman Empire in 1453 and converted to a mosque that served until 1935 when secularizing President Mustafa Kemal Atatürk transformed the building into a museum...only to have the current Islamist President Erdoğan declare it a mosque again.

The issue for the almost 2 billion Muslims around the world is not the land but the very existence of the Jews as Dennis Prager makes clear in an 2021 article title '*Middle East Dispute is About Religion, Not Land*'. Prager makes an astute observation when closing his argument:

"Westerners want to believe it is about land – in part because they are secular and think in secular terms. And in part because they need to believe that the dispute is about land. Only then can they blame Israel. If it were about a Muslim desire to destroy the Jewish state, they could no longer blame Israel. Even worse: They would have to blame Islamist fanaticism."

Importantly, Prager substantiates his thesis with an enumeration of facts answering the actual question:

The answer is this: The Muslims who seek Israel's destruction do so because Israel is Jewish, not because Israel occupies the West Bank or Gaza.

First, the Muslim world sought Israel's destruction from the day Israel was established in May 1948, before it occupied a centimeter of the West Bank or Gaza. Second, Israel does not occupy Gaza. Israel withdrew completely from Gaza 16 years ago. Third, the Palestinians rejected a state of their own at least four times:

Rejection No. 1: In 1937, the British Peel Commission offered the Arabs 80 percent of the geographical area known as Palestine. The Jews were offered 20 percent. The Arabs rejected it.

Rejection No. 2: In 1947, the Arabs rejected the United Nations partition plan.

Rejection No. 3: In 2000, at Camp David, Israeli Prime Minister Ehud Barak offered Palestinian leader Yasser Arafat a Palestinian state in all of Gaza and 94 percent of the West Bank *with East Jerusalem as its capital*. But Arafat rejected the offer. In the words of U.S. President Bill Clinton, Arafat was "here 14 days and said no to everything."

Rejection No. 4: In 2008, Israel tried again. Prime Minister Ehud Olmert went even further than Ehud Barak had, expanding the peace offer to include additional land to sweeten the deal. The Palestinians said no, again.

The reason for all these Palestinian/Arab rejections of a state of their own was that it meant a Jewish state in the Middle East still existed.

Contrary to the prevailing narrative the Israelis late coming colonialists nor are there "occupied" lands given Gaza, Judea and Samaria were captured during a defensive war and international law recognizes the right to retain territory if critical to defense (Ref: *Judea & Samaria – The Disputed Territories Fact Sheet* -The Endowment for Middle East Truth, February 2020) Finally, there is no "right of return" when the truth is the majority of Arabs displaced in 1948 left voluntarily...in many cases to clear the way for attacking Arab forces.

Consider the following quotes by Arab authorities compiled by Michael Davison in an article titled '*Who drove the Arabs out of the land of Palestine in 1947 and 1948?*' included in its entirety in that save for a few sentences to provide context there is nothing but quotes:

Why not listen to what Mahmoud Abbas had to say about it?

"The Arab armies entered Palestine to protect the Palestinians from the Zionist tyranny, but instead they abandoned them, forced them to emigrate and to leave their homeland, imposed upon them a political and ideological blockade and threw them into prisons similar to the ghettos in which the Jews used to live in Eastern Europe.

"The Arab states succeeded in scattering the Palestinian people and in destroying their unity. They did not recognize them as a unified people until the states of the world did so, and this is regrettable." – The Current President of the Palestinian authority- Abu Mazen (Mahmoud Abbas), from the official journal of the PLO, Falastin el-Thawra ("What We Have Learned and What We Should Do"), Beirut, March 1976.

Mahmoud Abbas: "We ran away at night"

A 1970 study by the Beirut Institute for Palestinian studies concluded that "68% of the Arabs in Palestine left their homes without ever hearing a shot fired or seeing a single Jewish soldier".

Were there expulsions? Yes, there were some, but the great majority of the Arab exodus from Palestine was encouraged by the governments of the surrounding Arab countries and the Higher Arab Committee for Palestine. Arab governments and media admitted this at the time, before it became politic to change the narrative:

"I do not want to impugn anybody but only to help the refugees. The fact that there are these refugees is the direct consequence of the Arab States in opposing partition and the Jewish State. The Arab States agreed upon this policy unanimously, and they must share in the solution of the problem." *Emil Ghoury, Secretary of the Arab Higher Committee, the official leader of the Palestinian Arabs, in a Beirut newspaper, also reported in the Daily Telegraph on September 6, 1948.*

"...The occupation of Palestine and of Tel Aviv would be as simple as a military promenade... the millions the Jews had spent on land and economic development would be easy booty, for it would be a simple matter to throw Jews into the Mediterranean... advice was given to the Arabs of Palestine to leave their land, homes, and property and to stay temporarily in neighboring fraternal states, lest the guns of the invading Arab armies mow them down..." (*General Secretary of the Arab League, Azzam Pasha as related by chief spokesman for the Arab League, Habib Issa -- (Al Hoda, June 8, 1951 - A NY Lebanese daily newspaper).*

"The Arab governments told us: Get out so that we can get in. So we got out, but they did not get in." (*Jordan Daily Newspaper, Ad Dijaa, September 6, 1954.*)

"The Arab civilians panicked and fled ignominiously. Villages were frequently abandoned before they were threatened by the progress of war." *General Glubb Pasha (the British officer who helped build the Transjordanian Army) wrote this in the London Daily Mail (August 12, 1948).*

"The Arab Exodus ...was not caused by the actual battle, but by the exaggerated description spread by the Arab leaders to incite them to fight the Jews. ...For the flight and fall of the other villages it is our leaders who are responsible because of their dissemination of rumors exaggerating Jewish crimes and describing them as atrocities in order to inflame the Arabs ... By spreading rumors of Jewish atrocities, killings of women and children etc., they instilled fear and terror in the hearts of the Arabs in Palestine, until they fled leaving their homes and properties to the enemy." – The Jordanian daily newspaper Al Urdun, April 9, 1953.

