No.17 The United Nations Undone

“Will you let me go for Christ's sake? Will you take that phony dream and burn it before something happens?” Arthur Miller, Death of a Salesman

The United Nations was actually conceived in the aftermath of WWI as the League of Nations that formally came into being with the signing of the Treaty of Versailles which included provision for the first intergovernmental organization dedicated to world peace; the Covenant of the League of Nations. President Woodrow Wilson won the 1919 Noble Peace Prize for serving as the driving force behind its creation but the United States never signed the Treaty of Versailles; opting instead for separate treaties with each of the Central Powers.

With some irony, after the peace conference Wilson proclaimed "...at last the world knows America as the savior of the world!" despite his low opinion of the Constitution...while unknowingly affirming a primary reason for the United States; a nation of all nations proving to the world that people from all nations could live together in peace E Pluribus Unum as long as they embraced a common identity as Americans.

Rather than insure peace the Treaty of Versailles set the stage for WW2 and the League of Nations proved to be a failure that ceased operations at the beginning of the war. It was a war that could have started earlier had the United States congress ratified the treaty given Article 10, which gave the League of Nations the power to make war without a vote by the US Congress. The issue of sovereignty is once again at the forefront.

The League of Nations failed as has the United Nations; the UN has become a platform for tyrants and a source for never ending resolutions condemning Israel while serving as a funding conduit to support various councils, commissions and agencies including NGOs managed by neo-Marxist elites.

According to the UN Watch database in the last six years alone well over 100 resolutions condemning Israel have been brought to the floor of the General Assembly and less than 50 against the combined 192 other nations in the UN with six of those targeting the United States. The Human Rights Council is dominated by the worst human rights abusing nations in the world and every agency is steeped in neo-Marxist theology with the end result being the lesser being given legitimacy on the home field of God's greater country.

If there is anything to gain from the UN it goes to the clearest evidence Judaic prophesy can no longer be ignored; all of the nations have turned on Israel. The lesson to be learned goes to the role of the guardians of a Torah meant to bring about a true family of man...better equipped to provide solutions. Without a shared understanding of what is right and what is wrong the "united" in United Nations will always be a chimera.

The Satan and ha-satan, hinderers, exist and the ability to appeal to base human inclinations grew stronger as the belief in God grew weaker in the two decades between the end of WW2 in 1945 and 1965 when race replaced class distinctions in the theology of Marxianity. It has been all downhill for American society since that time with race squelching common sense and the demonstrable fact America was and is greatest and most dynamic culture in history; a greater people and culture meant to lead not rule over lesser peoples and cultures...a greater people and culture hindered then and now by the evil that is Marxianity.

Faith is no longer the bar given the certitude bequeathed with the matrices. The United States is exceptional and belongs to all of humanity as does Sinai and Yeshua, but just as the churches have proven to be unsure of their purpose so too the American people...creating a vacuum that was filled by the false religion of human intellectual arrogance Marxianity.

And just as the agencies of government have been seditiously been filled by Marxians enforcing critical race theory and intersectionality, so too the agencies of the United Nations where Marxists hiding behind the cloak of race have the same goal; the destruction of the United States that has the Intergovernmental Panel on Climate Change (IPCC) pushing climate change Armageddon and the WHO working hand in hand with China and Marxian academics to create enough panic to destroy the American economy.

It is not that hard to recognize evil; the entirely useless UN World Health Organization knew the Wuhan Covid-19 virus was indeed human to human transmissible but its Director-General Tedros Adhanom Ghebreyesus, Ethiopian Marxist, defended China; ignoring the warnings emanating from a now threatened Taiwan blocked from UN membership by the CCP. The decision to stop travel to and from China was declared "racist" and the rest is a historic nightmare.

Marxians implemented Draconian lockdowns using fear prompted by a March 16th Imperial College of London report written in conjunction with the World Health Organization predicting over 2.5 million American dead based upon computer models and a theory traced to a high school science project...a truth that can be found in *"Unreported Truths"* by Alex Berenson. Unfortunately, it seems western civilization is unwilling or incapable of accepting truth that for thousands of years was founded in common sense rather than statistics distorted for political gain proving Andrew Lang prophetic:

"Most people use statistics like a drunk man uses a lamppost; more for support than illumination".

Is it so difficult to believe the majority of Marxian academics would be quite willing to work with a World Health Organization in common cause with China? Is it so difficult to believe the economic shutdowns, the propagation of fear by the media and schools closed by the always paid teachers unions is actually a coordinated strategy as Planned Chaos writ large? In a more reasoned and rational time it would be difficult to believe Americans would act as if they were confronting the black plague when the statistics so loved by intellectuals actually evidences a virus more efficient than most in that the elderly and infirm succumb in numbers while the young and healthy are virtual immune.

As to the Covid deaths a reasoned individual might question the numbers when government, as it is wont to do, pays well for bad behavior i.e. thousands of dollars for anybody treated for Covid and tens of thousands for those hospitalized with the result being exactly what a Johns Hopkins statistician evidenced; Covid was a miracle in that every other death category precipitously declined. Deaths due to obesity, high blood pressure, diabetes, respiratory failure, heart failure and even cancer were listed as Covid deaths simply because they tested positive...or did they? Coroners note traffic and gunshot deaths were being listed as Covid fatalities.

The Covid *plandemic* panic is a testament to the propagandistic influence of the media, but will also stand as an indictment of a people, a culture and a nation incapable or unwilling to confront evil incarnate; cowardice writ large. Until now there was no price to pay for cowardice but with God evidenced cowardice is not an option.

Common sense should be enough but the view from the higher vantage leaves no doubt in the context of the final confrontation; Covid-19 is a well-planned and coordinated biological attack designed to cripple the United States and western civilization both economically and politically; Planned Chaos rightly assuming that unlike 1941 the United States and all of western civilization has become weak and unwilling to pay the last full measure of devotion.

There are three facts that are incontrovertible, lending to the common sense conclusion; 1) as the death toll in the United States slowly approached 200K the densely crowded epicenter, China, reported less than 5000, 2) the most likely source was the biological lab in Wuhan and with the outbreak China closed all road, rail, river and air traffic to Wuhan but allowed international flights with most to Europe and the United States, and 3) Marxism is identified as evil incarnate in the matrices.

None will speak openly in that to do so is to concede China engaged in a carefully disguised act of war...even though the statistics so loved by Marxianity leaves no other plausible explanation. And then there is maligned Dr. Li-Meng Yan evidencing the Covid-19 virus is a lab creation.

Because the scientific intelligentsia are little more than an extension of the political nomenclatura of Marxianity the question that should be asked has not been asked, but if it were an answer might be forthcoming; 'Why so few Covid deaths in China?' The Covid-19 virus is indeed novel, unique in how it attacks cells, and all should be asking how China managed to immunize its population except those in Wuhan without resorting to mass immunizations that would have been noticed. Those who fly the Maoist red flag have proven a willingness to murder over 100 million innocents in the last 100 years and it would be naïve to think a plague in the quest for heaven on earth is outside the realm of the possible.

Earthquakes, plagues, wars and rumors of wars; is it so difficult to believe the July 4th California earthquake did in fact mark the beginning of the seven years of tribulation mentioned nowhere in scripture but understood viscerally by human beings?

The question is germane to as to convergence; as Black Lives Matter extends outward to internationalize the ant-racism movement the greatest threat to black lives goes unmentioned in the media as does the plight of white South Africans. What are the chances ever so scriptural earthquakes as messages coincided with plague and pestilence on a biblical scale; the Covid-19 pandemic crippling western civilization and locust swarms threatening tens of millions of black Africans with famine?

You reap what you sow, and at the time there were clouds of locust decimating the Horn of Africa in large part due to the policies and initial response of the UN Food and Agriculture Organization under former Director General José Graziano da Silva...succeeded by QU Dongyu from the PRC.

During former Director General, Graziano da Silva's 2012-2019 tenure the FAO, like the WHO, was politicized and what was once a scientific endeavor on the heels of the green revolution that lifted billions out of hunger, was transformed into a neo-Marxist advocacy of agrarian "peasant" movements supported by neo-Marxist NGOs pressing for communal subsistence to offset neo-colonialism; equating property rights to oppression.

Americans know "agro-ecology" as "organic" food i.e. reject green revolution technology including the most advanced pesticides, fertilizers and biotechnology in favor of communal and "culturally sensitive" farming practices. Most recognize the miniscule representation of organic foods in grocery store as a *causa sui* effort to mollify Marxians but in Africa the result was locust swarms devastating Kenya in June 2019 while the FAO was simultaneously launching a "Scaling up Agroecology" effort in coordination with Marxian NGOs posing as environmentalists.

FAO Director General Qu Dongyu knows full well as do Marxians in Europe, America and the Anglosphere shifting from fossil fuels to “green energy” and agro-ecology will result in hundreds of millions of deaths in the developing world after rejecting the benefits that came with colonialism. The insanity has spread from the Netherlands to Canada and eco-terrorists are insisting that agriculture as the main source of CO2 and nitrogen must be throttled...threatening priceless art and closing highways to make the point.

When convinced of moral and intellectual superiority ideology inevitably results in the reduction of people into lesser and greater groups subject to cold calculations and eugenics i.e. eliminating people and groups to eliminate obstacles and burdens.

Hitler began his murderous social engineering project with the mentally disabled and physically handicapped then expanded the calculation to include Slavs and Poles but his focus was on the Jews. Stalin did the same and the Jews that once formed the revolution’s vanguard paid a deadly price. What both Hitler and Stalin had in common were unrelenting godless ideologies that presented the possibility of using a combination of guile and coercion to engineer a society dominated by elites, and both had the sciences silently cowering in the corner to create “science” to justify the evil. The lists of “progressive” British and American eugenicists are well known but few know the work of Harry Hamilton Laughlin whose contribution to Nazi sterilization efforts resulted in an honorary doctorate in the "science of racial cleansing" from the University of Heidelberg.

Fewer still know Stalin can be credited with giving a name to the politically compromised science that now dominates the academy.

Lysenkoism: In modern usage, the term lysenkoism has become distinct from normal pseudoscience. Where pseudoscience pretends to be science, lysenkoism aims at attacking the legitimacy of science itself, usually for political reasons. It is the rejection of the universality of scientific truth, and the deliberate denigration of the scientific method to the level of politics.

Between Paul Ehrlich’s Malthusian ‘Population Bomb’ predictions, ‘peak oil’, peak food, scarce resources, global cooling, global warming and finally climate change it would seem Americans would notice the preservation of the California Delta Smelt at the expense of Central Valley farms is a perverse form of neo-Marxist intersectionality that deems human beings as oppressors...to be eliminated so as to return the ecology to its natural state.

“Whoever preaches the return to simple forms of the economic organization of society ought to keep in mind that only our type of economic system offers the possibility of supporting in the style to which we have become accustomed today the number of people who now populate the earth. A return to the Middle Ages means the extermination of many hundreds of millions of people.”

Ludwig von Mises, *Liberalism* (1927)

In almost every environmental initiative launched by Marxians, including the “Green New Deal”, the tradeoff is half of the human population with the remaining half ruled by elites as in China. Even Engels dismissed Malthus after being witness to the greatest surge of science and technology applied to the production of goods and services in history, and yet Marxism created Zimbabwe and the now failing South Africa. There is nothing about Marxism that lends to actually producing wealth and in Africa, Zimbabwe is the prime example; after forcing whites off of large farms Robert Mugabe distributed small parcels for subsistence farming as the FAO has been advocating for years and the economy collapsed.

As to climate change it is as Leighton Woodhouse wrote in an article titled *The End of Ideology*.

Germany buys a third of its oil and a third of its natural gas from Russia, as well as more than half of its coal. Those energy sources won't be replaced by renewables any time soon, and maybe never. Battery storage technology for renewables is prohibitively expensive and there's no reason for confidence that those costs will come down. In the meantime, wind-generated energy is only available for as long as the wind is blowing, and solar only as long as the sun is shining. In order to prevent brownouts on windless and cloudy days, wind and solar farms have to be backstopped by energy from traditional fossil fuels plants. In other words, at the current level of technology, the sustainability of renewable energy depends entirely on the availability of fossil fuels. This is simply a fact of life, but one that most of us are only now beginning to acknowledge.

Renewable energy is an abundant source of delusions and Marxian political agenda fueled by the Lysenkoism which defines the “whole of government” approach advocated by Marxianity. There is no need to address climate change given the end of human history as it is understood will end with a new beginning on July 4th 2026 when He Who Is intervenes for the fourth and last time. But for those who would appreciate summaries there may be no better information than that included in two short articles; *Fake Science Fuels Climate Extremism* by David Barker for the American Institute for Economic Research (AIER) and *Climate ‘Experts’ Are 0-41 with Their Doomsday Predictions* by John Nolte for Breitbart.