"The wholesale exodus was due partly to the belief of the Arabs, encouraged by the boasting of an unrealistic press and the irresponsible utterances of some of the Arab leaders that it could be only a matter of some weeks before the Jews were defeated by the armies of the Arab states, and the Palestinian Arabs enabled to re-enter and re- take possession of the country." – Edward Atiyah (Secretary of the Arab League, London, *The Arabs*, 1955, p. 183)

"The 15th May, 1948, arrived ... On that day the mufti of Jerusalem appealed to the Arabs of Palestine to leave the country, because the Arab armies were about to enter and fight in their stead." -- The Cairo daily Akhbar el Yom, October 12, 1963.

In listing the reasons for the Arab failure in 1948, Khaled al-Azm (Syrian Prime Minister) notes that "...the fifth factor was the call by the Arab governments to the inhabitants of Palestine to evacuate it (Palestine) and leave for the bordering Arab countries. Since 1948, it is we who have demanded the return of the refugees, while it is we who made them leave. We brought disaster upon a million Arab refugees by inviting them and bringing pressure on them to leave."

"We have accustomed them to begging...we have participated in lowering their morale and social level...Then we exploited them in executing crimes of murder, arson and throwing stones upon men, women and children...all this in the service of political purposes..."-- Khaled el-Azm, Syrian prime minister after the 1948 War, in his 1972 memoirs, published in 1973.

All these quotes give the lie to the Arab claim that only Israel is responsible for the existence of the Palestinian refugees for the past 70 years, when the Arab countries themselves had a major hand in it.

On the other hand, after 1948 over 1 million Jews were expelled from Arab countries in no uncertain terms as detailed in another must read article titled *The expulsion of Jews from Arab countries and Iran—an untold history* by Andrea Mifano, February 2021...an excerpt of which is provided for treatment comparison:

Until the 1960s, approximately one million Jews lived in Iran and other Arab countries having arrived in the region more than 2,000 years before. Nowadays, it is estimated that only around 15,000 remain, as the majority of the Jewish population in Muslim lands were forced to flee their homes in the years following the establishment of the State of Israel. This mass expulsion and exodus is part of modern history, but inexplicably, it's neither taught at schools nor remembered within the context of the conflicts in the Middle East.

Despite the positive influence that Jews brought to the places where they lived, more than 850,000 Jews were forced to leave their homes in Egypt, Lebanon, Syria, Iraq, Yemen, Libya, Morocco, and several other Arab countries in the 20 years that followed the Arab-Israeli war of 1948. Another major forced migration took place from Iran in 1979–80, following the Iranian Revolution and the collapse of the shah's regime, adding 70,000 more Jewish refugees to this number.

In 1947, the Political Committee of the Arab League (League of Arab States) drafted a law that was to govern the legal status of Jewish residents in all of its member states. This Draft Law of the Arab League provided that "...all Jews – with the exception of citizens of non-Arab countries – were to be considered members of the Jewish 'minority state of Palestine'; that their bank accounts would be frozen and used to finance resistance to 'Zionist ambitions in Palestine; Jews believed to be active Zionists would be interned as political prisoners and their assets confiscated; only Jews who accept active service in Arab armies or place themselves at the disposal of these armies would be considered 'Arabs.'"

The one million number dwarfs the approximately 700,000 Arab refugees after 1948; a number that has grown to over 7 million when for the first time the definition of refugee expanded to include the descendants...refugee became hereditary. Perhaps Eric Hoffer captured the situation in one observation:

"The Jews are a peculiar people: Things permitted to other nations are forbidden to the Jews.

Other nations drive out thousands, even millions of people, and there is no refugee problem. Russia did it. Poland and Czechoslovakia did it. Turkey threw out a million Greeks and Algeria a million Frenchmen. Indonesia threw out heaven knows how many Chinese--and no one says a word about refugees.

But in the case of Israel, the displaced Arabs have become eternal refugees. Everyone insists that Israel must take back every single Arab. Arnold Toynbee calls the displacement of the Arabs an atrocity greater than any committed by the Nazis. Other nations when victorious on the battlefield dictate peace terms. But when Israel is victorious it must sue for peace.

Everyone expects the Jews to be the only real Christians in this world."

The Narrative devoid of the truth is what drives all the nations of the world aligned against Israel and perhaps the most dangerous nation after Iran is Turkey as Charles Krauthammer touched upon in the aforementioned article The Truth about Gaza:

"We as Turkey and myself -- as long as I am in charge -- can never have a positive view of Israel," Erdogan said in 2014. "The obvious reality is that Israel is the country that threatens peace in the world and in the Middle East."

Erdogan and his chief military advisor are obviously engaging in projection. It is Turkey that has ethnically cleansed itself of Greeks, Assyrians and Armenians, that refuses to recognize the religious rights of the Alevi minority and that is now targeting Syrian Kurds. It is the Turkish government's continued aggression against various peoples in Israel, Syria, Iraq, Cyprus and other countries that is a threat to world peace, not Israel. It is Turkey, not Israel, whose destabilizing foreign policy needs to change.

Erdogan has been aggressively reintroducing Islam to a once secular Turkish military and just four years ago advocated the creation of an Islamic Army to destroy Israel as detailed in a March 2018 Jerusalem Post article titled *"Army Of Islam": Erdogan's Plot Against Israel* by DR. Alon Ben-Meir. It would seem the European Union and NATO would still embrace Erdogan and Turkey...a grave mistake that can be explained by the distinctly Marxian tilt western governments have embraced in the last decades.

If one seriously wants to understand the creation of false narratives then a November 20, 2020 New York Sun article titled *Obama on Israel: Broken Promise, Full of Falsehoods* by Dov Lipman exploring Barak Obama's book *A Promised Land* is indispensable. It is a title meant to signal Marxianity how to advance an anti-Israel narrative devoid of any respect for the actual Promised Land. Obama would have more credibility had he stressed that there is no such thing as independent and identifiable "Palestinian people" but rather Arabs given a political identity in 1964 with the founding of the Marxist Palestine Liberation Organization to create a narrative.

The Narrative: Occupying Apartheid Colonialists

"You can sway a thousand men by appealing to their prejudices quicker than you can convince one man by logic."
Robert A. Heinlein, *Revolt in 2100/Methuselah's Children*

Those who will disparage and denigrate writings by human detritus chosen to be a faithful emissary will point to the numerous writings and quotes by better minds but in doing so they will be missing the point; God graced me with the ability to see patterns fusing history, mathematics and Judaic scripture even to the point of predicting earthquakes i.e. I recognize certain writings out of tens of thousands that allow for ploughmen to understand.

One of those writings is *Narratives pave the way for endless war against Israel –analysis* by Seth J. Frantzman for the Jerusalem Post dated May 2021. It too is included in its entirety:

Together with the argument that Palestinians have a "right" to resist and that all of Israel is "occupied", this presents a case for endless war against Israel excused and justified.

The goal of recent discussions about the war between Israel and Hamas has sought to shift the discussion from one about Hamas rockets and Israeli airstrikes, to a discussion of the "right to resist" and whether all of Israel is "occupied" and a "settler" state. This narrative push has been made among western critics of Israel and by state media such as Turkey's TRT as well as popular politicians and media in English, Arabic and other languages.

For instance, The New Arab in the UK has an article about clashes in "occupied Haifa." It speaks of the "Zionist criminals" and their "independence," an apparent reference to Israel's independence day. The increase in the view that all of Israel is "occupied" and reference to Israel as a "settler" state or even claims that Jewish far-right mobs are "Jewish white supremacists," as one person called them, is part of a narrative that portrays every Israeli as foreign. Arabs in Israel are called "48 Arabs" in this narrative, as if time stopped when Israel was created and they await the return to that time.

Alexandria Ocasio-Cortez, the member of Congress said in the House of Representatives that the current conflict "is not about both sides. This is about an imbalance of power...The president stated that Israel has a right to self-defense...But do Palestinians have a right to survive?" That would indicate that Hamas rockets are "self-defense"?

Other discussions about the recent conflict have argued that Israel uses disproportionate force. Another member of Congress suggested that Palestinians need US-supplied air defense. Together with the argument that Palestinians have a "right" to resist and that all of Israel is "occupied", this presents a case for endless war against Israel excused and justified as some kind of right. Proportionate response means Hamas can fire rockets whenever it wants and put millions in bomb shelters and suffer no real consequences. For instance, in the early days of the recent conflict there was controversy about Israel targeting buildings in Gaza. Can a military target a building that civilians might live near or be in? The argument shifted to positing that Hamas has a right to target Israeli cities because of the presence of some Israeli military in them. In short, Israel cannot target a building in Gaza, but Hamas has a right to indiscriminate "resistance" rocket fire against everywhere in Israel. Israel must only do a proportionate response to the rockets.

The overall logic here presents a case for endless justified terror war on Israel. Rockets are seen as "resistance" and Palestinians have a "right to resist occupation," some voices say. For instance Susan Sarandon, the celebrity, posted on social media some supposed facts about the conflict. In the question and answer, the question is posed whether there is a "conflict" and the answer is "what is happening in Palestine is settler colonialism, military occupation, land theft and ethnic cleansing." Palestinians are "colonized" and "oppressed" in the telling. That means there is no "conflict" because apparently when the "oppressed" fire missiles at cities killing civilians it is an acceptable method of fighting "colonialism."

Another argument in favor of this narrative presents it in the following way: "As events in Israeli occupied east Jerusalem and Gaza have illustrated, today in Palestine, no home is safe, no civic institution secure, no holy site sacred as long as the promise of the Palestinians' inalienable rights, including the right to return remains unfulfilled." This was written on the website of Medical Aid for Palestinians. It would appear to mean that until every claim of Palestinians is fulfilled, including millions of Palestinian descendants of those who fled in the 1948 war "return" then there can be no peace. Once again, this is about setting the clock back to 1948.

Another criticism raised in the US is against military aid to Israel, part of a ten-year package that is more than three billion a year. This money is spent primarily in the US on US defense products. However the critics say that it should be ended or it should be used as leverage to get Israel to stop its airstrikes. This appears to mean that while Hamas can fire 2,500 rockets at Israel, as punishment for the Hamas rocket fire, Israel shouldn't receive military aid. It was unclear if the more Hamas rockets fired, the more aid would be reduced, in this line of argument.

Between this article and that of Charles Krauthammer the outrageous double standard so loved by Marxianity is obvious. What is not so obvious are the machinations of entities such as the Boycott, Divestment, and Sanctions (BDS) movement and Amnesty International...which is essentially an international version of the American Civil Liberties Union and like Human Rights Watch embraces a Marxian Motte and Bailey strategy to deceive; human rights are worth fighting for but when Israel is the primary target a pattern emerges. There are two articles that are capable of the definition needed: *The 'Peaceful' Movement to Destroy Israel* by Yosef Kuperwasser for Tablet, May 2019 and *Amnesty International's Campaign to Destroy Israel* by Justin Danilewitz for Commentary, May 2022.