There is no time to debate the fact that organizations such as Insulate Britain and Just Stop Oil among many others know full well that sustainable wind and solar energy is a pipe dream and if they are successful it will result in the deaths of hundreds of millions. It is more important to address the illegal migration destroying Europe embraced by the Marxians EU as multiculturalism and the Arab/Israeli conflict in the context of an evidenced God of Abraham/Sinai, Yeshua and 1776 close and getting closer every day.

As to Europe, historian Dominique Venner foretold of the sleeping giant now awakening: *"I do not believe that Europeans, upon learning that they are in danger, will allow themselves to be displaced. The past has shown that historic awakenings occur very slowly, but once they have begun, nothing can stop them"*

The fact that both Marxianity and Islam share the goal of world conquest should be enough to warn against associating, but an alliance between the ostensible champion of the oppressed and a political ideology posing as a religion notorious for blatant homophobia, misogyny and anti-Semitism has only one explanation; both know the United States must fall before Israel can be destroyed ergo *"The enemy of my enemy is my friend"* and as such a cold blooded political calculation holds sway. The Islamic invasion of Europe is exactly that; an invasion by design...Planned Chaos created by Obama.

The Islamic invasion of Europe was started by the evil that is Obama with four related events in 2011; the Arab Spring, the US/NATO Libyan intervention, the precipitous withdrawal of US forces from Iraq resulting in the rise of ISIS and the Syrian civil war. The EU led by Germany, France and Britain foolishly opened the door to millions of Muslims taught since birth there will be no peace until the entire world is Islamic. Muhammad is now the most popular name for newborn boys in a number of European countries.

The people of Europe will come to realize raising millions of Israeli flags in Europe will change every equation; Marxians of the EU will know everything has changed while at the same time doing so will prompt wise Sunni Muslims to return to lands promised in Genesis 15:18...in anticipation of a conversation with a God of Sinai unwilling to negotiate the safety of Israel and the house Yeshua built; a house with many rooms and each one is painted and furnished differently as it should be in a truly multicultural world.

For Ishmaelites, reason begins with another instance of scripture fusing with history in a way that defies probabilities mathematics; the promise to Abram, father of Ishmael as opposed to Abraham father of Isaac and the holy nation, in Genesis 15:18, *"To your seed I have given this land, from the river of Egypt until the great river, the Euphrates river"* describes the reality of Sunni Islam stretching from Egypt to the Euphrates with Shiite Iran beyond.

The seed of Abram, seed to be planted, is not the same as the seed of descent of Abraham; two different men but none take HaShem seriously in that they shared the same body. Sunni Islam need only stand down until 2026 and rather than attacking Israel, prudence more than suggests Ishmaelites embrace a 180 degree shift to protecting Israel against the machinations of Shite Iran while encouraging an Ishmaelite Aliyah.

The land promised to both is far too specific to be ignored by the seed of Abram and Abraham; Ishmaelites in Europe and Jews in America are being called to return to the land promised in anticipation of singularity in 2026...Aliyah for brothers from another mother.

As noted in Pamphlet No.4 Strategy and Tactics of Marxianity there is a reason multiculturalism is being pressed upon Europe even though doing so is the premise destroying the object writ large. To wit:

Multiculturalism is nothing more than a Marxian open borders strategy being forced exclusively upon the nations and cultures of western civilization in the name of tolerance, diversity and racial equity; an oxymoron in that multiculturalism is a case of the premise destroying the object. Open borders are meant to dilute cultures a thousand years in the making...a strategy aimed directly at western civilization designed to weaken the white Anglo-Saxon Protestant Judeo-Christian barrier between evil incarnate and the destruction of Israel.

Ironically, multiculturalism became intellectually fashionable after the Holocaust, but the version forced upon Europe with millions of displaced people at the end of WW2 experienced a metamorphosis when the idea was imported to the United States; secular humanists in the best 'can't we all just get along' fashion sought to dispose of the 'melting pot' in favor of a cultural mosaic. In doing so they violated the God of Sinai's primary directive; there are greater and lesser peoples and cultures and while the greater has an obligation to the lesser never is the greater to be lessened by contact with the lesser lest a thousand years of culture are lost.

Scottish common sense more than suggests the first order of business after Yeshua returns to Jerusalem in 2026 would be the restoration of borders and the reinvigoration of unique cultures i.e. true multiculturalism. Doing so will also require reversing the damage done and as such it would be advisable that every migrant threatening the house that 'as a son' Yeshua built, western civilization, not be caught out of place when the time comes.

Simple common sense would have the migrants returning to their place of origin so as to allow cultures to stabilize and regenerate...thus creating a world of true cultural diversity with the greater cultures tasked with elevating the lesser in time. As with all things Convergence Matrix the answer is in the mathematics; repeating in a way that can be read. In this instance the always present key is the most horrific crime in history...the six million innocent Jews who died in the Holocaust.

"Sometimes God allows what he hates to accomplish what he loves."

Joni Eareckson Tada, *The God I Love*

From the higher vantage 6 million is recurring and I would submit the 6 million Jewish innocents lost in the Holocaust has meaning as never before in that standing alone the words "six million" are virtually synonymous with evil. The number serves to inform and warn "coincidence" is not how one describes the hand of God when all are being called upon to recognize evil and act accordingly and in doing so transform great evil into greater good.

Consider that in the past the Marxist-Leninist Soviet Union, the evil cousin of Nazism, undertook great evil during the same period with 1) the Soviet famine of 1932–1933, the Holodomor genocide, which killed 6 million, 2) the forced resettlement of six million ethnic minorities deemed a threat, and finally, 3) six million who died in the gulags...all of whom deserve to be remembered as victims of the same evil that authored the Holocaust.

As to the future, transforming great evil into greater good in equal measure exists in five opportunities to change the world for the better in the short time left with all having six million the measure; six million practicing Jews in Israel with the world arrayed against them; six million Arabs in Gaza, the west bank and Israel proper on the land promised to Abraham, Isaac and Jacob ergo in need of a home before 2026; six million Jews in America and Europe making Aliyah; six million whites in South Africa facing genocide after uncompensated property seizures result in violence, six million Muslims in Europe to begin building the great nation of Ishmael and six million blacks in America needed in Exodus to build a great African nation to preserve Africa for black Africans before it is lost as a Marxian concession to China.

The African Exodus will require standalone Pamphlet No.18 but even on the face of it uncommon sense more than suggests calling upon blacks in America who identify as black before American declare Africa for Africans and in doing so save 6 million whites facing genocide who no longer have any reason to be in Africa. Doing so will weaken Marxianity in the lead up to 2026 thus lending to the protection of six million Jews in Israel...setting the stage for six million "Palestinians" to begin building the great nation of Ishmael.