My writings are designed to inform as to facts, define as to evil and to provide workable solutions in the short time left between now and July 4th 2026. I have made it clear that a two state solution that cedes even one square inch of the land promised to Abraham, Isaac and Jacob is not only dangerous for those Arabs who remain but also dangerous for any Israeli who supports doing so. That being said, just as God has His own 1619 Project in the African Exodus so too an offer of peace with terms extended to Ishmaelites as they are in fact brothers from another mother.

It is incumbent upon Muslims and Islamic scholars to recognize the faithful emissary owes his sole allegiance to the God of Abraham and not to religion in that He Who Is has left no room for argument. Muslims are family and need only stand down and wait for 2026 at which time the truth will be known but there are outstanding debts and wrongs to be righted; better paid and corrected before judgment that will begin in 2026.

Arab-Israeli Conflict; a Two State Solution by the Numbers

It can be argued the right of Israel to exist more than any other nation carries the weight of international law; laws that pale in comparison to the "Laws of Nature and of Nature's God". How many times will those who attack the House of Israel be destroyed before the world admits the hand of God? Sir Isaac Newton was no fool and realized history is best understood in the context of Maimonides...one can only learn about God indirectly; through his actions and dominion; plain to see at ground level in 1948-49, 1967 and 1973.

Newton was not the only mathematician who recognized the overwhelming odds arrayed against the Jews across history and yet the Jews not only survived but thrived. Blaise Pascal developed the probabilities mathematics that validate the Convergence Matrix; Pascal who had a vision and wrote "GOD of Abraham, GOD of Isaac, GOD of Jacob not of the philosophers and of the learned. Certitude. Certitude."

"This people are not eminent solely by their antiquity, but are also singular by their duration, which has always continued from their origin till now. For, whereas the nations of Greece and of Italy, of Lacedaemon, of Athens and of Rome, and others who came long after, have long since perished, these ever remain, and in spite of the endeavors of many powerful kings who have a hundred times tried to destroy them, as their historians testify, and as it is easy to conjecture from the natural order of things during so long a space of years, they have nevertheless been preserved (and this preservation has been foretold); and extending from the earliest times to the latest, their history comprehends in its duration all our histories (which it preceded by a long time)."

Blaise Pascal (1623-1662) *Pensees*

What has the world learned? Nothing...Israel has been reestablished as prophesized more than 2500 years ago and the numerous efforts to defeat her on the battlefield were *miraculously* thwarted many times over and yet the Arab world to this day refuses to accept the existence of a Jewish state even if it were confined to ten square blocks of a Jerusalem suburb. If one points to the signed peace agreements between Israel, Jordan and Egypt what fools you are given both Islamic countries continue to promote "death to the Jews".

The Abraham Accords are no different save for one respect; Sunni Islam is beginning to recognize the evil that is Shiite Iran beyond the Euphrates poses a greater threat than the House of Israel. That is the view from ground level where the purchase of F-35 fighters and being removed from the list of state sponsors of terrorism holds sway in the backrooms but the view from the higher vantage is quite different; every treaty and accord would be disposed of if the Arabs believe there is a better offer elsewhere that included the destruction of Israel.

In 2005 Israel removed all its troops and forcefully evicted the Jewish inhabitants from Gaza in a foolish land for peace gambit; hoping the Gaza Strip would transform into a flourishing Arab Riviera. The road to hell is paved with good intentions and extremely bad planning; the experiment failed miserably. In Gaza, Israel willingly gave up their right to a piece of land that God promised to Abraham...and Hamas rejected any thought of peace but rather, as one journalist said, took the concession as a sign that if you keep on shooting at Jews they leave...so let's keep shooting.

The same mindset, land for peace, continues to permeate the secular west and as such most ignore the reality that with Gaza the result was a military base for Islamists committed to Israel's destruction; land for peace the secular west is convinced will work simply because they cannot grasp the conflict is intractably religious.

Nowhere is the fallacy as deep and dangerous as the Israeli left that managed to engineer the removal of Benjamin Netanyahu just as the left managed in the United States with Trump; the two men the matrices more than suggest were chosen by God for end of days to purchase time to organize and fight. In the case of Trump the evil that is Marxianity was successful but Netanyahu has returned.

The secular mindset has even affected the thinking of Zionists who debate what to do about the West Bank with opinions ranging from full annexation, unilateral withdrawal as in Gaza, a combined Palestinian state or some mix that will satisfy the Arabs and international community. Accept once and for all time; trading Israeli land for peace is no longer an option.

What none dare to speak about but now must be trumpeted from the rooftops is upon us; the politicians in Israel and around the world have no authority to negotiate away any of the lands promised to Abraham, Isaac and Jacob; Numbers 33:55-56 is operative and whether blacks who identify as black before American, Muslims in Europe or Arabs in the land promised...none should be out of place in 2026.

"But if you do not drive out the inhabitants of the Land from before you, then those whom you leave over will be as spikes in your eyes and thorns in your sides, and they will harass you in the land in which you settle. And it will be that what I had intended to do to them, I will do to you."

There is no way to soften the blow of what will be; Yeshua will return as Mashiach in 2026 at which time the Israel promised to Abraham, Isaac and Jacob will become a reality. There will be no better offer than this offer of peace with terms; the God of Abraham, Sinai, Yeshua and 1776 is letting Islam know that with the Convergence Matrix the only escape route is a great Sunni nation...brought into being by the *Sovereign Israel/Ishmael Treaty*.

The end of days have arrived and with less than four years remaining the blows cannot be softened, but impact on the ground can be mitigated by the numbers; six million is a reoccurring number that cannot be ignored.

There are six million practicing Jews in Israel. There are six million Arabs in Gaza, the West Bank and Israel proper. There are six million in Lebanon who need not be concerned about 2026 as long as they do not engage or enable attacks on Israel. There are six million whites in Africa to be evacuated in exchange for six million blacks in America who identify as black before American returning in the African Exodus to build a great African nation. And finally, between the United States and Europe there are six million Jews that must make Aliyah to Israel before 2026.