Meaning and purpose of the highest order but not if they insist upon being called “Palestinians” when in truth the faux nationality was created in 1964 along with the flag by the PLO.

Pal•es•tin•i•an ,palə'stinēən/noun

1. a member of the native Arab population of the region of Palestine
2. a fictitious nationality which has its origins with the Soviet “national liberation movement” strategy so as to provide an identity to a group deemed to be “oppressed” and in need of liberation.

There is no way to soften the blow of what will be; Yeshua will return as Mashiach in 2026 at which time the Israel promised to Abraham, Isaac and Jacob will become a reality. There will be no better offer than the offer of peace with terms that is the Convergence Matrix; the God of Abraham, Sinai, Yeshua and 1776 is letting Islam know that the only escape route is a great Sunni nation...*Ishmael*.

The end of days have arrived and now with less than four years remaining the blows cannot be softened, but impact on the ground can be mitigated by the numbers; six million is a reoccurring number that cannot be ignored. There are six million practicing Jews in Israel. There are six million Arabs in Gaza, the West Bank and Israel proper. There are six million in Lebanon who need not be concerned about 2026 as long as they do not engage or enable attacks on Israel. There are six million whites in Africa to be evacuated in exchange for six million blacks in America who identify as black before American returning in the African Exodus to build a great African nation. And finally, between the United States and Europe there are six million Jews that must make Aliyah to Israel before 2026.

Six million is not the only numerical “coincidence” as it concerns a common sense solution to the “Palestinian” issue; when one calculates the length of the coastline going north from Lebanon including the Tartus/Latakia Governorates of Syria combined with the Hatay (appendix) Province of Turkey it constitutes a strip of land on the Mediterranean that equals Israel’s shoreline. The Tartus Governorate is 731 sq. mi. / the Latakia Governorate is 887 sq. mi. / the Hatay Province is 2133 sq. mi. for a total of 3751 sq. mi. far exceeding the 1450 sq. mi. of arable land in Israel...enough shoreline to create an Arab Riviera and enough land to absorb the every Palestinian in need of a land to call their own and every Muslim in Europe wise enough to recognize mathematics incapable of deceit.

Hatay Province is a dirty little secret kept quiet and away from outside eyes; Hatay was annexed in 1939 within a year of the death of Turkey’s founder Ataturk who recognized it as a Syrian province and since then has remained an unresolved issue...until now.

Land for peace has been a mantra for decades as have the two state and one state “solutions” and all have failed miserably; a variety of solutions given clarity in a piece titled *The Israeli Solution: A One-State Plan for Peace in the Middle East* published May 2017 for Air University Press and a history outlined in *Israel-Palestinian Negotiations: History & Overview* at the Jewish Virtual Library. One of the greatest mistakes Israel made was to relinquish Gaza in 2005 only to have Hamas transform the concession into a launch pad for terror.

We hoped for peace, but no good came; for a time of healing, but behold, terror. Jeremiah 8:15

It is both reasonable and logical a just God of Sinai would impose upon Islam the definition of justice they themselves imposed upon Israel. The land for peace solution requires detaching the festering appendix that is Hatay Province from Turkey to be joined with Tartus and Latakia to create a federal district much like the District of Columbia; the capitol of *Ishmael*.

It is incumbent upon the House of Saud to take the lead and join with the Jordanian, Omani, Bahraini, Kuwaiti, Qatari and Emirates royal families in that Genesis 17:20 is clear; “And regarding Ishmael, I have heard you; behold I have blessed him, and I will make him fruitful, and I will multiply him exceedingly; he will beget twelve princes, and I will make him into a great nation”. The only question is the identities of the twelve princes; twelve Ishmaelite princes chosen from the royal families who have faith God does not err.

Sunni scholars know the Torah and with the immutable mathematics of the matrices can see the writing on the wall made clear with this writing; any serious attempt to destroy Israel will result in a cataclysm Mecca and Medina would not survive...yet Iran is willing to create a cataclysm to prompt the reappearance of the 12th Imam. Ironically, it will take a great statesman as the Mahdi is described to unite Sunni Arabs behind an idea whose time has come; an Arab Riviera and the capitol of a great Ishmaelite nation...at peace with each other, their half-brothers in the House of Israel and the Jews of the Lesser House of Judah Christianity.

The primary impediment to the nation of Ishmael will be the establishment elites in the west incapable of conceding royalty is at times preferable to democracy and two secular tyrants, Recep Erdogan of Turkey and Bashar al-Assad of Syria. That evil exists to test reason is evidenced by the two tyrants; of all the countries and kingdoms in the Middle East *what are the chances* these two would be positioned to block the creation of a federal district where the best minds and funding of Ishmaelite royalty could build a capitol for the Ishmaelite nation?

Bashar al-Assad will likely step aside or join the effort when the idea of a great Ishmaelite nation takes hold of imaginations as to what can be, but not Recep Erdogan who will align with Russia, China and Iran, the final obstacle to world peace, to oppose any land for peace idea that would be tantamount to ending the Islamic effort to destroy Israel.

Erdogan would rather die and take his people with him rather than admit a bold solution to the Arab/Israeli conflict must necessarily include a place Palestinians can call home and the only way to right the wrongs caused by the pens of British map makers 100 years ago...so too a homeland for the Kurds cut from Turkey, Syria and Iraq. This is the last opportunity for Turkey to earn redemption for the Armenian genocide and Erdogan for his false pride.

It is only within the context of a nascent Ishmaelite nation led by the House of Saud that peace unto 2026 is possible but the royal families will not be alone. There are upwards of 60 million displaced people in the world and talk of civil war is common. The question for humanity is simple; how much effort and treasure are the nations of the world willing to pay to end the Arab/Israeli conflict and make the African Exodus a reality before a spark ignites a conflagration thus forcing the hand of a wrathful God of Abraham?

Like the African Exodus it begins with embracing an identity that speaks to a history of belonging; for blacks making the Exodus it is citizens of Africa, Africans, and for Ishmaelites citizens of Ishmael. There is nothing to stop an army of architects, engineers and planners from creating the plans for both Africa and Ishmael; plans that will provide a vision of what can be; plans that will provide a path to destiny for people in need of something to believe in; plans for a world of meaning and purpose...in lockstep with the God of Abraham close and getting closer every day.

Predicting the July 21st Aleutian earthquake and the message therein were not difficult but the prospect of six million Jews making Aliyah will be difficult for many...but unavoidable. God will be writing as many messages in the ink of natural phenomenon as necessary between now and the end of time as it is understood...with each one making clear there is no time to waste.

Those with eyes to see and ears to hear, those looking to the oracle of reason, will come to realize the July 4th 2026 date is an act of grace; a date that can only be reached if mankind deserves forbearance. Should there be a conflagration in the interim He Who Is will intervene as necessary...and all those now being offered redemption will have squandered the act of grace.

Remember, look to the mathematics; Sir Isaac Newton knew long before 1948 the Jews would return to Israel. In his *Observations upon the Prophecies of Daniel and the Apocalypse of St. John*, first published five years after his death, Newton wrote "...since the commandment to return precedes the Messiah...it may perhaps come forth not from the Jews themselves, but from some other kingdom friendly to them, and precede their return from captivity and give occasion to it...The manner I know not. Let time be the interpreter".

Time, as history fused with the mathematics of Pascal and guided by Judaic scripture, has been interpreted; the third direct intervention in 1776 gave the world the United States and Israel has been reestablished. That truth alone should be enough to convince a cynical world the plan set forth by the God of Abraham is nearing an end...and the time has come to embrace certitude; a healthy fear of God and learning to walk the walk of the righteous; one right with God.

For those who ignore the act of grace that is the Convergence Matrix there is Zechariah 12:1-9; the sleeping giant that is a wayward United States will rise as a "...fiery stove among wood, and as a brand of fire among sheaves". It begins with reminding the Christian churches that Yeshua was quite clear: "Do not think that I have come to bring peace to the earth. I have not come to bring peace, but a sword. For I have come to set a man against his father, and a daughter against her mother, and a daughter-in-law against her mother-in-law. And a person's enemies will be those of his own household."

The United Nations is incapable of providing solutions which in and of itself evidences the same ideology that guides Marxianity; an ideology that prioritizes the creation of dependency that will have an end in 2026. One need only look to the United Nations Relief and Works Agency for Palestine Refugees in the Near East (UNRWA) which was established by the UN General Assembly to provide assistance to "persons whose normal place of residence was Palestine during the period 1 June 1946 to 15 May 1948, and who lost both home and means of livelihood as a result of the 1948 conflict" i.e. the failed attempt by Arab countries to destroy Israel after its founding. Its mandate is subject to renewal every three years...24 times since 1948. Obviously, a solution is not the intent.

"The Jews are a peculiar people: Things permitted to other nations are forbidden to the Jews. Other nations drive out thousands, even millions of people, and there is no refugee problem. Russia did it. Poland and Czechoslovakia did it. Turkey threw out a million Greeks and Algeria a million Frenchmen. Indonesia threw out heaven knows how many Chinese--and no one says a word about refugees.

But in the case of Israel, the displaced Arabs have become eternal refugees. Everyone insists that Israel must take back every single Arab. Arnold Toynbee calls the displacement of the Arabs an atrocity greater than any committed by the Nazis. Other nations when victorious on the battlefield dictate peace terms. But when Israel is victorious it must sue for peace. Everyone expects the Jews to be the only real Christians in this world." Eric Hoffer

When UNRWA began operations in 1950 there were 750,000 "Palestinians" registered and today there are over 5 million with 1.5 million living in 58 recognized Palestine refugee camps in Jordan, Lebanon, Syria, the Gaza Strip and the West Bank, including East Jerusalem. The history of dependence and anger is mirrored by that of blacks in America since 1965 and the reason is the same; cannon fodder and unending urban terrorism to create Planned Chaos. The only solution is the creation of the great states of Ishmael and another in Africa.

And then there is the specious Human Rights Council made up of 47 member states; responsible for promoting and protecting global human rights. The 47 states are elected to the HRC by the General Assembly by direct and secret ballots; counting as members China, Cuba, Pakistan, Russia, Somalia, Sudan and Venezuela.

The laughingly named United Nations is nothing more than a facilitator of a distinctly Marxian globalization effort at war with the G^d of Israel and the house of Israel...the Jews. If one is still maintaining the higher vantage, consider the stated goals of the original League of Nations and now the United Nations versus the actual results; very little in the way of solutions have ever been forthcoming but as a platform for tyranny and alliances against western civilization, and Israel in particular, the body has excelled.

In what was viewed at the time by many as the greatest betrayal of Israel by America, Obama ordered an abstention vote in the UN Security Council by "Responsibility to Protect" Ambassador Samantha Power as to Security Council Resolution 2334 condemning Israeli settlements as a violation of international law thus ascribing the label "illegal" to that which is being built on Israeli soil; the so called "occupied territories" lost to Israel after a failed war to destroy them hearkening back to the Eric Hoffer quote.

Some give Obama the benefit of the doubt; suggesting he actually believes Israeli settlements are an impediment to peace. I suffer no such delusions and would point out the resolution was first submitted for consideration months before by Sisi of Egypt but after talking with president elect Trump Egypt withdrew on December 23rd only to have Obama put out the word he would not veto the resolution which signaled Malaysia, Senegal, New Zealand and Venezuela to bring up Resolution 2334 for a Friday, December 24th, vote.

I would suggest Obama couldn't resist the opportunity to insult both Christians and Israel on Christmas Eve as he was preparing to exit the White House after insuring Trump would be hobbled by the Russian Collusion hoax.

Sen. Tom Cotton issued a statement which read: "President Obama is personally responsible for this anti-Israel resolution. His diplomats secretly coordinated the vote, yet he doesn't even have the courage of his own convictions to vote for it. This cowardly, disgraceful action cements President Obama's richly deserved legacy as the most anti-Israel president in American history"

Samantha Power and husband Cass Sunstein are preeminent bishops of Marxian theology and Power once suggested intervention to avert genocide in Palestine by Israelis citing similarities leading to the Rwandan genocide i.e. an American military force to protect the politically contrived "Palestinians" who state clearly in their charter, like Hamas and Hezbollah, the destruction of Israel and the Jews is the goal. Nowhere is there a demand the groups disavow the destruction of Jews and killing of Christians as unbelievers and yet all are to be afforded a place at the negotiating table.

From a higher vantage the true depth of the betrayal by Obama and the need for deception as a tactic by Marxianity is plain to see; UN Council Resolutions and meetings to be attended by 70 states to discuss a two state solution do not appear overnight. Marxianity did not anticipate the miracle that was the Trump victory and were sowing the seeds of the Power "Responsibility to Protect" military intervention in Israel.