Six million is not the only numerical "coincidence" as it concerns a common sense solution to the "Palestinian" issue; when one calculates the length of the coastline going north from Lebanon including the Tartus/Latakia Governorates of Syria combined with the Hatay (appendix) Province of Turkey it constitutes a strip of land on the Mediterranean that equals Israel's shoreline. As to land the Tartus Governorate is 731 sq. mi. / the Latakia Governorate is 887 sq. mi. / the Hatay Province is 2133 sq. mi. for a total of 3751 sq. mi. far exceeding the 1450 sq. mi. of arable land in Israel...enough shoreline to create an Arab Riviera and enough land to absorb the every Palestinian and Muslim in Europe wise enough to recognize mathematics incapable of deceit.

Hatay Province is a dirty little secret kept quiet and away from outside eyes; Hatay was annexed in 1939 within a year of the death of Turkey's founder Ataturk who recognized it as a Syrian province and since then has remained an unresolved issue...until now.

Land for peace has been a mantra for decades as have the two state and one state "solutions" and all have failed miserably. It is both reasonable and logical a just God of Sinai would impose upon Islam the definition of justice they themselves imposed upon Israel. The land for peace solution requires detaching the festering appendix that is Hatay Province from Turkey to be joined with Tartus and Latakia to create a federal district much like the District of Columbia; the capitol of *Ishmael*.

It is incumbent upon the House of Saud to take the lead and join with the Jordanian, Omani, Bahraini, Kuwaiti, Qatari and Emirates royal families in that Genesis 17:20 is clear; "And regarding Ishmael, I have heard you; behold I have blessed him, and I will make him fruitful, and I will multiply him exceedingly; he will beget twelve princes, and I will make him into a great nation". The only question is the identities of the twelve princes; twelve Ishmaelite princes chosen from the royal families who have faith God does not err.

Sunni scholars know the Torah and with the immutable mathematics of the matrices can see the writing on the wall made clear; any serious attempt to destroy Israel will result in a cataclysm Mecca and Medina would not survive...yet Iran is willing to create a cataclysm to prompt the reappearance of the 12th Imam. Ironically, it will take a great statesman as the Mahdi is described to unite Sunni Arabs behind an idea whose time has come; an Arab Riviera and the capitol of a great Ishmaelite nation...at peace with each other, their half-brothers in the House of Israel and the Jews of the Lesser House of Judah Christianity.

The primary impediment to the nation of Ishmael will be the establishment elites in the west incapable of conceding royalty is at times preferable to democracy and two secular tyrants; Recep Erdogan of Turkey and Bashar al-Assad of Syria who will demand what they should not. That evil exists to test reason is evidenced by the two tyrants; of all the countries and kingdoms in the Middle East *what are the chances* these two would be positioned to block the creation of a federal district where the best minds and funding of Ishmaelite royalty could build a capitol for the Ishmaelite nation?

Bashar al-Assad will likely step aside or join the effort when the idea of a great Ishmaelite nation takes hold of imaginations as to what can be, but not Recep Erdogan who will align with Iran and China, the final obstacle to world peace, to oppose any land for peace idea that would be tantamount to ending the Islamic effort to destroy Israel. Erdogan sees himself as the leader of an Islamic army that would destroy Israel.

Erdogan would rather die and take his people with him rather than admit a bold solution to the Arab/Israeli conflict must necessarily include a place Palestinians can call home and the only way to right the wrongs caused by the pens of British map makers 100 years ago...so too a homeland for the Kurds cut from Turkey, Syria and Iraq. This is the last opportunity for Turkey to earn redemption for the Armenian genocide and Erdogan for his false pride.

It is only within the context of a nascent Ishmaelite nation led by the House of Saud that peace unto 2026 is possible but the royal families will not be alone. There are upwards of 60 million displaced people in the world and talk of civil war is common. The question for humanity is simple; how much effort and treasure are the nations of the world willing to pay to end the Arab/Israeli conflict and make the African Exodus a reality before a spark ignites a conflagration thus forcing the hand of a wrathful God of Abraham?

Like the African Exodus it begins with embracing an identity that speaks to a history of belonging; for black making the Exodus it is citizens of Africa, Africans, and for Arabs citizens of Ishmael...Ishmaelites. There is nothing to stop an army of architects, engineers and planners from creating the plans for both Africa and Ishmael in short order; plans that will provide a vision of what can be; plans that will provide a path to destiny for people in need of something to believe in; plans for a world of meaning and purpose...in lockstep with the God of Abraham close and getting closer every day.

Predicting the July 21st Aleutian earthquake and the message therein were not difficult but the prospect of six million Jews making Aliyah will be difficult for many...but unavoidable. God will be writing as many messages in the ink of natural phenomenon as necessary between now and the end of time as it is understood...with each one making clear there is no time to waste.

Those with eyes to see and ears to hear, those looking to the oracle of reason, have come to realize the July 4th 2026 date is an act of grace; a date that can only be reached if mankind deserves forbearance. Should there be a conflagration in the interim He Who Is will intervene as necessary...and all those now being offered redemption will have squandered the act of grace.

Remember, look to the mathematics; Sir Isaac Newton knew long before 1948 the Jews would return to Israel. In his *Observations upon the Prophecies of Daniel and the Apocalypse of St. John*, first published five years after his death, Newton wrote "...since the commandment to return precedes the Messiah...it may perhaps come forth not from the Jews themselves, but from some other kingdom friendly to them, and precede their return from captivity and give occasion to it...The manner I know not. Let time be the interpreter".

Time, as history fused with the mathematics of Pascal and guided by Judaic scripture, has indeed interpreted; the third direct intervention in 1776 gave the world the United States and Israel reestablished. That truth alone should be enough to convince a cynical world the plan set forth by the God of Abraham is nearing an end...and the time has come to embrace certitude, a healthy fear of God and learning to walk the walk of a righteous individual.