Security Council Resolution 2334 condemning settlements in December 2016 was to be followed almost immediately by a meeting of 70 nations in France on January 17th to impose the two state solution on Israel. Had Clinton won the presidential election there are any number of scenarios resulting in the second coming of Obama and a clear path to use military force upon Israel.

"O God, have no silence, do not be silent and do not be still, O God. For behold, Your enemies stir, and those who hate You raise their heads. Against Your people they plot cunningly, and they take counsel against Your protected ones. They said, "Come, let us destroy them from [being] a nation, and the name of Israel will no longer be remembered." For they have taken counsel with one accord; against You they form a pact." Psalm 83: 2-6

Look to the meeting of 70 nations in Paris and you will find sitting at the table John Kerry advancing the two state solution that is not a solution but a death sentence for Israel. Kerry and Obama are literally the tools of evil incarnate and both have an agenda as evidenced by the 70 nation meeting designed to solidify and formalize the alignment of nations against Israel.

The mere fact the meeting consisted of 70 nations is significant as it concerns Torah scholars; 70 nations has cross references in the Torah and Talmud signifying 'all the nations of the world'. The findings were as expected; Israel, which has already engaged in land for peace ceding 7% of its territory was being told a two state solution was the only viable path and Israel would have to give up territory "occupied" since the failed 1967 attempt to destroy them including control of east Jerusalem and Judaism's most sacred site; the "wailing wall".

The miracle 2016 election of Trump foiled the plans of Obama and Marxianity. Before reading the next few paragraphs it would be wise to read *THE TRUTH ABOUT UNRWA* written by Ted Belman for Israel Unwired.

The logic of Resolution 2334 had nothing to do with history and the accepted rules of territory concession when a nation or nations engage in failed aggressive wars; Turkey claims membership in the European Union by virtue of a sliver of territory conquered by the Ottoman Empire which includes the Hagia Sophia, built in the 6th century and the largest Christian cathedral for almost a thousand years. When the final confrontation is over Turkey will have withdrawn across the Bosphorus.

That Islam retains a toehold in Europe is the result of failing to demand the common sense concession of territory by a defeated Turkey at the Paris Peace Conference of 1919 which has ominous implications; Turkey has returned to Muslim Brotherhood Islam with membership in NATO thus exposing Israel to a "false flag" incident...which has most certainly crossed the minds of the 70 that embraced the unwritten Paris pact.

Israel is being targeted, with Israel defined as the worst offender of human rights by the UN...with the nations aligned against her insisting all the problems of the world will vanish if Jews vanish echoing the belief of Adolph Hitler. The past is prologue but in this instance God is providing guidance with the Convergence Matrix.

"And they healed the breach of My people easily, saying, "Peace, peace," but there is no peace. They shall be put to shame since they have committed abomination. Neither are they ashamed nor do they know to feel disgrace." Jeremiah 8:11-12

Merciful to All; Judaism must define That Which Must Be

Yes, there is hope, my friend, for we are still here, our last word is not yet spoken, our last deed is not yet done, our last revolution is not yet made. This last Revolution, the Revolution that will crown our revolutionary work, will be the revolution against the revolutionaries. It is bound to come, and it is perhaps upon us now. The great day of reckoning is near. It will pass a judgment upon our ancient faith, and it will lay the foundation to a new religion. Yours against the Revolution and for Life ever flourishing.

Oscar Levy, *The World Significance of the Russian Revolution*, 1920

Hear now and understand; see now and perceive; you were chosen for a reason...from that first day when He Who Is infused the Jewish family with Torah the chosen people were intended to be priests of a holy nation. As such, there is a responsibility to recognize, embrace and boldly proclaim our Lord's will as evidence by His hand; Yeshua as the consummate Jew; the carpenter who built a refuge for the chosen people to survive 2000 years of godlessness and HaShem's paschal lamb to allow gentile adoption as Jews of a lesser house...should be proudly welcomed home and the intended instruction clarified as only Judaic scholars can.

With this writing Yeshua has been lifted above the accepted classifications of both Judaism and the ostensibly Christian churches to his rightful position; Yeshua as a Jewish messiah of purpose; Yeshua as the just judge who lived the life of a human being; Yeshua "as a son" of G+d...and the ostensible head of an existing church utterly lacking the necessary definition to give substance to One Faith-One Voice let alone an overarching understanding of total commitment to G+d entails; That Which Must Be.

The truth is that for over 1700 years Christian religious institutions have never once managed to live up to even their own expectations, failing grievously save for western civilization which required the direct intervention of our Creator to bring to fruition. Even then, western civilization is more a testament to the power of the idea that was Yeshua, the Torah adherent Jew, rather than those entrusted with his memory in that none were capable of transmitting even the most fundamental aspect of his very purpose; build a refuge for the chosen people by expanding the Jewish family born at Sinai by adoption as set forth by Israel when he adopted Ephraim and Manasseh.

Until Christians, their churches and their religious institutions, set aside their pride and vanity then humble themselves before the G+d who gave the world Torah at Sinai none can have a role in defining That Which Must Be; churches incapable of defining that which is agreed upon cannot assist in defining That Which Must Be.

"There is only one religion, though there are a hundred versions of it." George Bernard Shaw

There are billions of people literally dying for want of definition and understanding and no time for family debates; the definition has been provided by the Convergence Matrix but the existing religious institutions of Christianity cannot be expected to set aside pride and vanity to provide what G+d is demanding as a condition of peace; That Which Must Be; faith according to His measure. The *Anshei Knesset HaGedolah* must be reconvened in Jerusalem so as to provide guidance with a Halakhah for JudeoChristians the first priority.

The time of the prophets passed with Yeshua and in the absence of Ezra, Nehemiah, Zechariah and Malachi, new spiritual foundations built upon the old are needed to usher in a new beginning. There are 72 priests and learned rabbis in the House of Israel HaShem will call to sit in council to provide mankind the necessary understanding and guidance now that Judaism has *something to believe in* far exceeding previous understanding. The 72; 18 Rabbis each from the ranks of the Orthodox, Reform, Conservative and Messianic branches...in that Judaism must also unite.

This is the moment the chosen people have been waiting for almost 3500 years; the destiny of the chosen people has always been to define That Which Must Be which makes uncommon sense now in the context of the matrices and this writing; the world has run out of time and there is but this one opportunity. Rabbi Hillel the Elder framed the responsibility of a kingdom of priests, and a holy nation succinctly: *"If not you, who? If not now, when?"*

The House of Israel Judaism must define for the world That Which Must Be; overarching understanding of what certitude entails to provide a tent under which both the House of Israel and the House of Judah can join as family and yet retain their individual identity bound by the tie that binds; the cord that is Yeshua and Torah.

Both houses have no choice but reconcile themselves to the extended family intended by G+d and made possible by Yeshua; there is a **מצוה מלחמת** looming and the rise of the JudeoChristianNation advocating One Faith-One Voice in alliance with the Holy Nation to confront Marxian Gog and Islamic Magog is the last best hope for an as deserved singularity in 2026.

Do not rely upon your own understanding but know that with faith there must also be a vision of a world at peace; the world must have an assembly beholding only to G+d as an alternative to the United Nations.

The 72 Rabbis will have Torah to provide the necessary wisdom and courage to complement academic credentials; doctorates in specific disciplines with one Rabbi from each of the four categories of Rabbis representing: Economics, Finance, Physical Science, Education, Technology, Political Science, History, Medicine, International Law, Mental Health, Urban planning, Transportation, Agriculture, Food Processing, Manufacturing, Energy, Infrastructure and Engineering,

For those who realize the Creator presenting is first and foremost an incomprehensible intellect there is the opportunity to seek tangible solutions developed by 72 Rabbis fusing the essential instruction of Torah with that of Yeshua and unalienable rights...then applying the wisdom independently to issues and conflicts; publishing conclusions to be compared with the solutions and compromises offered by the current constructs of mankind such as the United Nations and legislatures no more capable of moving away from dogma than the churches. The African Exodus and Ishmael will need advocates.

There are a number of issues dividing mankind and the current constructs are ill-equipped to provide solutions beyond tenuous short term compromises. The speciously named United Nations is nothing more than a platform for tyranny which is obsessed with passing resolutions condemning Israel for every perceived wrong in the world. Mankind will have to acclimate to solutions originating in Jerusalem after 2026 and in the interim there is every reason to begin the paradigm change.

The *Anshei Knesset HaGedolah* must stand alone and not wait for the world to come to them but instead go to the world. For those pressing issues causing stress and chaos the assembly need only develop a means to identify and select the most pressing for consideration; to be debated with stringent procedural rules as to cloture, agreement and format for formal releases issue of findings. The world will soon come to the *Anshei Knesset HaGedolah* in Jerusalem for their opinion.

The *Anshei Knesset HaGedolah* will require a worthy structure overlooking the temple mount...an opportunity for someone, somewhere, searching for meaning to be righteous before God. The time has come to think on a biblical scale while viewing the world from the higher vantage; the restoration of the tree, roots, trunk and branches, was inevitable.

Deeply consider Ecclesiastes 4:9-12; Judaism and JudeoChristianity are the two better than one...with all due respect to Marc Z. Brettler: *Two are better than one, since they have good reward for their toil. For if they fall, one will lift up his friend, but woe to the one who falls and has no second one to lift him up. Moreover, if two lie down, they will have warmth, but how will one have warmth? And if a man prevails against the one, the two will stand against him, and a three stranded cord will not be quickly broken.*

There is very little time...*Do you really believe G'td would leave evidence of existence and the needed definition of history in history simply to have the evidence ignored?*

Anshei Knesset HaGedolah; Halakhah for all Mankind

The Christian churches are also virtual blank slates at this point and after 1600 years of being wrong none can be trusted to define how one walks the walk of the righteous with less than four years remaining. Only Rabbinical scholars armed with an explanation of Yeshua as a now well defined messiah of purpose are in positioned to in turn defined That Which Must Be; a Halakhah for all mankind. It is incumbent upon the Israeli government in conjunction with the Chief Rabbinate to establish/reestablish the *Anshei Knesset HaGedolah* to independently provide nonbinding answers and recommendations to any nation that comes in peace seeking guidance; 72 PhD chosen from 18 professions...all rabbis as detailed in *Not Peace but the Sword; the Convergence Matrix*.

The *Anshei Knesset HaGedolah* is the reasonable and logical institution to fill the void when the United States withdraws from the United Nations and reasserts national sovereignty in the near future; a unique institution with a foundation of stone hewn from Sinai entirely devoid of political power relying instead upon moral suasion and the logic inherent in well-reasoned answers to pressing questions crafted by 72 formidable Jewish minds who may well represent the last best hope for a reasoned peace with terms. It is also the most reasonable and logical institution to impress upon mankind the fundamental difference between religion and/or ideology and Torah; the instruction provided by an extant Creator.

That Which Must Be, a Halakhah for all mankind, would be significantly different from the Halakhah of Judaism with its 613 mitzvot, commandments, regulating everything from worship to festivals to daily life given the covenant delivered by Yeshua intended for all mankind by HaShem; the New Covenant described in the accurate translation of Jeremiah 31:30-32...now enhanced by the addition of the "Laws of Nature and of Nature's God", the unalienable rights of the Declaration of Independence and finally the Constitution as governance intended for all mankind.

Judaism has always known the world would not know peace until the entire world knew Torah but never once did the greatest Jewish scholars, including those who determine there would be 2000 years of "godlessness" after the fall of the 2nd Temple, think in terms of a plan that would require Judaism to reassess its role in the plan; the 2000 years began with the crucifixion of Yeshua. Judaism need only reconsider Yeshua in the context of a plan for all mankind.

Every human being is precious to HaShem and given the small number of Jews in the house of Israel, more inclined to close communities rather than setting sail to explore, just how were the Jews to be the light of salvation to the ends of the earth when there were entire continents that would wait over 1300 years for explorers and hundreds more years for the birth of nations?

The answer is now obvious; Yeshua gave life to a church that never realized its full potential but did manage, come kicking and screaming, the establishment of the United States and the reestablishment of Israel; it wasn't Captain Cohen killed in Hawaii, Menachem circumnavigating the earth or Chizkiyahu Ciechanover to "discover" the Americas; Christians opened up the world and the United States for all its faults made it what it is today.

Judaism is right about the 2000 years but it began in 26AD with the crucifixion of Yeshua and because there is a Declaration of Independence and Constitution bearing the imprimatur of God Israel was reestablished...ergo it is safe to say "godlessness" is inoperative.

"Klieg, klieg, klieg-du bist a nar. You are smart, smart, smart-but you are not so smart!"