For those who ignore the act of grace that is the Convergence Matrix there is Zechariah 12:1-9; the sleeping giant that is a wayward United States will rise as a "...fiery stove among wood, and as a brand of fire among sheaves". It begins with reminding the church that never was Yeshua was quite clear: "Do not think that I have come to bring peace to the earth. I have not come to bring peace, but a sword."

The Convergence Matrix is a unique and once in history offer of peace with terms extended to humanity in a way that aligns the history of mankind to the mind of HaShem. The United States is central to a self-evident plan and one need only ponder what would be the logical last step in the long journey to ascendance. I would posit America must make it clear Israel is nonnegotiable; a defense treaty.

Defense of Israel Treaty

"Farther I could find it in my heart to wish that you had been at the head of a hundred thousand Israelites ... and marching with them into Judea and making a conquest of that country and restoring your nation to the dominion of it. For I really wish the Jews again in Judea an independent nation"

John Adams in a letter to Mordechai Manuel Noah

Ironically, or perhaps not so much, roughly a hundred thousand newly minted Israelis fought in the 1948-49 war of independence. Less coincidence than prophetic given John Adams is one half of the key along with Thomas Jefferson that opened the Convergence Matrix. That is the view from the higher vantage which also reveals there is more to eye than climate change as it concerns the destruction of American energy independence under the Biden administration.

The fact that China has 1110 coal fired electrical generation plants and building more versus 240 for the United States and there are over 280 million privately owned vehicles registered in China, more than in the US as of 2022, reveals the Marxian climate agenda is more about control than climate. Do you realize that for 50 years the United States has refrained from an open alliance with Israel out of fear of retribution from the oil rich Islamic states of the Middle East?

During the Trump administration energy independence became a reality and the political leverage resulted in the Abraham Accords. With the Biden war on energy producers and the pressure upon financial services to cease funding exploration and construction of energy infrastructure the only real policy impact is empowering the Arab oil producers which might inform as to the actual reason for the 'climate change' push; dependence has always been a primary tool in the hands of the evil that is Marxianity.

As long as the threat of another oil embargo on the scale of 1973 in response to American support for Israel during the Yom Kippur War exists there will never be a resolution of the Arab/Israeli conflict...a conflict that will continue until there is a defense treaty with Israel. If the choice has to be made between continuing a lifestyle or making the choices that are being demanded at this critical time, including fulfilling America's very commission unto G^d, I'm afraid far too many Americans "When faced with two equally tough choices, most people choose the third choice: to not choose." — Jarod Kintz, *This Book Title is Invisible*

Unfortunately, there are no real choices; the United States must either rise or fall. America either stands with Israel against the evils that are Islam and Marxianity or face the wrath of God. The most formidable obstacle to making the difficult but necessary penultimate choice in favor of God and Israel is a definition that dates back to Jimmy Carter. No fan of Israel, Carter commissioned a memo that established a policy foundation deeming the presence of Israel in Judea and Samaria an "occupation" that lasted until President Trump but with Biden, nee Obama, the memo is once again determining policy.

The following is from a piece for the Wall Street Journal titled "*Israeli settlements in the West Bank do not violate international law*," according to Eugene Kontorovich" ; Professor of Law with George Mason University's Antonin Scalia School of Law:

For decades, Israel's detractors have appealed to consensus, asserting that settlements are illegal because the entire international community agrees they are illegal. As with Jerusalem and the Golan Heights, the Trump administration has refused to be cowed by a hollow consensus. By dissenting, the U.S. has destroyed both the consensus and the frail arguments that relied on it.

The four-page 1978 memo, written by legal adviser Herbert Hansell, was hardly a thorough study. It painted with broad strokes across several issues and cited no precedent for its key conclusions. Most important, its legal analysis of occupation and settlements has never been applied, by the U.S. or anyone else, to any other comparable situation.

Hansell's memo took two analytic steps. First, it concluded that Israel was an "occupying power" in the West Bank. Next, it invoked an obscure provision of the Fourth Geneva Convention, which says the "Occupying Power shall not deport or transfer parts of its civilian population into the territory it occupies." Hansell concluded that Jews who have moved past the Green Line into disputed territory have somehow been "deported or transferred" there by the state of Israel.

Under international law, occupation occurs when a country takes over the sovereign territory of another country. But the West Bank was never part of Jordan, which seized it in 1949 and ethnically cleansed its entire Jewish population. Nor was it ever the site of an Arab Palestinian state.

While President Reagan did not embrace the Hansel memorandum in its entirety its anti-Israel tenor was a convenient fit for his refusal to confront Iranian proxy terror including the Beirut Marine barracks bombing and the French and American embassy bombings. The administrations of Bush I, Clinton, Bush II and Obama toed the Carter line in blaming Israel's "occupation" of the Golan Heights, Judea, Samaria and East Jerusalem for the instability and unrest in the Middle East. Obama embraced the memo and its conclusions even to the point of enabling the UN Security Council declare the existence of Jewish communities beyond the 1949 armistice lines has "no legal validity" on his way out the door in December 2016.

If the American people rise as the Judeo-Christian Nation and demand a defense treaty with Israel it will draw all of the enemies of the Constitution, Israel and our Creator out from the shadows. First, eliminate the NATO treaty with its obligation to Islamic Turkey then draw up a defense treaty with Israel that states unequivocally that an attack on Israel is an attack on the United States because for the first time, in very real terms, that well-worn phrase would be correct.