HaShem is more than suggesting with the matrices that Judaism return to the beginning to understand the end and to the end to understand the beginning. As the end approaches Judaism has an obligation to return to the beginning and think of Torah for all mankind in three distinct phases; Sinai, Yeshua and 1776 for three different but entirely understandable reasons. In retrospect it all makes uncommon sense, but to assuage Jewish pride I would remind Judaism of Ecclesiastes 3:11:

"He has made everything beautiful in its time; also the [wisdom of] the world He put into their hearts, save that man should not find the deed which God did, from beginning to end."

Ecclesiastes 3 begins with "Everything has an appointed season, and there is a time for every matter under the heaven"; the chapter is arguably the most widely known and beloved scriptural poetry. But Ecclesiastes 3:11 is without doubt the quintessential example of a specific message for a specific time in accord with the central theme of the poetic verse; *the [wisdom of] the world He put into their hearts, save that man should not find the deed which God did, from beginning to end.* How can it possibly be that billions of people have never noticed the 250 year increments starting in 70AD unless, as was done with the temple authorities and Yeshua, HaShem pulled a veil over the eyes of humanity until the appointed time?

That time is now and HaShem fulfilled His promise all things would be made known by evidencing His existence as an unfathomable intellect and power guiding mankind according to a plan which requires a deeper understanding than *the wisdom of the world*; a worldly wisdom inherent to human intellect incapable of seeing let alone admitting the obvious. The Israelites have known since Sinai the words of the Torah have two characteristics; the *peshat* and the *sod*; the literal prima facie meaning and the deeper meaning best understood as the soul or spiritual aspect of the Torah bridging this world to the world to come...but who could have known Torah would be fused with human history and mathematics to write a message across the tablet of time as the *peshat* and an offer of peace with terms as the *sod*?

Who could have known that in its entirety the matrices also serve as a parable as to how and what HaShem is thinking? The specificity of the earthquakes and the clear message is reason not prophesy. Why is it so difficult to convince a cynical world that world peace is actually possible for the first time in human history; the end of history as it is understood and a new beginning need not and should not be preceded by unnecessary suffering and conflagration? From the Convergence Matrix:

---There are billions of people literally dying for want of definition and understanding and no time for family debates; the definition has been provided but the existing religious institutions of Christianity cannot be expected to set aside pride and vanity to provide what G+d is demanding as a condition of peace; That Which Must Be; faith according to His measure. The *Anshei Knesset HaGedolah* must be reconvened in Jerusalem so as to provide guidance.

The time of the prophets passed with Yeshua and in the absence of an Ezra, Nehemiah, Zechariah or Malachi, new spiritual foundations built upon the old are needed to usher in a new beginning. There are 72 priests and learned rabbis in the House of Israel HaShem will call to sit in council to provide mankind the necessary understanding and guidance now that Judaism has *something to believe in* far exceeding previous exegesis.

This is the moment the chosen people have been waiting for almost 3500 years; the destiny of the chosen people has always been to define That Which Must Be which makes uncommon sense now in the context of the matrices and this writing; the world has run out of time and there is but this one opportunity. Again...Rabbi Hillel the Elder framed the responsibility of the priests of a holy nation succinctly: *"If not you, who? If not now, when?"*

The House of Israel Judaism must define for the world That Which Must Be; overarching certitude to provide a tent under which both the House of Israel and the House of Judah Christianity can join as family and yet retain their individual identity bound by the tie that binds; the cord that is Yeshua. Both houses have no choice but reconcile themselves to the extended family intended by G+d and made possible by Yeshua; there is a **מלחמת מצווה** fully engaged and the rise of the JudeoChristianNation advocating One Faith-One Voice in alliance with the Holy Nation to confront Gog Marxianity and Magog Islam is the best hope for an as deserved singularity in 2026.

Do not rely upon your own understanding but know that with faith there must also be a vision of a world at peace; the world must have an assembly beholding only to G+d. (end of excerpt)

As an emissary writing ex cathedra advocating the uncommon sense of a needed quantum change, I would ask every individual on earth, and every nation, wanting to live in peace to in turn advocate for the establishment/reestablishment the *Anshei Knesset HaGedolah* in Jerusalem; convince the Holy Nation to fulfill a mandate commanded in the beginning left undone but now possible in the end. The billionaires lorded over bits and bytes of binary codes would be well advised to embrace an opportunity offered but once yet carrying the weight of endless opportunity versus endlessness separated from God.

Deciding what to do should not be difficult for those most familiar with the quantum magnification of the power attendant to the bits and bytes that make up the most elementary level of the binary existence they now presume to lord over; an existence actually lorded over by a God of Sinai intellectuals and scientists would love and better understand by first asking the question 'what are the chances' and then beginning a forever conversation. What average Americans should do to cut the lines to lesser peoples and cultures so as to exert both political sovereignty and control of America's intended destiny is obvious...sever the ties that bind to the United Nations.

The United Nations Undone - To wit:

U.S. Representative Mike Rogers (R-AL-03) announced he reintroduced the American Sovereignty Restoration Act of 2022 (HR7806). The legislation would withdraw the United States from the United Nations and the World Health Organization.

"The United Nations has repeatedly proven itself to be an utterly useless organization. The UN's founding charter states the UN's mission 'to reaffirm faith in fundamental human rights, in the dignity and worth of the human person, in the equal rights of men and women and of nations large and small.' However, the UN High Commissioner for Human Rights Michelle Bachelet has proven herself to be nothing more than a puppet for the Chinese Communist Party – aiding the CCP in playing down the very real and horrifying genocide being carried out against Uyghur's. It's unconscionable that China continues to sit on the UN Human Rights Council even as it carries out this disturbing genocide on top of its numerous and daily violations of basic human rights. It's clear the UN has abandoned the ideals set in its founding charter and that's why, among many other reasons, I've reintroduced legislation to withdraw the United States from the UN,"

"This legislation would also withdraw the United States from the corrupt World Health Organization. The WHO lost all credibility when they chose to put public health second to the Chinese Communist Party by helping the CCP cover up the origins of COVID-19"

HaShem is sovereign and His nation of all nations must regain its sovereignty so as to fulfill a purpose unto God; confront and subdue the false religion of intellectual arrogance Marxianity, provide the last exit for Sunni Islam, free blacks who identify as black before American enslaved by Marxianity so as to realize a destiny 400 years in the making...and most importantly protect and defend the Holy Nation and Israel until Yeshua sits in 2026 Jerusalem. Not one individual can deny that without the United States Israel would not have been reestablished.

The following seven pages are the official text of the American Sovereignty Restoration Act of 2022 (HR7806).

Godspeed,

Adler von Pfingsten