This is where "the rubber meets the road" in that there is one department of government that has been compromised but not beyond the principles and history that made it great; the Defense Department and all members of every branch of the military. My reference to principles and history goes to the "gut instinct" Americans retain as to what freedom actually is and those who volunteer to go into harm's way can be expected to someday make life or death decisions. I am about to suggest that a decision will have to be made before too long and pray all understand what is at stake.

If at any time President Biden orders any kind of military action against the state of Israel then refuse and obstruct in any way possible. Officers bear a greater responsibility as has been the nature of service from time immemorial but what is actually at stake is your very oath to protect and defend the Constitution of the United States. The responsibility is doubly taken in that the Constitution bears the actual imprimatur of G+d. All need only ask if our Creator would sanction an attack on his first great human creation; the Holy Nation; the Jews.

"I will insist the Hebrews have [contributed] more to civilize men than any other nation. If I was an atheist and believed in blind eternal fate, I should still believe that fate had ordained the Jews to be the most essential instrument for civilizing the nations ... They are the most glorious nation that ever inhabited this Earth. The Romans and their empire were but a bubble in comparison to the Jews. They have given religion to three-quarters of the globe and have influenced the affairs of mankind more and more happily than any other nation, ancient or modern."

John Adams, letter to F. A. Van der Kemp, 1808

Know your enemy as Sun Tzu advised...and know your enemy is Islam and the false religion of human intellectual arrogance Marxianity in the guise of "progressives". The Biden administration will soon be pressuring Israel to relinquish half of Jerusalem and the west bank in return for a specious concession from Islam that Israel has a right to exist without forfeiting the specious "right of return". Israel must not concede.

Islam is not a “religion of peace” but rather a political ideology of conquest posing as a religion and as for those within Marxianity who would again demand Americans take a knee in support of the “oppressed” it must be said that any government willing to do injury to citizens for political reasons using the agency of governance, as is the case of lost energy independence, is not worthy of the Constitution. That single phrase disqualifies Islam and Marxianity from being welcome in the United States and Thomas Jefferson made clear the extent to which Americans can go to achieve that goal.

“Society [has] a right to erase from the roll of its members anyone who rendered his own existence inconsistent with theirs; to withdraw from him the protection of their laws, and to remove him from among them by exile, or even by death if necessary.” Thomas Jefferson to L. H. Girardin, 1815

America was blessed for a reason and the reason was the reestablishment of Israel and its protection unto 2026 with Yeshua in Jerusalem. With anti-Semitism growing and support for Israel waning within Marxian circles there is only one way to insure the blessings of the God of Abraham/Sinai, Yeshua and 1776 continue and that is a mutual defense treaty between the United States and Israel concurrent with the Israel/Ishmael Treaty and cashing in the NATO investment to secure lasting peace with Russia; the Swords to Ploughshares Treaty.

The Treaty

“On your walls, O Jerusalem, I have appointed watchmen; all day and all night, they shall never be silent; those who remind the Lord, be not silent. And give Him no rest, until He establishes and until He makes Jerusalem a praise in the land.”
Isaiah 62:6-7

The *Defense of Israel Treaty* would change every domestic political and foreign policy equation around the world by announcing the idea Israel can be destroyed is no longer an option and the United States is no longer willing to overlook the fact the current borders of Israel are the direct result of previous failed attempts to destroy the Jewish nation. Those who have tried to destroy Israel are not entitled to recompense.

The process would begin with an official policy statement endorsing a two state solution; Israel and the state of Ishmael. Israel, Sunni Islam and the United States will no longer be bound the Camp David and Oslo accords thus withdrawing recognition of a distinct “Palestinian” people with a right to a state of their own on the lands promised to Abraham, Isaac and Jacob or a “right of return”. Instead, people who have been used as pawns by evil incarnate will be moved on the chessboard to a place where they will have a new beginning in a world without war; the federal district of the nascent great Ishmaelite nation. Be that as it may, the defense of Israel is nonnegotiable in the interim and to strike Israel is to strike the United States.

Preliminary details:

1. The United States would formally recognize the Golan Heights, Judea and Samaria on the West Bank and Gaza on the Mediterranean as within the borders of Israel.
2. The US State Department would initiate negotiations to secure the land needed for the Israel/Ishmael treaty while also soliciting plans for infrastructure and migration from Europe. It will take decades to build the Ishmaelite Mediterranean Riviera but those involved will be blessed come 2026.
3. Any and all Islamist organization bearing arms against Israel would be declared enemy combatants by the United States and any nation supporting them will face sanctions and loss of diplomatic recognition.
4. Israel would be recognized as a top tier ally with attendant benefits accruing with all current debts owed to US agencies forgiven.
5. The treaty would supersede the 2016 Memoranda of Understanding (MOUs) with enhanced provisions reflecting top tier ally status.
6. Direct aid would be increased to \$10B per year for 3 years with an additional \$2B for immigration related expenses; Aliyah will begin in earnest with the Israel/Ishmael and defense treaties.
7. Israel would be required to withdraw from existing development and port agreements with China in addition to imposing strict military and dual use technology transfer restrictions.
8. The United States would guarantee the territorial integrity of Israel up to and including the use of military force to confront and defeat external threats, however, no ground troops would be deployed in Israel proper to engage in combat unless and existential threat to Israel is determined.
9. Israel would agree to allow ingress and egress of special operations units, use of ports, airspace and landing rights to support missions determined to be necessary by the armed forces of the United States.
10. Israel would not be required to consult or seek approval from the United States to engage in preemptive military strikes Israel deems necessary to insure national security interests, however, the United States would be able to scale immediate subsequent support related to the strikes commensurate with the justification, notwithstanding the essential treaty commitments.
11. The American nuclear umbrella would be extended over Israel; a nuclear attack on Israel would be considered a nuclear attack on the United States and the response would be immediate.
12. The President will not have the authority to abrogate or modify the Defense of Israel Treaty and would be required to act with all due haste to deal with threats against Israel within two days.

There is no time to continue the endless and entirely useless talk that refuses to concede the obvious; it was the Arabs who massed on the borders in 1948 with the stated intention of driving the Israelis into the sea; it was Jordan that occupied the west bank and then annexed it against international law in 1950; it was the Arabs who once again massed on the Israeli border in 1967 precipitating a defensive war...and it has been the Arabs who since 1948 have never retreated from the Arab League "Three No's"; no peace with Israel, no recognition of Israel's right to exist and no negotiations.

The counteroffer of the United States with just three and one half year remaining should rightly be peace is no longer negotiable; the Arab Ishmaelites have no choice but to recognize Israel's right to exist when the United States is guaranteeing said right even to the point of armed conflict...that will be inevitable if Erdogan manages to create an Islamic army. The war between brothers from another mother must come to an end.

There is but one God and He has set July 4th 2026 as the date of His long awaited intervention and as such the focus should be those who are out of place entirely due to the machinations of Marxianity; Muslims in Europe, Hispanics in the United States, blacks who identify as black before American...and the six million Jews who have been called upon in no uncertain terms to make Aliyah. The words of Deuteronomy 4:26-30 none should ignore have come to pass.

I call as witness against you this very day the heaven and the earth, that you will speedily and utterly perish from the land to which you cross the Jordan, to possess; you will not prolong your days upon it, but will be utterly destroyed. And the Lord will scatter you among the peoples, and you will remain few in number among the nations to where the Lord will lead you. And there you will worship gods, man's handiwork, wood and stone, which neither see, hear, eat, nor smell. And from there you will seek the Lord your God, and you will find Him, if you seek Him with all your heart and with all your soul. When you are distressed, and all these things happen upon you in the end of days, then you will return to the Lord your God and obey Him.

It is no coincidence the first half of the scriptures addressing the distant past is almost exactly equal in word number as the second half that every Jew should recognize as the America of today. If unconvinced of the significance and the choice the House of Israel in America will have to make I would refer all to *The Collapse; Is this the end of American Jewry's golden age?* by Adam Garfinkle for Tablet April 2019.

The Last Move; Checkmate HaShem

"And say to them, So says the Lord God: Behold I will take the children of Israel from among the nations where they have gone, and I will gather them from every side, and I will bring them to their land. And I will make them into one nation in the land upon the mountains of Israel, and one king shall be to them all as a king; and they shall no longer be two nations, neither shall they be divided into two kingdoms anymore"
Ezekiel 37:21-22

Throughout history there were times and ideas within the Holy Nation wherein Jews proved to be their own worst enemies...but that must end with the Convergence Matrix. I am very aware of Jewish sects such as the Neturei Karta and Satmar Hasidism that misinterpret Rashi and the words of the Midrash which were designed to provide guidance to a displaced nation over the span of 2000 years with assurances God has not tarried but rather there is a time for all things i.e. do not join together collectively and march on the Promised Land as John Adams would have it but rather abjure physical force including rebelling against the nations that took them in with the hope doing so would hasten the end. Rather, turn away from the ways of the world and patiently have faith that at the appointed time HaShem would miraculously intervene and Israel would be reestablished.

What now after God has revealed the Convergence Matrix? What now after God has revealed Yeshua to be a as a precisely defined messiah of purpose and a quintessential Jew that poses no threat to Judaism? What now when mathematics leave no doubt as to the truth of a plan for the ascendance of mankind led by the Holy Nation? What now after God has revealed the birth of Abraham in 1948 Judaism and the reestablishment of Israel in 1948 Gregorian is not a coincidence but rather evidence of His hand throughout history?

The pious Orthodox rabbis, the *haredim*, have a major problem when equating Zionism to secular or political nationalism which goes to the words of Torah adhering rabbi Yeshua who famously said "Render unto Caesar all that is Caesar's and unto God all that is Gods"; Jehovah's Witnesses are not exempt from the truth. The United States is provably God's country as is Israel and like the intentionally marginalizing label "Christian nationalist" it is a virtual requirement to be both Christian and nationalist...so too Jewish Zionist in these the last days.

The pious Orthodox rabbis, the *haredim*, also have a major problem when it comes to recognizing and admitting the evil that is the false religion of human intellectual arrogance not only exists but is committed to eliminating Christians and Jews. The legal vehicle they are using at the moment is a parallel constitution created by the Civil Rights Act and a wildly expanded reading of the 14th Amendment that has been used for decades to violate the freedom of others in the name of equity, anti-racism and anti-discrimination.

What few recognize is that while the moral arguments made by the likes of the *haredim* to fight discrimination based upon innate characteristics are easy to make, behavior, which the moral laws of the Torah address, are such that justification requires the destruction of the Torah; the rejection of a basis for moral disapproval of a behavior is critical to justifying the license Marxianity requires.

The Supreme Court made a horrendous error when equating sexual preference to race and now society is being subjected to a requirement to allow biological males to compete against biological females in sports i.e. the rejection of the "Laws of Nature and of Nature's God". What are the implications? Marxianity has succeeded in establishing government as a god, deciding what is right and wrong...and shoving the beliefs down the throat of every cog in the fascist machine they created e.g. you will celebrate the alphabet of sexual perversion, gender identity and all things white as worthy of discrimination. The lesson to be learned is simple; first they came for...

There are a number of organizations and Israeli government services to assist Jews in making Aliyah but like the African Exodus it will require a whole of government, a whole of society and a whole earth effort to insure all are where they belong before July 4th 2026. I pray HaShem does write a message in the ink of natural phenomenon on January 1st or 2nd and that it is so spectacular it cannot be ignored.

Perhaps a Betelgeuse supernova? One cannot know but a supernova is the needed scale.

Godspeed,

Adler von Pfingsten
